Revolutionary Ideology and Islamic Militancy Najibullah Lafraie,2009-02-28 The war on terror tends to circumscribe crucial developments in the Islamic world within a narrow definition of Islamic terrorism This partial and incomplete perspective fails to comprehend the links between today s scenario and the Iranian revolution of 1979 a revolution fought in the name of God and spearheaded by religious scholars It is vital to examine the relationship between religious and revolutionary ideologies and the revolutionary potentials of Islamic teachings In a penetrating new study Najibullha Lafraie examines how revolutionary ideologies function and applies these insights to the Quran and its interpreters in the vanguard of the Iranian revolution By unpacking these discourses Lafraie develops and refines the concept of a Quranic revolutionary ideology The Ideology of the Islamic Revolution delineates the different ways in which the Quran was used to mobilise action in 1979 and in so doing provides a context for understanding today s Islamist movements

Welcome to the Urban Revolution Jeb Brugmann,2010-04-27 The author argues that urban locations are ideal for technological economic and social innovation

Human Rights and Agents of Change in Iran Rebecca Barlow,Shahram Akbarzadeh,2018-07-13 This volume extends debates on the interaction between universal human rights and the political experiences of Iranians through a conceptual analysis of theories of change It assesses the practical processes by which individuals organizations and movements can reform or impact the structural theological and political challenges faced in the Iranian context Contributors to this volume investigate how structures institutions and agents in Iran maneuver for influence and power at the state level through the law in international corridors at the grassroots and by implementing multiple and complex methods The chapters provide distinct but interrelated analysis of key drivers of change in Iran A number of those operate primarily through top down approaches such as the political reform movement lawyers pursuing legislative change and international human rights monitoring bodies Others take a bottom up approach including local movements and campaigns such as the women s movement the labor movement the student movement and ethnic minority groups By prompting drivers of change to think about causation influence sequencing prioritization roles and relationships a theory of change ultimately makes the work more effective Through rigorous analysis of these issues for drivers of change in the Islamic State this volume is an important contribution to human rights in Iran In an era of escalating tensions in the Middle East it amplifies voices of reform and freedom filling a crucial gap in our understanding of this region

Revolutionary Passage Marc Garcelon,2005-06-09 Revolutionary Passage is a cultural social and political history of Russia during its critical period of transformation at the end of the twentieth century Marc Garcelon traces the history of perestroika and the

rise of Vladimir Putin arguing that the pressure Mikhail Gorbachev's reforms put on the Soviet system gave birth to movements for democratic change. He also shows that the very political arrangements that prompted the fall of Communism also killed hopes for subsequent reform. At the turning point of this political revolution stood Democratic Russia or DemRossiia, the principal organization of the Russian democratic movement that helped to dismantle the Soviet system and force the Soviet leadership to change course. However, as post-Soviet Russia committed itself to globalization and U.S. style economic reforms, the country directed itself away from the Democratic reforms called for by organizations like DemRossiia, and such groups collapsed. *Revolutionary Passage* provides a close examination of the DemRossiia. Garcelon deftly illuminates the rise and decline of this organization and how the processes of revolutionary change impacted both Russia and the world.

Radicals, Revolutionaries, and Society R. G. Williams, 2025-04-17 This book is a study of radicals, revolutionaries, and society. Specifically, it tries to look at the historical, social, and political struggles of radicals in modern politics since the emergence of modern politics after the French Revolution of 1789. While the book is a political study, the main focus is that of a socialist study as a Socialist argument for the vital political role of radicals and revolutionaries in creating modern society. The main focus of the book is on how radicals and revolutionaries usually change modern society for the better through their struggle for democracy, freedom, and socialism.

The Role of Agency and Memory in Historical Understanding Gordon P. Andrews, Yosay D. Wangdi, 2017-05-11 This book, the first in a series entitled *Historical and Pedagogical Issues: Insights from the Great Lakes History Conference*, addresses historical and pedagogical issues. It explores the agency of historical actors tied to larger movements, demonstrating the efficacy and power of individuals to act with historical impact. It also describes the nuanced role of memory, often neglected in larger national or global social movements. This volume explores these powerful themes through a broad range of topics, including the research and pedagogy of revolution, reform, and rebellion, as they are applied to race, ethnicity, political movements, labour, reconciliation, memory, and moral responsibility. The book will interest researchers that have an interest in both or either history and pedagogy.

Social and Political Change in Revolutionary China David S. G. Goodman, 2023-06-14 This in-depth study examines the influence of the Chinese Communist Party's effective organizing in Shanxi Province during the War of Resistance. Shanxi Province was on the frontlines of the 1937-1945 War of Resistance against Japan, the war that launched the Chinese Communist Party. During that time, the Taihang Base Area of Southwest Shanxi was one of the Party's most important strongholds. David Goodman provides the first county-level analysis of social and political change in the Taihang Base Area during those crucial years. Goodman explores revolution as process, arguing that the Party was successful because of its management of revolutionary incrementalism. He examines the roles of various groups, highlighting the activities of urban intellectuals, teachers, and peasant small holders as agents of change. Based on newly available sources, including recently republished materials from the Taihang Base Area, restricted documentation from the Taiyuan Archive, and interviews with veterans of the Taihang Base.

Area this meticulously researched work deepens our understanding of the social and political origins of the Chinese revolution Revolutionary Social Work Masoud Kamali,2022-11-24 This book shows how social work can be an active agent for promoting revolutionary changes in order to counter the global neoliberal market fundamentalism which is destroying our planet and reinforcing socioeconomic inequalities political instability antidemocratic political ideologies and movements small wars conflicts racism and other forms of oppression Providing case studies from South Africa Chile Iran Europe Australia and the USA written by leading critical and radical social work scholars this book sheds light on consequences of the global neoliberal racial capitalism and postcolonial oppression By presenting innovative ideas and suggestions for a revolutionary social work aimed at promoting systemic changes and eliminating the roots of social problems this book will be of interest to all scholars and students of social work community development and social justice more broadly *The Revolutionary Imagination in the Americas and the Age of Development* María Josefina Saldaña-Portillo,2003-11-07 Table of contents *Arab Revolution in the 21st Century?* Nader Fergany,2016-04-08 In *Arab Revolution in the 21st Century* Nader Fergany presents a compassionate analysis of the Arab popular uprisings in the 21st century with particular reference to the cases of Egypt and Tunisia Under authoritarian rule relentless injustice creates the objective conditions for expressions of popular protest which may culminate in popular uprisings as witnessed in many Arab countries at the end of the first decade of the 21st century Unsurprisingly the slogans of the Arab Liberation Tide ALT popular revolts centered around freedom implying sound democratic governance social justice and human dignity for all In reality the short lived governance arrangements which followed the January 2011 popular revolt in Egypt for example were little more than extensions of the authoritarian governance system the revolt set out to overthrow There were differences of course between the three short lived regimes that took power since then but in form rather than substance This book uses a structuralist political economy framework rather than a detailed historical account as it considers how the ALT may prove to be an historic opportunity for human renaissance in the Arab World or alternatively a disaster of epic proportions Writing to Change the World Marike Janzen,2018 This book begins to recover the global history of solidarity as a principle of authorship taking Anna Seghers 1900 1983 as an exemplar and reading her alongside prominent contemporaries Brecht Carpentier and Spivak *The Routledge Handbook of Social Change* Richard Ballard,Clive Barnett,2022-09-30 The Routledge Handbook of Social Change provides an interdisciplinary primer to the intellectual approaches that hold the key to understanding the complexity of social change in the twenty first century We live in a world of intense social transformation economic uncertainty cultural innovations and political turmoil Established understandings of issues of well being development democratisation progress and sustainability are being rethought both in academic scholarship and through everyday practice organisation and mobilisation The contributors to this handbook provide state of the art introductions to current thinking on central conceptual and methodological approaches to the analysis of the transformations shaping

economies politics and societies Topics covered include social movements NGOs the changing nature of the state environmental politics human rights anti globalism pandemic emergencies post Brexit politics the politics of resilience new technologies and the proliferation of progressive and reactionary forms of identity politics Drawing on disciplines including anthropology human geography political sociology and development studies this is a comprehensive and authoritative introduction to researching key issues raised by the challenge of making sense of the twenty first century futures

Revolutionary Iran Masoud Kamali, 2018-10-26 First published in 1998 Revolutionary Iran investigates two major political transformations in the modern history of Iran the Constitutional Revolution of 1905-09 and the Islamic Revolution 1976-79 and their relation to the modernization of Iran in this century It addresses a core question Why did the clergy not take political power in the Constitutional Revolution when Iran was a traditional society and they played a key leadership role in the revolution yet they succeeded in the more modern Iran of 1979 Characterization of socio economic relationships between the two major influential groups of civil society in Iran and their role in political transformation is considered central for answering such a question The book deals with revolution in terms of relationships between civil society and state which it is argued are central to analysing and understanding modern movements in Iran and other Islamic countries The major contribution of the book can be summarized as follows It identifies a socio political division of power and influence between state and civil society during a long period of Iran's Islamic history as the key theoretical basis for understanding modern transformations of Iranian society Such a division has so far been largely ignored It explores the clergy and bazaris as the social basis of civil society in Iran and challenges Gellner's viewpoint that an Islamic civil society is an impossibility It argues that the modernization of religion and the creation of modern political theories by the clergy were both crucial means for defeating a modern authoritarian state and seizing political power It identifies the main social group without whom the Islamic Revolution of Iran would not have achieved political victory i.e. the dispossessed It presents a theoretical basis for analysing and understanding new Islamic movements in the Islamic world

Psychedelic Chile Patrick Barr-Melej, 2017-03-27 Patrick Barr Melej here illuminates modern Chilean history with an unprecedented chronicle and reassessment of the sixties and seventies During a period of tremendous political and social strife that saw the election of a Marxist president followed by the terror of a military coup in 1973 a youth driven transnationally connected counterculture smashed onto the scene Contributing to a surging historiography of the era's Latin American counterculture Barr Melej draws on media and firsthand interviews in documenting the intertwining of youth and counterculture with discourses rooted in class and party politics Focusing on hippismo and an esoteric movement called Poder Joven Barr Melej challenges a number of prevailing assumptions about culture politics and the Left under Salvador Allende's Chilean Road to Socialism While countercultural attitudes toward recreational drug use gender roles and sexuality rock music and consumerism influenced many youths on the Left the preponderance of leftist leaders shared a more conservative cultural sensibility This

exposed Barr Melej argues a degree of intergenerational dissonance within leftist ranks And while the allure of new and heterodox cultural values and practices among young people grew an array of constituencies from the Left to the Right berated counterculture in national media speeches schools and other settings This public discourse of contempt ultimately contributed to the fierce repression of nonconformist youth culture following the coup *Revolutionary Change and Democratic Religion* Celucien L. Joseph, 2020-04-15 In *Revolutionary Change and Democratic Religion* Celucien Joseph provides a fresh and careful reexamination of Haiti's intellectual history by focusing on the ideas and writings of five prominent thinkers and public intellectuals Toussaint Louverture Joseph Antenor Firmin Jacques Roumain Dantes Bellegarde and Jean Price Mars The book articulates a twofold argument First of all Haiti has produced a strong intellectual tradition from the revolutionary era to the postcolonial present and that Haitian thought is not homogeneous and monolithic Joseph puts forth the idea that the general interweaving themes of rhetoric the race concept race vindication universal emancipation religious pluralism secular humanism the particular and the universal and cosmopolitanism are representative of Haiti's intellectual tradition Secondly the book also contends that Haitian intellectuals have produced a religious discourse in the twentieth century that could be phrased religious metissage The religious ideas of these thinkers have been shaped by various forces ideologies religious traditions and philosophical schools In the same way the religious experience of the Haitian people should be understood in terms of conflicting heterodox and pluralistic manifestations of religious piety as the people in Haiti reacted to the crisis of slavery Western colonialism and imperialism and the arrogance of race in modernity in their striving to reposition themselves within the framework of universal and human metanarratives The book departs from the dominant contemporary Vodou scholarship that is often characteristic of North American and Western studies on the religious life of the Haitian people and Haitian thinkers
