Kierkegaard and Political Theory Armen Avanessian, Sophie Weyers, 2014-11-21 Søren Kierkegaard's radical protestant philosophy of the individual in which a person's leap of faith is favored over general ethics has become a model for many contemporary political theorists Thinkers such as Slavoj Žižek and Alain Badiou have drawn on its revolutionary spirit to position truth above the constraints of political systems In *Kierkegaard and Political Theory* contributors from a wide range of disciplines including theology

sociology philosophy and aesthetics examine just how crucial Kierkegaard's anti-institutional thinking has been to such efforts and to modernity as a whole. The contributors convincingly position Kierkegaard's radical philosophy as the starting point for contemporary political theory. They show how he pioneered a modernity defined as an argument, an experience of the impossibility of rationally comprehending a system of thinking. They show how religious and aesthetic experiences function as a response to this impossibility; how their coherence in politics must always be questioned, especially in history's extreme example, totalitarianism. Engaging this and many other subjects, they provide a compelling new line in Kierkegaard studies that illuminates new contours of our political thought.

Armen Avanesian is founder of the research platform Speculative Poetics at the Free University Berlin. Sophie Wenerscheid is professor of Scandinavian Studies at the University of Ghent.

Introduction to Nonviolence Ramin Jahanbegloo, 2014-03-11. Non-violent movements under figures like Gandhi and the Dalai Lama led to some of the great social changes of the 20th century, and some argue it offers solutions for this century's problems. This book explores non-violence from its roots in diverse religious and philosophical traditions to its role in bringing social and political change today.

Thinking Nonviolence Ramin Jahanbegloo, 2024-08-30. This book presents a solid introduction to nonviolence as a mode of thinking and a mode of life, but also as a strategy of self-defence and social and political transformation. Nonviolence is a frequently misunderstood, frequently abused term. It can be used in very narrow or broad constructs and can be based on a wide variety of philosophies and practices. The book will examine several of the main currents of nonviolent thought and practice as approaches that concentrate around the concepts of struggle and resistance. By focusing on these two concepts, the book will examine the theories and principles of nonviolence as well as the religious and philosophical underpinnings of their commitments. The book dwells on the theoretical discussion of the concept and history of nonviolence as a revolutionary concept for a change in mentalities and realities of our societies. It brings to the forefront the philosophy of nonviolence as it developed from Socrates to Thoreau, Jesus to Dalai Lama. The book covers Gandhi, Mandela, Martin Luther King Jr., the advocates and practitioners of non-violence in the 20th Century.

Foucault and Power Marcelo Hoffman, 2013-11-21. Michel Foucault is one of the most preeminent theorists of power, yet the relationship between his militant activities and his analysis of power remains unclear. The book explores this relationship to explain the development of Foucault's thinking about power. Using newly translated and unpublished materials, it examines what led Foucault to take on the question of power in the early 1970s and subsequently refine his thinking, working through different models: war and government, and modalities: disciplinary, biopolitical, and governmental. Looking at Foucault's political trajectory from his immersion in the prisoner support movement to his engagements with the Iranian revolution and Solidarity in Poland, the book shows the militant underpinning of his interest in the question of power and its various shifts and mutations. This thorough account, which includes the first translation of a report edited by Foucault on prison conditions, will provide students in contemporary political theory with a better understanding of Foucault's thinking about power and of

the interplay between political activities and theoretical productions Other People's Struggles Nicholas Owen, 2019-05-30

Other People's Struggles is the first attempt in over forty years to explain the place of conscience constituents in social movements. Conscience constituents are people who participate in a movement but do not stand to benefit if it succeeds. Why do such people participate when they do not stand to benefit? Why are they sometimes present and sometimes absent in social movements? Why and when is their participation welcome to those who do stand to benefit and why and when is it not? The work proposes an original theory to answer these questions, crossing disciplinary boundaries to draw on the findings of social psychology, philosophy and political theory in search of explanations of why people act altruistically and what it means to others when they do so. The theory is illustrated by examples from British history including the anti-slavery movement, the women's suffrage and liberation movements, labor and socialist movements, anti-colonial movements, anti-poverty movements and movements for global justice. Other People's Struggles also contributes to new debates concerning the rights and wrongs of speaking for others. Debates concerning the limits of solidarity, who can be an ally and on what terms have become topical in contemporary politics, especially in identity politics and in the newest social movements. The work provides a theoretical and empirical account of how these questions have been addressed in the past and how they might be framed today.

Counting Islam Tarek Masoud, 2014-04-28 Why does Islam seem to dominate Egyptian politics, especially when the country's endemic poverty and deep economic inequality would seem to render it promising terrain for a politics of radical redistribution rather than one of religious conservatism? This book argues that the answer lies not in the political unsophistication of voters, the subordination of economic interests to spiritual ones or the ineptitude of secular and leftist politicians, but in organizational and social factors that shape the opportunities of parties in authoritarian and democratizing systems to reach potential voters. Tracing the performance of Islamists and their rivals in Egyptian elections over the course of almost forty years, this book not only explains why Islamists win elections but illuminates the possibilities for the emergence in Egypt of the kind of political pluralism that is at the heart of what we expect from democracy. **Stanley**

Cavell and the Arts Rex Butler, 2020-10-15 In the late 1990s Rosalind Krauss, one of the principal theorists of post-modernism in the arts, began using the term post-medium in her work. It was a nod to the American ordinary language philosopher Stanley Cavell, who had been thinking through a concept of medium in art for 30 years. Today, with the decline of post-modernism, Stanley Cavell has emerged as one of the most important figures for thinking again about the visual arts, film and theatre. Stanley Cavell and the Arts looks at Cavell's extensive writings on a wide variety of artforms and at a number of writers. Michael Fried, William Rothman, influenced by his work. Over a 50-year career, Cavell wrote about visual art, photography, classical music, Shakespeare, the plays of Samuel Beckett and perhaps most notably Hollywood cinema. Stanley Cavell and the Arts offers an overview of Cavell's writings on the arts, situating them within his wider philosophical practice, analysing in detail his treatment of particular art forms and looking at the work of those he has deeply shaped. **Red**

Willis, 2014-04-09 Film media and cultural theorists have long appealed to Lacanian theory in order to discern processes of subjectivization representation and ideological interpellation Here the contributors take up a Žižekian approach to studies of cinema and media raising questions about power ideology sexual difference and enjoyment Theatre-Fiction in Britain from Henry James to Doris Lessing Graham Wolfe, 2019-06-10 This volume posits and explores an intermedial genre called theatre fiction understood in its broadest sense as referring to novels and stories that engage in concrete and sustained ways with theatre Though theatre has made star appearances in dozens of literary fictions including many by modern history's most influential authors no full length study has dedicated itself specifically to theatre fiction in fact there has not even been a recognized name for the phenomenon Focusing on Britain where most of the world's theatre novels have been produced and commencing in the late nineteenth century when theatre increasingly took on major roles in novels Theatre Fiction in Britain argues for the benefits of considering these works in relation to each other to a history of development and to the theatre of their time New modes of intermedial analysis are modelled through close studies of Henry James Somerset Maugham Virginia Woolf J B Priestley Ngaio Marsh Angela Carter and Doris Lessing all of whom were deeply involved in the theatre world as playwrights directors reviewers and theorists Drawing as much on theatre scholarship as on literary theory
