Love Your Body... Embrace Your Life! Susan Sommers, Theresa Dugwell, 2016-05-27 Susan Sommers and Theresa Dugwell are co-authors of the successful book *Power Source for Women: Proven Fitness Strategies, Tools, and Success Stories for Women*. 45 BPS Books, 2010. In *Love Your Body, Embrace Your Life*, they expand their commitment to health, fitness, and spirituality for women at all ages and stages of life. Using evidence-based research, five outstanding experts from the University of Toronto, The Art of Living Foundation, and Ladylean have contributed new self-assessment tools, templates, and exercises for stress reduction, meditation, and mindfulness, self-compassion, and nutrition. Sommers and Dugwell have also created new questionnaires, action plans, and journals to motivate and inspire women to succeed. *Foundations of Sport and Exercise Psychology* Robert S. Weinberg, Daniel Gould, 2023-03-03 This book focuses on human behavior in certain types of situations, namely sport and exercise settings. It examines what motivates people, what angers them, and what scares them; how they regulate their thoughts, feelings, and emotions; and how their behaviors can become more effective. Biller, 2002-05-30 Biller integrates research about exercise, nutrition, and health within an applied developmental psychological framework. Readers are presented with ways of making fitness an enjoyable and positive force in their daily lives. Although a major focus is on how to get in shape, Biller's primary mission is to encourage a healthy lifestyle that enriches self-awareness and personal growth. The goal is not just to facilitate physical fitness but to enhance overall life satisfaction. The book's uniqueness accordingly lies in its ability to help individuals develop a creative, playful approach to fitness in all spheres of their lives. While some readers are just beginning to think about fitness because of a desire to lose weight and improve their appearance, others are more interested in refining their athletic skills or achieving a greater balance in their daily activities. Dedicated exercisers often are striving for new routines and ways to

prevent burnout Many parents moreover are searching for activities to help their children as well as themselves become more fit Older individuals are especially likely to be concerned about staying healthy and avoiding physical dependence as they age Biller speaks to all these concerns and all these groups by providing an approach to getting in shape that enriches self understanding and mental vitality *Medical and Health Care Books and Serials in Print* ,1986 **Assembly** West Point Association of Graduates (Organization),1991 **Books and Pamphlets, Including Serials and Contributions to Periodicals** Library of Congress.
