Reis, Series Editor,2004-03-06 The expert guide to the differentiation of curriculum and instruction for the gifted and talented Drawing many comparisons and contrasts between gifted and general education best practices the articles in this volume highlight the many benefits of flexible instruction and curriculum discuss impediments to the successful adoption of differentiation in classrooms and school districts and show how educators can overcome these obstacles collaboratively Key features include Overview and thought provoking commentary by Carol Ann Tomlinson a national leader in differentiation strategies A view of differentiation through multiple lenses and the actual and potential benefits gifted and general education derive from its implementation Eleven influential articles from leading researchers and educators in the field of differentiation Within this valuable reference guide readers will also find specific models general curriculum guidelines specific instructional strategies and other tools and methods that will help them monitor learner needs and adapt curriculum accordingly The ERGE Series The National Association for Gifted Children series Essential Readings in Gifted Education is a 12 volume collection of seminal articles

from Gifted Child Quarterly Put the knowledge and power of more than 25 years of research on giftedness and talent into your hands with the leading theories studies and findings the experts in the field have to offer **African American Psychology** Faye Z. Belgrave, Kevin Wendell Allison, Camilla W. Nonterah, 2025-08-18 *Expanding Definitions of Giftedness* Guadalupe Valdes, 2014-04-04 This book is about bilingual young people who have been selected by their families to carry out the hard work of interpreting and translating to mediate communication between themselves and the outside world between minority and majority communities It examines the experiences of these young interpreters and the skills they develop in order to fulfill this role The authors purpose in this volume is to contribute to extending current definitions of gifted and talented by proposing and offering evidence that the young people who are selected to serve as family interpreters perform at remarkably high levels of accomplishment when compared with others of their age experience and environment and should thus clearly be included in the 1993 U S federal definition of giftedness They maintain that not only are these capabilities currently overlooked by existing assessment procedures but also that there is little understanding of the ways in which the unique talents of young interpreters might be nurtured and developed in academic settings A strong case is made that in order for such students to be identified as gifted on the basis of their bilingual abilities the field of gifted and talented education must embrace the concept that bilingualism is a strength The field must also make developing bilingualism a focus of programs designed to meet the needs of the increasingly multilingual student population in the United States The research this book reports part of a larger five year study of giftedness through linguistic and cultural lenses funded by OERI through the National Research Center on the Gifted and Talented was conducted by researchers whose background is very much outside the field of gifted education Rather their focus is on language working within the traditions of qualitative sociolinguistics Thus this book offers a unique approach to the exploration of giftedness It asks researchers and practitioners ordinarily accustomed to working with quantitative data to examine and make sense of detailed and rich analyses of students linguistic performance and argues that it is only by understanding the challenges of such bilingual interactions that the field of gifted and talented education can expand and reframe its vision of giftedness *Retaining African Americans in Higher Education* Lee Jones, 2023-07-21 Retention of African Americans on campus is a burning issue for the black community and a moral and financial one for predominantly white institutions of higher education This book offers fresh insights and new strategies developed by fifteen scholars concerned by the new climate in which affirmative action is being challenged and eliminated This is the first book devoted specifically to retention of African Americans in higher education and is unique in addressing the distinct but inter related concerns of all three affected constituencies students faculty and administrators Each is considered in a separate section The student section shifts attention from to paraphrase McNairy fixing the student to focussing on higher education s need to examine and where appropriate revise policies curriculum support services and campus climate Responding to the new agenda shaped by the opponents of affirmative action but rejecting the defensive x

percent solutions espoused by its proponents this book puts forward new solutions that will provoke debate Section II begins with a survey of the literature on African American administrators and presents a Delphi study of twelve administrators to provide an understanding of pathways and barriers to success The contributors then consider the importance of developing community support and creating alliances the role of mentoring and the setting of clear expectations between the individual and the institution Starting with the recognition that African Americans represent less than five percent of full time faculty the chapters in the final section examine the effects of the dismantling of affirmative action the consequences of faculty salaries trailing more lucrative non academic employment the declining enrollment of students of color the politics of promotion and tenure and issues of identity and culture The book concludes by stressing the roles that parents faculty and administrators must play to empower African American students to take responsibility for their own academic performance This is a compelling controversial and constructive contribution to an issue of national importance **Diversity in Gifted Education**

Gillian Eriksson,Belle Wallace,2006-10-05 This timely book brings together experts from around the world to share expertise and best practice to form an eclectic collection of the best approaches for teaching gifted and talented children from different cultures Each chapter presents an overview of international perspectives on the issues of multi cultural and gifted education examines the critical issues related to cultural definitions of giftedness in programming for diverse gifted students presents regional case studies in order to inform practitioners best practice examines issues of access for gifted students in relation to culture poverty race and gender In addition details of websites and associations which offer support and advice are also provided making this book an invaluable resource for academics researchers teachers and parents of gifted and talented children Surmounting All Odds - Vol. 2 Carol Camp Yeakey,Ronald D.

Henderson,2000-09-01 Volume 2 in the two volume set about overcoming the odds in African American Education *Gifted and Talented Females Speak Out on Parental Influences and Achievement!* Mary E. Henderson,2006 Gifted and Talented Females Speak Out on Parental Influences and Achievement examines how to promote female achievement Using face to face interviews with eight women and scholarly research the book explores topics such as the role of parents teens and the growing brain t **The Resegregation of Schools** Jamel K. Donnor,Adrienne Dixon,2013-06-07 Access to a quality

education remains the primary mechanism for improving one s life chances in the United States and for children of color a good education is particularly linked to their individual and collective well being Despite the popular perception that America is in a post racial epoch opportunities to access quality learning environments and human development resources remain determined according to race class gender and ability Taking a more nuanced approach to race and the resegregation of the American school system this volume examines how and why the education quality for the majority of students of color in America remains fundamentally unequal *Teaching Gifted Learners in STEM Subjects* Keith S. Taber,Manabu

Sumida,Lynne McClure,2017-07-31 This book offers an overview of programmes designed to support the learning of gifted

and talented students in STEM subjects both to allow them to meet their potential and to encourage them to proceed towards careers in STEM areas. The chapters from a range of national contexts report on perspectives, approaches and projects in gifted education in STEM subjects. These contributions provide a picture of the state of research and practice in this area both to inform further research and development and to support classroom teachers in their day to day work. Chapters have been written with practitioners in mind but include relevant scholarly citations to the literature. The book includes some contributions illustrating research and practice in specific STEM areas and others which bridge across different STEM subjects. The volume also includes an introductory theoretical chapter exploring the implications for gifted learners of how STEM is understood and organized within the school curriculums.

Rational Emotive Behavioral Approaches to Childhood Disorders Albert Ellis, Michael E. Bernard, 2006-05-11

Since the groundbreaking first edition of *Rational Emotive Approaches to the Problems of Childhood* by Albert Ellis and Michael Bernard two decades ago, our understanding of the nature and treatment of children's problems has grown considerably. Now in a completely new volume, Albert Ellis and children's REBT specialist Professor Michael Bernard have revised and updated this pioneering volume to reflect both the latest in clinical practice and research. Fourteen expert contributors, including many from the original share with the editors a deep commitment to integrating REBT with other cognitive behavioral methods and to providing young people with developmentally appropriate care. Together they give readers a practical framework for conducting assessment, treatment and prevention with individuals, clients and groups as well as in family and school settings. Key features of this new edition include: Developmental considerations in using REBT with children and adolescents; Specific chapters devoted to major disorders: aggression, phobias, anxiety, depression, academic underachievement and ADHD; Latest strategies for challenging and changing the irrational beliefs of young people; Techniques for building key REBT skills: emotional resilience and frustration tolerance; Extensive research findings on the efficacy of REBT with young people; Brand new material on special issues involving parents, conducting group sessions and working with exceptional children; An overview of Rational Emotive Education and You Can Do It Education; school based applications of REBT. With coverage this thorough, Ellis, Bernard and collaborators have created a resource of immediate value to child and adolescent mental health practitioners including school psychologists, school counselors, school social workers, behavior therapists and family therapists and educators involved in helping young people overcome behavioral disorders.

The Psychology of Black Boys and Adolescents Kirkland C. Vaughans, Warren Spielberg, 2014-06-30

Drawing on personal insights and research based knowledge, this important work facilitates understanding of the psychological struggles of young African American males and

offers ameliorative strategies Despite examples set by successful black men in all walks of life the truth remains that a disproportionate number of black boys and young men underperform at school suffer from PTSD and too often find themselves on a pathway to jail The two volume The Psychology of Black Boys and Adolescents marks the first attempt to catalog the many psychological influences that can stack the deck against black male children and to suggest interventions Bringing together an expansive collection of new and classic research from a wide variety of disciplines this set sheds light on the complex circumstances faced by young black men in the United States Contributions by authors Kirkland Vaughans and Warren Spielberg contain insights from the groundbreaking Brotherman study conducted over a ten year period to report on the lives and psychological challenges of over a hundred African American boys and their families Among the myriad issues studied in this set are the often negative expectations of society the influence of gangs and the impact of racism and poverty Of equal importance the work explores culturally specific ways to engage families youths communities and policymakers in the development of healthy safe educated boys who will become whole and successful adults
