R. Willison,1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries

Bibliography and Modern Book Production Percy Freer,2024-08-01 Bibliography and Modern Book Production is a fascinating historic journey through the fields of print history librarianship and publishing It covers key developments from 1494 to 1949 in bibliography and book production from the history of scripts and paper manufacture to the origins of typefaces and printing Although not a textbook the book was a guide for library students in the 1950s on the essential literature of librarianship As the first librarian appointed to Wits University in 1929 Percy Freer s near encyclopaedic knowledge of the subject of bibliography enabled him to develop a key resource for relevant library examinations in South Africa and abroad Due to its immense value as a historic record and to acknowledge Freer s contributions as scholar librarian and publisher it is being reissued as part of the Wits University Press Re Presents series to make it accessible to scholars in book histories publishing studies and information science **The Revival of Printing A Bibliographical Catalogue of**
