**The Revolution of 1911** Caishi Dong,1991      The Revolution of 1911 Bowei Lu,Guoping Wang,1991      **Development of Modern Chinese Foreign Policy Thought** Ivica Bakota,Zvonimir Stojić,Mato Njavro,2024-11-15 This book presents a comprehensive exploration of China's foreign policy evolution from the early twentieth century to the contemporary era. The intricate interplay between the People's Republic of China, the Chinese Communist Party (CCP), and the global stage is meticulously traced, offering a nuanced understanding of China's dynamic engagement with the world. With a detailed analysis spanning eight chapters, the book delves into the contextual factors that influenced the CCP's initial foreign policy ideas prior to the establishment of the People's Republic. It systematically unravels the gradual development of these ideas during the Cold War era and unveils the fundamental and adaptive trajectories that have shaped China's foreign policy landscape over the past three decades. Utilizing primary sources and academic texts, the book incorporates both Chinese and global perspectives to shed new light on the evolution of Chinese foreign policy thought, making it an invaluable contribution to the study of China's global interactions. The authors uniquely bridge the gap between different stages of China's foreign policy development across a centennial timeframe, offering an organic perspective on its growth and their comprehensive analysis of China's foreign policy toolset adds a distinctive dimension to existing knowledge. By steering clear of preconceived notions, the book delivers a well-rounded analysis of China's foreign policy evolution.

eleven seminal essays by one of America's leading authorities on modern Chinese history with an illuminating preface by Prof Elizabeth Perry of Harvard University it covers a range of topics from the impact of imperialism to the 1989 protests that led to the Tiananmen massacre Chapters include an explanation of how China expanded its borders far beyond the Han Chinese heartland and maintained those borders in the transition from empire to nation how Sun Yat sen unexpectedly emerged as the Father of the Country and how a series of unexpected and contingent events brought the empire down in 1911 Despite conventional representations of a static and unified China this book proves Chinese society to be diverse and constantly changing especially after the Communist revolution which was a transformative event in modern Chinese history Esherick denounces traditional imagery of cultural uniformity which derives from excessive attention to the unitary state through chapters that explore the impact of the 1937-45 War of Resistance against Japan the dramatic wartime transformation of Chinese society in both Communist and Nationalist Guomindang areas and the nature of the new Communist regime in Northwest China In his book Esherick examines both the Marxist Leninist theory behind Mao's notion of the restoration of capitalism against which he waged the Cultural Revolution of the 1960s and the political theater of the 1989 protest movement Throughout the book the contingency of history the need for careful empirical research and the important yet limited role of history is highlighted as the key to understanding the present or predicting the future of China

Contemporary China Patrick Shaou-Whea Dodge, 2020-11-01 In a speech opening the nineteenth Chinese Communist Party Congress meeting in October 2017 President Xi Jinping spoke of a New Era characterized by new types of communication convergence between the government Party and state media His speech signaled that the role of the media is now more

important than ever in cultivating the Party's image at home and disseminating it abroad. Indeed, communication technologies, people, and platforms are converging in new ways around the world, not just in China. This process raises important questions about information flows, control, and regulation that directly affect the future of US-China relations. Just a year before Xi proclaimed the New Era, scholars had convened in Beijing at a conference cohosted by the Communication University of China and the US-based National Communication Association to address these questions. How do China and the United States envision each other, and how do our interlinked imaginaries create both opportunities for and obstacles to greater understanding and strengthened relations? Would the convergence of new media technologies, Party control, and emerging notions of netizenship in China lead to a new age of opening and reform, greater Party domination, or perhaps some new and intriguing combination of repression and freedom?

**Communication Convergence in Contemporary China** presents international perspectives on US-China relations in this New Era, with case studies that offer readers informative snapshots of how these relations are changing on the ground in the lived realities of our daily communication habits.

**The Wuhan Lockdown** Guobin Yang, 2022-02-15. A metropolis with a population of about 11 million, Wuhan sits at the crossroads of China. It was here that in the last days of 2019 the first reports of a mysterious new form of pneumonia emerged. Before long, an abrupt and unprecedented lockdown was declared, the first of many such responses to the spread of the COVID-19 pandemic around the world. This book tells the dramatic story of the Wuhan lockdown in the voices of the city's own people. Using a vast archive of more than 6,000 diaries, the sociologist Guobin Yang vividly depicts how the city coped during the crisis. He analyzes how the state managed or mismanaged the lockdown and explores how Wuhan's residents responded by taking on increasingly active roles. Yang demonstrates that citizen engagement, whether public action or the civic inaction of staying at home, was essential in the effort to fight the pandemic. The book features compelling stories of citizens and civic groups in their struggle against COVID-19: physicians, patients, volunteers, government officials, feminist organizers, social media commentators, and even aunties loudly swearing at party officials. These snapshots from the lockdown capture China at a critical moment, revealing the intricacies of politics, citizenship, morality, community, and digital technology. Presenting the extraordinary experiences of ordinary people, *The Wuhan Lockdown* is an unparalleled account of the first moments of the crisis that would define the age.
