the nature of the state with a focus on Maoists 10 year rebellion Each chapter presents the existing picture and examines the possible reasons for the failure in achieving the desired results A comparative analysis of Nepal s position with respect to South Asian Association for Regional Cooperation SAARC countries is also presented in a number of chapters The audience for the book will be students academics and researchers and within Nepal itself intellectuals politicians and officials of the National Planning Commission the central bank and other banks and financial institutions      Towards the Next Orbit Subir Verma,2011-01-06 The global meltdown the concomitant demise of legendary corporate behemoths and the challenge of competing in a world marked by unprecedented complexities volatility discontinuities and ambiguities have pushed discussions on survival and excellence to the forefront Towards the Next Orbit A Corporate Odyssey brings forth ideas experiences studies insights and suggestions from renowned theoreticians and practitioners towards changing and succeeding in a new world The first part of the book comprises rich conceptual papers and research based empirical papers written primarily by thought leaders from all over the world The second part comprises dialogs with persons who are well known in the business landscape as change masters The chapters discuss cutting edge ideas in the areas of corporate behavior positioning growth leadership employee relations and so on Together the articles and interviews will help readers develop perspective cognitive framework behavioral repertoire and portfolio of practices for making the transition from simply functioning to achieving excellence      *Management and Labour Studies* ,1999      *Public administration* ,2000      *The Indian Journal of Public Administration* ,1999      *Report of the National Commission to Review the Working of the Constitution* India.
