Livelihood and Wellbeing in the Urban Fringe Nasrin Banu, Shahab Fazal, 2016-05-25 This book presents a detailed study on Aligarh's urban fringe, focusing on the livelihood of the villagers who have lived there for generations and on that of the migrants residing in the villages. As a Class I city located in the most populated state, Uttar Pradesh, of India, Aligarh has gained in importance due to its proximity to the national capital, New Delhi, and Uttar Pradesh's industrial cities, Kanpur and Ghaziabad. The 2011 census showed that of the total population of the district, 33.1 per cent was urban. 872,575 residents. Projections by the Town and Country Planning Department suggest that the city will have some 1.2 million inhabitants and there will be a need for another 64,000 houses. Thus, the city will expand extensively into its urban fringe, which is expected to entail large scale transformations. The expansion of the city will significantly influence nearby villages in terms of land use and population, both physically and socio-economically.

Cities, Change, and Conflict Nancy Kleniewski, Alexander R. Thomas, Gregory Fulkerson, 2024-06-28 *Cities, Change, and Conflict* was one of the first texts to embrace the perspective of political economy as its main explanatory framework and then complement it with the rich contributions of human ecology, as well as perspectives derived from critical approaches to social theory. Although its primary focus is on North American cities, the book contains several chapters on cities in other parts of the world, including the Global North and Global South. It provides both historical and contemporary accounts of the impact of globalization on urban development and urban institutions. This sixth edition features a new groundbreaking chapter on the relationship between the physical environment and human settlements, including the urban-rural nexus. This edition also expands and updates coverage of recent trends, such as the establishment and evolution of gay neighborhoods, the suburbanization of immigrant groups, the situation of the immigrant youth known as Dreamers, the reverse migration of Blacks from the North to the South, and the proliferation of exurban communities. Beyond examining the dynamics that shape the form and functionality of cities, the text surveys the experience of urban life among different social groups, including a new perspective on intersectionality as it affects people's experiences in cities. It illuminates the workings of the urban economy, local and federal governments, and the criminal justice system while addressing policy debates and decisions that affect almost every aspect of urbanization and urban life. *The*
