Return Of Tiddles:

   Do Evil in Return Margaret Millar,2017-11-07 Charlotte Keating a doctor and woman of independent means is slowly pulled into a shadowy realm of violence and desperation after she investigates the suspicious death of a young woman she had recently declined to provide an illegal abortion After Charlotte Charley Keating turns away a patient seeking an abortion she struggles with the ethical quandaries of such an act As a feminist she would have liked to help the young girl in trouble but as a doctor with a practice and other patients counting on her she doesn t feel like she can risk breaking the law for a complete stranger When the poor girl turns up dead Charley s entire life is thrown into chaos Perhaps Margaret Millar s most controversial book and certainly among her best Do Evil in Return is a meticulously plotted and suspenseful meditation on abortion and the hypocrisy of the laws governing a woman s body Millar may be known as the Grande Dame of domestic suspense but this brutal tale of a doctor hell bent on uncovering the truth puts her in line with noir luminaries like David Goodis and Jim Thompson   *Bodies for Sale* Stephen Wilkinson,2004-07-31 Bodies for Sale Ethics and Exploitation in the Human Body Trade explores the philosophical and practical issues raised by activities such as surrogacy and organ trafficking Stephen Wilkinson asks what is it that makes some commercial uses of the body controversial whether the arguments against commercial exploitation stand up and whether legislation outlawing such practices is really justified In Part One Wilkinson explains and analyses some of the notoriously slippery concepts used in the body commodification debate including exploitation harm and consent In Part Two he focuses on three controversial issues the buying and selling of human kidneys commercial surrogacy and DNA patenting outlining contemporary regulation and investigating both the moral issues and the arguments for legal prohibition   *The Man Who Sang Along* Steve Smithson,2012-09-01 A humorous but poignant story of an academic s mid life crisis Richard bored with suburbia tries to build a new life in inner city London After a year of emotional and practical upheaval and with the help of some unlikely new relationships he succeeds but it is nothing like his original dreams plans or resolutions   <u>Mind Games</u> Richard Payne,2012-07-24 After a difficult youth David Carter had become an excellent journalist for the Guardian Whilst working full time he met a young woman named Susan and they were preparing to get married David was born with epilepsy and as he was growing up many people tormented him because of this condition He had wonderful family support when he was a child and as he grew up through school and college Eventually his life settled down and he studied for a career in journalism After many years of health difficulties his dream came true and at last everything in his life appeared calm and tranquil One day near Easter Davids brother Matthew asked him if he would like to spend a weekend with him in Cardiff having already booked the rooms at a bed and breakfast During their weekend it was revealed that David had been adopted when he was just three and a half years old David was horrified and though he did not want to he felt that it was his duty as an undercover journalist to find out more about his real mother He found his mother living in a small flat in Milton Keynes and though she did not want to speak with him he forced his way in There she revealed

more about his real upbringing The news horrified David even more and turned his settled life upside down confusing him and aggravating his epilepsy His life changed yet again when he was involved in a car crash Some people believed hed suffered an epileptic attack at the steering wheel but there was no evidence to prove this He was taken to hospital seriously injured and in a coma He remained there for several months until eventually he slowly opened his eyes and began his recovery Again he seemed a changed man only wanting to live a life of peace and love with everybody This change amazed and delighted Susan and they made final preparations for their wedding and a new beginning **Practical Ruby for System Administration** Andre Ben-Hamou,2007-10-15 Ruby has set the world on fire proving itself a serious challenger to Perl and Python in all spheres In particular more and more people are discovering that Ruby s flexibility superb feature set and gentle learning curve make it a natural choice for system administration tasks from the humblest server to the largest enterprise deployment Within the pages of Practical Ruby for System Administration you ll learn the Ruby way to construct files tap into clouds of data build domain specific languages perform network traffic analysis and more Based on author Andr Ben Hamou s own experiences working as a system administrator this book will help you pick up practical tips on Ruby coding style learn how to analyze and improve script performance and make use of no nonsense advice on scripting workflow including testing and documentation Above all you ll come to appreciate the sheer power of Ruby and the hundreds of benefits it offers for system administration This book places equal emphasis on fundamental Ruby concepts as well as practical how tos It uses examples from other languages to ease the transition to Ruby The book is concise entertaining and informative unlike many books aimed at system administrators which can be overly long and stodgy Methodological Concepts Martyn Hammersley,2023-02-21 Methodological Concepts A Critical Guide clarifies many key terms and issues in social research methodology It outlines the conventional meanings of these terms but also addresses their contentious character The aim is to offer interpretations of them that provide a coherent conception of the nature of social science This book is premised on the idea that more clarity about the meaning of major methodological concepts is essential and that the disagreements which pervade the field must be addressed Numerous key terms are discussed across 13 chapters including methodology method inquiry research science truth fact rigour bias objectivity data evidence induction deduction abduction understanding explanation reflexivity triangulation theory and researcher integrity These concepts have been implicated in fundamental divisions among social scientists exemplified by the paradigm wars of the past few decades The chapters of this book provide an overview of the various meanings given to these terms whilst also offering distinctive interpretations designed to provide a sound basis for social research Methodological Concepts A Critical Guide will be of great use to any student or researcher working in the social sciences **Vet On A Mission** Gillian Hick,2018-07-16 With the imminent arrival of her third child veterinary surgeon Gillian Hick decides to abandon the perils of mixed animal practice in a favour of setting up a small animal practice from home When neighbouring farmer John Armstrong drops in for a cup of tea and stays

to build the new veterinary clinic the dream becomes a reality As the practice begins to take on a life of its own the practicalities of running a twenty four seven on call business with the help of her husband and her three exuberantly enthusiastic pre school children begins to take its toll From hatching goslings on a moonlit night to late night calls to celebrity donkeys from delivering new borns to assisting in the final farewells of much loved patients the circle of life continues as Gillian struggles to hang on to not only her sense of humour but also the last remaining threads of her sanity
