Rules proliferate some are kept with a bureaucratic stringency bordering on the absurd while others are manipulated and ignored in ways that injure our sense of justice Under what conditions should we make exceptions to rules and when should they be followed despite particular circumstances The two dominant models in the literature on rules are the particularist account and that which sees the application of rules as normative Taking a position that falls between these two extremes Alan Goldman provides a systematic framework to clarify when we need to follow rules in our moral legal and prudential decisions and when we ought not to do so The book distinguishes among various types of rules it illuminates concepts such as integrity self interest and self deception and finally it provides an account of ordinary moral reasoning without rules This book will be of great interest to advanced students and professionals working in philosophy law decision theory and the social sciences

Sacrifice and Moral Philosophy Marcel van Ackeren, Alfred Archer, 2020-09-10 The aim of this book is to foster a more explicit and direct discussion of the concept of sacrifice and its importance in moral philosophy Acts of self sacrifice have a special place in our moral lives We admire and celebrate those who give up their lives so that others may live Despite this important role that sacrifice plays in our moral thinking moral philosophers have had surprisingly little to say about the nature of sacrifice This lack of attention to the nature of sacrifice is

particularly important given that sacrifice also has an important role to play in several key debates in moral philosophy The chapters in this volume make an important contribution to our understanding of sacrifice in three areas The first part of the book investigates the nature of sacrifice The next group of chapters investigates the role of sacrifice in moral philosophy Three of these pieces investigate the role of sacrifice in our moral lives generally while two investigate the role of sacrifice in relation to particular moral theories The final two chapters investigate the value of sacrifice in relation to political and theological issues The chapters in this book were originally published as a special issue of the International Journal of Philosophical Studies Texas Law Review ,1927 A Bar Association number issued annually in Oct in v 1 18 this no contains Proceedings of the 42nd 59th annual sessions 1923 1940 of the Texas Bar Association in v 18 26 contains Proceedings of the 1st 9th annual meetings 1940 1948 of the State Bar of Texas
