Gateways to the Otherworld Philip Gardiner,2007-11-19 Is there life after death Is there a world outside our own Mankind has wrestled with these profound questions for as long as there has been consciousness Gateways to the Otherworld reveals that ancient man already knew the answers Acclaimed author Philip Gardiner proves that our ancestors were far more advanced scientifically and spiritually than previously believed Through a special technique ancient Egyptians and others were able to journey to other realities within themselves in short to the Otherworld The author undergoes his own experiments to prove the point Gardiner makes us consider the fact that ancient man also knew more about his place in the universe than previously thought He placed buildings and objects in specific places around the globe Why Because at these points he had discovered areas where lines of energy cross points with distinct relation to the universal and human wave

resonance of electromagnetism When man journeyed to these places he was joining with God and visualising the effect The remarkable conclusions and discoveries in this book not only dispel some age old myths but also address questions such as Is there a universal frequency that allows the mind to travel into other realms How does this relate to the holographic universe and the concept of quantum entanglement Does the Great Pyramid hold a real secret to the quantum realm What are those mysterious round towers found scattered around our planet Is there an answer to the phenomena of earth energies What is the truth behind the Crystal Skulls and the rods of power Is ESP real What Gateways to the Otherworld uncovers are not just tales of ancient trips to other realms nor theories on why stone circles were built in specific locations but real answers based on thorough research and science Gnosis Philip Gardiner,2006-09-15 An examination of the alluring mysteries

, Gateways to the Otherworld (Volume 2 of 2) (EasyRead Super Large 18pt Edition) , **Making the Gods Speak** Vincent Goossaert,2023-11-20 For two millennia Chinese society has been producing divine revelations on an unparalleled scale in multifarious genres and formats This book is the first comprehensive attempt at accounting for the processes of such production It builds a typology of the various ritual techniques used to make gods present and allow them to speak or write and it follows the historical development of these types and the revealed teachings they made possible Within the large array

of visionary mediumistic and mystical techniques Vincent Goossaert devotes the bulk of his analysis to spirit writing a family of rites that appeared around the eleventh century and gradually came to account for the largest numbers of books and tracts ascribed to the gods In doing so he shows that the practice of spirit writing must be placed within the framework of techniques used by ritual specialists to control human communications with gods and spirits for healing divining and self divinization among other purposes Making the Gods Speak thus offers a ritual centered framework to study revelation in Chinese cultural history and comparatively with the revelatory practices of other religious traditions
