The figure is composed of bold, white shapes. Surrounding the figure are several large, solid-colored circles in various colors: orange, yellow, green, red, and blue. The overall style is abstract and graphic.

The Invention of the Visible Patrick Vauday, 2017-08-17 We live in a mediatized society a society one could call a society of images Working at the intersection of aesthetics and politics Patrick Vauday challenges the dominant assumptions of this society and its disposition towards images This challenge does not advocate repudiating images altogether but rather entreats us to see them in a different light This new way of thinking of images affords a glimpse into what images do and produce rather than viewing them as copies or mere representations Images are dynamic agents that are active in our world rather than simply empty reflections of it Rethinking the concept of the image in this fashion opens up new ways of interpreting and engaging with works of art This reconsideration of the role of images in society is the starting point for a new politics that considers the multiple and complex efficacies by which images act circulate and are created *Arc of Interference* João Biehl, Vincanne Adams, 2023-02-27 The radically humanistic essays in *Arc of Interference* refigure our sense of the real the ethical and the political in the face of mounting social and planetary upheavals Creatively assembled around Arthur Kleinman's medical anthropological arc and eschewing hegemonic modes of intervention the essays advance the notion of a care full ethnographic praxis of interference To interfere is to dislodge ideals of naturalness blast enduring binaries human nonhuman self other us them and redirect technocratic agendas while summoning relational knowledge and the will to create community The book's multiple ethnographic arcs of interference provide a vital conceptual toolkit for today's world and a badly needed moral perch from which to peer toward just horizons Contributors Vincanne Adams João Biehl David Carrasco Lawrence Cohen Jean Comaroff Robert Desjarlais Paul Farmer Marcia Inhorn Janis H Jenkins David S Jones Salmaan Keshavjee Arthur Kleinman Margaret Lock Adriana Petryna **The Theory of Difference** Douglas L. Frank, 2020-11-29 Through a series of cross disciplinary and interdisciplinary interventions leading international scholars of history and art history explore ways in which the study of images enhances knowledge of the past and informs our understanding of the present Spanning a diverse range of time periods and places the contributions cumulatively showcase ways in which ongoing dialogue between history and art history raises important aesthetic ethical and political questions for the disciplines The volume fosters a methodological awareness that enriches exchanges across these distinct fields of knowledge This innovative book will be of interest to scholars in art history cultural studies history visual culture and historiography *Bookforum*, 2001
