## **Running Down Water In A Changing Land:**

Running Down Mary E. White, 2000 With one of the oldest landscapes anywhere on Earth and some of the most ancient drainage patterns our concept of what comprises a river system in Australia is different from the accepted European concept How we manage Australia's precious water resources will determine the future prospects of our nation **Collapse** Jared Diamond, 2005-12-27 This title has been removed from sale by Penguin Group USA Assisted Suicide The New York Times Editorial Staff, 2019-07-15 The debate over the ethics of assisted suicide has raged for the better part of a century From Dr Jack Keivorkian's controversial practices to international euthanasia laws there is nothing easy about the decision to end a life The articles in this book speak to the legal battles the historical context and the personal stories that shed light on the various perspectives and conflicts that go into understanding the current state and future of assisted suicide Media literacy questions and terms will engage readers and aid them in considering the many facets of this complicated issue **From**

**Disaster Response to Risk Management** Linda C. Botterill, Donald A. Wilhite, 2005-02-17 An academically focused collection of papers highlighting the successes and challenges of a move from disaster to risk management in responding to drought The book passes on the experiences gained from Australia's trail blazing new policy introduced in 1992

Kangaroos Terence J. Dawson, 2012 Appreciation of the diversity of kangaroos in Australia and their lifestyles Insight into the ecology of kangaroos as it pertains to conservation issues Provides an understanding of the historical evolution of a major group of Australian mammals This book provides a clear and accessible account of kangaroos showing how their reproductive patterns social structure and other aspects of their biology make them well adapted to Australia's harsh climate and demanding environment Since the last edition of this book nearly 20 years ago much more is now known about the biology and ecology of these iconic animals This completely revised edition describes these new perspectives and attempts to counter the many urban and rural myths that still exist **Australia, New Zealand, and the Pacific** Donald S.

Garden, 2005-08-19 A fascinating study of the environmental history of Australia New Zealand and the islands of the Pacific from the time of the dinosaurs to the present day Of interest to students and academics alike this book provides a much needed synthesis of the recent literature on the environmental history of Australia and Oceania Part of ABC CLIO's Nature and Human Societies series this book maps out the key trends in the region's environmental history charting the creation of the Australian continent from the ancient land mass of Gondwanaland to the arrival of humans Especially fascinating are the chapters highlighting how successive waves of human migration created environmental havoc throughout the region leading to the collapse of the Easter Island civilization and the spread of nonindigenous flora and fauna From the controversies over the reasons why creatures such as the marsupial lion and the giant kangaroo became extinct to such contemporary problems as deforestation and global warming this book contains sobering lessons for us all **The Pacific** Donald B.

Freeman, 2013-03-07 In this fascinating and exciting overview Donald B Freeman explores the role of the Pacific Ocean in

human history Covering over one third of the globe the Pacific Ocean plays a vital role in the lives and fortunes of more than two billion people who live on its rim lands and islands It has played a crucial part in shaping the histories of the different Pacific cultures towards which it has appeared in a variety of different guises Exploring the ocean s place in human history this wide ranging book draws together the long and varied physical economic cultural and political history of the Pacific from Prehistory through to the present day It takes an interdisciplinary approach to show the changing viewpoints of those who explored exploited and settled the Pacific including the inhabitants of its Asian and American rim lands The book draws on new research in a variety of areas such as early Pacific migrations impacts of European colonization the effects of climate change and current economic and political developments It provides a uniquely broad overview that will be of vital interest to students and to all those with an interest in World History

Where River Meets Sea Lynne Turner,Dieter Tracey,Jan Tilden,William C. Dennison,2006-03-17 Estuaries are dynamic coastal waterways where salt and fresh water mix Where River Meets Sea describes the value and status of Australia s 974 estuaries and takes readers on a state by state tour describing the health geography science management and ecological functions of these unique coastal waterways It includes profiles of people and their relationships with estuaries The book s many photographs maps case studies and diagrams will help Australians to better understand appreciate and wisely use these natural areas Chapters on natural history coastal science and management give an understanding of our vast network of pristine and heavily modified estuaries from isolated tide dominated estuaries in Australia s tropical north to those shaped by waves in southern temperate waters Other chapters show how people use and value coastal catchments and waterways the impacts of human development on natural ecosystems and how estuaries can be better managed in future Where River Meets Sea aims to provide Australians with a deeper appreciation of our coastal waterways that are both vital for our economy and precious to our quality of life This is a re issued version of the original work published by the CRC for Coastal Zone Estuary and Waterway Management in 2004
