surveys the major literary treatments of the biblical figure of Moses since the Enlightenment Beginning with the influential treatments by Schiller and Goethe for whom Moses was respectively a member of a mystery cult and a violent murderer Ziolkowski examines an impressive array of dramas poems operas novels and films to show the many ways in which the charismatic figure of Moses has been exploited the uses and abuses of the title to serve a variety of ideological and cultural purposes Ziolkowski s wide ranging and in depth study compares and analyzes the attempts by nearly one hundred writers to fill in the gaps in the biblical account of Moses life and to explain his motivation as a leader lawgiver and prophet As Ziolkowski richly demonstrates Moses image has been affected by historical factors such as the Egyptomania of the 1820s the revolutionary movements of the mid nineteenth century the early move toward black liberation in the United States and critical biblical scholarship of the late nineteenth century before in the twentieth century being appropriated by Marxists Socialists Nazis and Freudians The majority of the works studied are by Austro German and Anglo American writers but Ziolkowski also includes significant examples of works from Hungary Sweden Norway the Ukraine Denmark the Netherlands Italy and France The figure of Moses becomes an animate seismograph in Ziolkowski s words through whose literary reception we can trace many of the shifts in the cultural landscape of the past two centuries **How Now Shall We Live?**
