

Greater Spotted Eagle

FIRST PLUMAGE

Rather rectangular wings, with a short tail, giving it a rather compact appearance. General colouring brown, with the body variably mottled with white. Grey, finely barred remiges up to 3/4 of the feather, with the bases of the outer primaries pale and the tips of the fingers darker. Under and uppertail-coverts pale, with feathered tarsus.

in command of the situation but only because Sitting Bull recognized him as a true friend who would do everything possible to help the Sioux. Although the Americans wanted the Sioux back and the Canadians wanted them to go back, the Canadian government was bound by its promise to grant refuge to the Indians as long as they obeyed the law. Narrating actual events and depicting Sitting Bull and his followers, this historical novel describes the war against the Sioux and other tribes in the late nineteenth century.

The Eagle Watchers Ruth Tingay, Todd Katzner, 2011-01-15. Eagles have fascinated humans for millennia. For some, the glimpse of a distant eagle instantly becomes a treasured lifelong memory. Others may never encounter a wild eagle in their lifetime. This book was written by people who have dedicated years to the study of eagles to provide an insider's view for all readers but especially those who have never been up close and personal with these magnificent yet often misunderstood creatures. In their stories, twenty-nine leading eagle researchers share their remarkable field experiences, providing personal narratives that don't feature in their scientific publications. They tell of their fear at being stalked by grizzly bears, their surprise at being followed by the secret police, their embarrassment when accidentally firing mortar rockets over a school gymnasium, and their sense of awe at tracking eagles via satellite. The reader experiences the cultural shock of being guest of honor at a circumcision ceremony, the absurdity of sharing an aquatic car with the Khmer Rouge, and the sense of foreboding at being press-ganged into a frenzied tribal death march through the jungle. *The Eagle Watchers* covers twenty-four species on six continents, from well-known bald eagle, golden eagle to obscure black and chestnut eagle, New Guinea harpy eagle, and from common African fish eagle to critically endangered Philippine eagle, Madagascar fish eagle. The diverse experiences vividly described in this book reveal the passion, dedication, and sense of adventure shared by those who study these majestic birds and strive for their conservation. Featuring stunning color photographs of the eagles, information on raptor conservation, a global list of all eagle species with ranges and conservation status, and a color map of the sites visited in the book, *The Eagle Watchers* will appeal to birders, conservationists, and adventure travelers alike. To further support the conservation programs described in this book, all royalties are being donated to two leading nonprofit organizations for raptor conservation training and fieldwork: Hawk Mountain Sanctuary Intern Program and the National Birds of Prey Trust.

Before Custer M. John Lubetkin, 2015-02-25. The firsthand accounts compiled here by M. John Lubetkin document the survey's three-month struggle with the Lakotas and other Plains Indian people. Before Custer: Surveying the Yellowstone, 1872, tells the story of a military and public relations disaster. Much to the surprised dismay of U.S. Army strategists and railroad executives, the Indians repeatedly harassed army forces of nearly a thousand men.

Leaves of Grass Susan Belasco, Ed Folsom, Kenneth M. Price, 2007-01-01. This comprehensive volume celebrates the 150th anniversary of the 1855 edition of Walt Whitman's *Leaves of Grass* with twenty

essays by preeminent scholars representing a variety of critical perspectives that focus exclusively on the original edition. Once regarded as primarily a collector's item, this edition is now viewed as the poet's most bold and compelling articulation of the possibilities of American democracy. The essays weave a rich tapestry of the most current innovative criticism on this foundational book of American poetry. The contributors treat Whitman's poetry, his biography, his politics, his reception in the United States and abroad, race and ethnic issues, nineteenth-century America, and even the complex typographical history of the first edition of *Leaves of Grass*. The volume also includes a tribute from the renowned poet Galway Kinnell. **Bulletin** National Museum of Canada, 1937

Crazy Horse Kingsley M. Bray, 2006 *Crazy Horse: A Lakota Life* corrects older idealized accounts and draws on a greater variety of sources than other recent biographies to expose the real Crazy Horse, not the brash Sioux warrior we have come to expect, but a modest, reflective man whose courage was anchored in Lakota piety. Kingsley M. Bray has plumbed interviews of Crazy Horse's contemporaries and consulted modern Lakotas to fill in vital details of Crazy Horse's inner and public life. To this day, Crazy Horse remains a compelling symbol of resistance for modern Lakotas. *Crazy Horse: A Lakota Life* is a singular achievement, scholarly and authoritative, offering a complete portrait of the man and a fuller understanding of his place in American Indian and United States history. **Mysticism** Jess Hollenback, 1996-09-15 This sweeping study of mysticism by Jess Hollenback considers the writings and experiences of a broad range of traditional religious mystics, including Teresa of Avila, Black Elk, and Gopi Krishna. It also makes use of a new category of sources that more traditional scholars have almost entirely ignored: namely, the autobiographies and writings of contemporary clairvoyants, mediums, and out-of-body travelers. This study contributes to the current debate about the contextuality of mysticism by presenting evidence that not only are the mystic's interpretations of and responses to experiences culturally and historically conditioned, but historical context and cultural environment decisively shape both the perceptual and affective content of the mystic's experience as well. Hollenback also explores the linkage between the mystic's practice of recollection and the onset of other unusual or supernormal manifestations, such as photisms, the ability to see auras, telepathic sensitivity, clairvoyance, and out-of-body experiences. He demonstrates that these extraordinary phenomena can actually deepen our understanding of mysticism in unexpected ways. A unique feature of this book is its in-depth analysis of empowerment, an important phenomenon ignored by most scholars of mysticism. Empowerment is a peculiar enhancement of the imagination, thoughts, and desires that frequently accompanies mystical states of consciousness. Hollenback shows its cross-cultural persistence, its role in constructing the perceptual and existential environments within which the mystic dwells, and its linkage to the fundamental contextuality of mystical experience. [The Birds of Africa: Volume I](#), 2020-06-25 This is the first volume in the *Birds of Africa* series, covering the rich avifauna of the world's second largest continent. Volume I treats the first 10 orders, from Ostrich to birds of prey. Universally recognised as by far the most authoritative work ever published on the subject, *The Birds of Africa* is a superb multi-contributor reference work with encyclopaedic species texts.

stunning paintings of all species and numerous subspecies hundreds of informative line drawings detailed range maps and extensive bibliographies Each volume contains an Introduction that brings the reader up to date with the latest developments in African ornithology including the evolution and biogeography of African birds Diagnoses of the families and genera often with superspecies maps are followed by the comprehensive species accounts themselves These include descriptions of range and status field characters voice general habits food and breeding habits Full bibliographies acoustic references and indexes complete this scholarly work of reference This first volume in the series deals comprehensively with Ostrich albatrosses petrels and shearwaters storm petrels penguins divers grebes tropicbirds boobies cormorants darter pelicans frigatebirds herons Hamerkop storks Shoebill ibises and spoonbills flamingos swans geese and ducks and diurnal birds of prey The editors and artists have worked closely with other authors all acknowledged experts in their field to produce a superb reference in which comprehensive texts on every species are complemented by accurate and detailed paintings and drawings of the birds themselves
