Mothers, Daughters: Pentecostal Perspectives on Violence against Women ,2022-06-13 This volume explores issues and
themes related to violence against women It is distinctive in two ways First the editors have convened an international cohort
of contributing scholars whose assessment of the pervasiveness and urgency of the problems and their proposals for
solutions derives from their pneumatology their theology of the Holy Spirit Second this book represents quite simply the first
sustained effort to bring together in one volume Pentecostal voices from a variety of academic disciplines ecclesial traditions
and cultural situations to address the urgent issues associated with violence toward women *Flying Boat* Ivan Spring,1995
Across the Great Divide Rhys Davies,Christopher Townsend,Alexandra Trott,2014-10-21 There's nothing pure about
modernism For all the later critical emphasis upon medium specificity modernist artists in their own times revel in the
exchange of motifs and tropes from one kind of art to another they revel in staging events where different media play crucial
roles alongside each other where different media interfere with each other to spark new and surprising experiences for their
audiences This intermediality and multi media activity is the subject of this important collection of essays The authoritative
contributions cover the full historical span of modernism from its emergence in the early twentieth century to its after shocks
in the 1960s Studies include Futurism's struggle to create an art of noise for the modern age the radical experiments with
poetry painting and ballet staged in Paris in the early 1920s the relationship of poetry to painting in the work of a neglected
Catalan artist in the 1930s the importance of architecture to new conceptions of performance in 1960s Happenings and the
complex exchange between film music and sadomasochism that characterises Andy Warhol's Exploding Plastic Inevitable
Landscapes of Conflict William G. Robbins,2009-11-23 Post World War II Oregon was a place of optimism and growth a
spectacular natural region from ocean to high desert that seemingly provided opportunity in abundance With the passing of
time however Oregon's citizens rural and urban would find themselves entangled in issues that they had little experience in
resolving The same trees that provided income to timber corporations small mill owners loggers and many small towns in
Oregon also provided a dramatic landscape and a home to creatures at risk The rivers whose harnessing created power for

industries that helped sustain Oregon's growth and were dumping grounds for municipal and industrial wastes also provided passageways to spawning grounds for fish domestic water sources and recreational space for everyday Oregonians The story of Oregon's accommodation to these divergent interests is a divisive story between those interested in economic growth and perceived stability and citizens concerned with exercising good stewardship towards the state's natural resources and preserving the state's livability In his second volume of Oregon's environmental history William Robbins addresses efforts by individuals and groups within and outside the state to resolve these conflicts Among the people who have had roles in this process journalists and politicians Richard Neuberger and Tom McCall left substantial legacies and demonstrated the ambiguities inherent in the issues they confronted Australian National Bibliography ,1996-12
