From His Accession to the Enterprise of the Prince of Orange Sir James Mackintosh has been described by others and by himself as indolent and dilatory at every period of his life A curious instance of this disposition is related of him on the occasion of taking his degree He not only put off the writing of his thesis to the last moment but was an hour behind his time on the day of examination and kept the academic senate waiting for him in full conclave The latter instance not so much of indolence as of gross negligence and bad taste on the part of a student and of patient condescension on the part of the professors is scarcely credible About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *James II and the Trial of the Seven Bishops* W. Gibson, 2009-01-30 The trial of the seven bishops in 1688 was a significant prelude to the Glorious Revolution as popular support for the bishops led to a widespread welcome for William of Orange's invasion Their prosecution showed James II at his most intolerant and threatened the only institution for which most English people felt more loyalty than the monarchy
