tragically stakes his life for his adoptive people against ever mounting odds The Jaguar s Heart reveals the struggle of a man caught between cultures and conflicting loyalties at a pivotal moment in the history of the Americas It is a book with the captivating setting of Gary Jennings Aztec and its sequels yet which reveals the humanity of both Spaniard and Indian and with the compelling theme of W Michael Gear and Kathleen O Neal Gear s Contact The Battle for America series __The Raw and the Cooked__ Claude Lévi-Strauss,1983-03-15 In anthropological terms the concept of the raw verses the cooked has long been associated with the dichotomy between the natural world and the world of human culture In a broad based empirical study of native mythologies Claude L vi Strauss proposes a structural and thematic link between the opposition of the raw and the cooked in mythological thought and man s attempt to establish a balanced relationship between natural and cultural forces L vi Strauss postulates that the raw cooked axis is characteristic of all human culture with elements falling along the raw side of the axis being those of natural origin and those on the cooked side being of cultural origin i e products of human creation Symbolically cooking marks the transition from nature to culture by means of which the human state can be defined in accordance with all its attributes In mythological thought the cooking of food is in effect a form of mediation between nature and society between life and death and between heaven and earth The cook in turn can be viewed as a cultural agent whose function is to mediate the conjunction of the raw product and the human consumer the operation of which has the effect of making sure the natural is at once cooked and socialized **Return To Lemuria** Richard Gradner,2014-10-21 When small time enforcer Billy Bayer betrays his mob boss he expects revenge what he gets is far stranger Captured by the secretive descendants of the ancient Lemurian civilization Billy is thrust into a hidden world that claims responsibility for every major event in human history Imprisoned and re educated Billy awakens a dormant power within himself an extrasensory gift the Lemurians have guarded for millennia But with knowledge comes rebellion As Billy begins to question their sinister ideals he forms a crew of unlikely allies to sabotage the very organisation that gave him his power Yet one question looms can a man rewrite a 12 000 year old prophecy that foretells doom for mankind The answer lies deep in the Brazilian Amazon where renegade anthropologist Dr David Steel and the embattled FUNAI Foundation race to protect indigenous tribe and perhaps unlock humanity s only chance of survival **Cats and Cathederals** Patrick Boniface,2006-03 **Animal Myths and Metaphors in South America** Gary Urton,1985 What similarities and differences do humans see between themselves and animals Why do people commonly make metaphorical comparisons between human beings or social groups and animals and to what degree are people s attitudes and beliefs about animals parallel to or contingent upon their attitudes and beliefs about human beings and human society This collection of articles considers these issues The issues are basic in any study of totemism or human and animal relationships and they have been discussed in anthropological literature since the time of Lewis Henry Morgan s work on Iroquois social organization The contributors to this anthology have not limited themselves to the notion that clans and moieties are the only sources and objects of metaphorical comparisons

between humans and animals They suggest a shift in perspective that has metaphorical comparisons generated by conceived similarities and differences between animals and particular types of human beings Some examples of this include macaw fledglings as adolescents pumas as fully initiated men and foxes as young married men With this shift of emphasis a significantly different analytic focus in the study of human animal relations is produced **Palms and People in the Amazon** Nigel Smith,2014-09-26 This book explores the degree to which landscapes have been enriched with palms by human activities and the importance of palms for the lives of people in the region today and historically Palms are a prominent feature of many landscapes in Amazonia and they are important culturally economically and for a variety of ecological roles they play Humans have been reorganizing the biological furniture in the region since the first hunters and gatherers arrived over 20 000 years ago *Exploring the Rights of Climate Displaced Persons* Scott Leckie,Shaun Butta,2025-06-15 This book addresses how to more effectively use law human rights and institutional reforms to resolve the many challenges posed by climate displacement The book addresses issues such as Why all governments need to establish a national climate displacement ministry to implement relevant laws how to improve land law and policy to assist climate displaced persons and communities how to litigate better on climate displacement issues which legal avenues have not yet been tried to bolster judicial support for climate displaced persons which type of legal cases are still yet to be tried concerning the housing land and property rights of climate displaced persons and where do laws and policy affecting domestic climate displacement need to be revised and improved Jaguar's Mirror M.
