Rural Development Principles And Practice:

Rural Development Theory and Practice Ruth McAreavey, 2009-06-02 Rural development is inherently viewed as a positive thing it is seen as something that brings together groups of individuals with automatic positive implications and outcomes Policy rhetoric frequently uses popular terms such as involvement participation and power sharing to describe rural development activities However the reality of experience on the ground does not necessarily concur with these ideals It is not always clear who ultimately benefits from rural development the State the community or rural development practitioners This book critically analyses key concepts associated with rural development policy and practice and using the concepts of power and micro politics to analyze rhetoric and reality reveals the intricacies of rural development Challenging popular ideals associated with rural development this book presents the notion of rural development less as a spontaneous all inclusive affair and more as a limited controlled and exclusive process Ultimately it contends that within structures of rural governance a regeneration power elite predominates development and regeneration activities Community-based Approaches to Rural Development David Bruce, Margaret Whitla, Mount Allison University. Rural and Small Town Research and Studies Programme, 1993 *Rural Tourism and Recreation* Lesley Roberts, Derek Hall, 2001-01-01 This book reviews the theory and practice of tourism and recreation in rural areas in Europe Including numerous case studies 9 chapters cover the changing nature of recreation and tourism provision in rural areas the emergence of sustainability in the development debate the different levels of policy influencing recreation and tourism development and emphasizing the connectedness between local and global processes the role and influence of the local community in recreation and tourism changing patterns of tourism consumption the changing nature of tourism supply and the processes relating to the convergence of supply and demand Rural Development Katar Singh, 1986 *Handbook of Research on Agricultural Policy, Rural Development, and Entrepreneurship in Contemporary Economies* Jean Vasile, Andrei, Subic, Jonel, Grubor, Aleksander, Privitera, Donatella, 2019-11-29 Promoting rural entrepreneurship is a necessary step to limit the negative effects of classical agricultural policy based on a linear process and attracting secondary resources to the economic process The analysis of agricultural policy and rural development in conjunction to entrepreneurship in terms of production may represent a further step in understanding the role and importance of diversifying the rural potentials in contemporary economies The Handbook of Research on Agricultural Policy Rural Development and Entrepreneurship in Contemporary Economies is an essential publication of academic research that examines agricultural policy and its impact on shaping future resilient economy in rural areas and identifies green business models and new business patterns in rural communities Covering a range of topics such as entrepreneurship product management and marketing this book is ideal for researchers policymakers academicians economists agriculture professionals rural developers business investors and students **Management and Development of Agricultural and Natural Resources in Egypt's Desert** Ahmed A. Elkhoully, Abdelazim Negm, 2021-05-31 This book

reviews the economic potential of various natural resources found in the Egyptian deserts that could help fill the food gap in Egypt e.g the date palm olives and domestic animals Bearing in mind that the entire country is subject to arid or hyperarid climatic conditions only a small portion 3% of total area is agriculturally productive in comparison the dominant deserts These aspects combined with a growing population ca 100 million citizens and water resources scarcity have produced severe adverse effects on natural resource utilization This book presents innovative methods for addressing desert soil s key problems soil erosion salinity pollution decreased fertility minerals and weed and pest control Its goal is to help authorities reclaim the desert and optimally utilize the minerals and the available natural resources to support the sustainability agenda 2030 Besides it offers researchers guidance on remaining gaps and future research directions Lastly and importantly it provides essential information on investment opportunities in desert cultivation such as the fields of food fodder and medicinal plants

approaches **Rural development** Kristof Van Assche, Anna-Katharina Hornidge, 2023-09-04 This book offers a unique perspective on rural development by discussing the most influential perspectives and rendering their risks and benefits visible. The authors do not present a silver bullet. Rather, they give students, researchers, community leaders, politicians, concerned citizens, and development organizations the conceptual tools to understand how things are organized now, which development path has already been taken, and how things could possibly move in a different direction. Van Assche and Hornidge pay special attention to the different roles of knowledge in rural development: both expert knowledge in various guises and local knowledge. Crafting development strategies requires understanding how new knowledge can fit in and work out in governance. Drawing on experiences in five continents, the authors develop a theoretical framework which elucidates how modes of governance and rural development are inextricably tied. A community is much better placed to choose direction when it understands these ties.

Rural Cooperation in Europe Edward Kasabov, 2015-12-29 This collection analyses various European rural locations through a relational lens, attending to key aspects and dimensions of the relational rurals, such as cooperation, contestation, solidarity, and consensus. By observing rural settings in such terms, contributors are able to rethink European rurality from a distinctly relational perspective.

Sociology and Social Anthropology in India Yogesh Atal, 2009 The Indian Council of Social Science Research, the premier organization for social science research in India, conducts periodic surveys in the major disciplines of the social sciences to assess disciplinary developments as well as to identify gaps in research in these disciplines.

Managing Development in a Globalized World Habib Zafarullah, Ahmed Shafiqul Huque, 2012-03-13 Traditionally, development has been rooted in ideologies and assumptions prevalent in the developed world and in practices and strategies adopted by leading industrial nations. However, historically eclectic ideas and approaches often clash with existing, long-established notions of progress and modes of realizing social and economic change. *Managing Development in a Globalized World: Concepts, Processes, Institutions* explores this topic by incorporating ideas and interpretations that have previously been neglected or given inadequate attention in the discourse on developing countries. It underscores development as a continuous process that must be supported by sound policies and efficient management, supplying a wider understanding of the field. The authors argue that the application of innovative development techniques and best practices is essential for obtaining optimum results in meeting the needs of society. They examine the style of managing development with a new perspective that links the phenomenon with changing demands and the interplay of internal and external actors and a host of stakeholders. An exploration of key sectors in development provides clear comprehension of problems and solutions. A careful synthesis of theoretical, conceptual, and empirical literature, the book assesses real-world situations and provides insight into the operational dynamics of development policies, programs, and institutions. It focuses on goals, values, and dynamics of development management that are undergoing rapid changes and continue to be enhanced to alleviate poverty and improve living standards in an era of globalization and inter-regional and

inter institutional synergies It highlights best practices essential for the efficient and effective delivery of human development services that are designed and put in place to obtain optimum results in meeting the needs of society
