Democracy and World Language Education

Timothy Reagan, 2022-02-01 This book challenges the reader to consider issues of language and linguistic discrimination as they impact world language education Using the nexus of race language and education as a lens through which one can better understand the role of the world language education classroom as both a setting of oppression and as a potential setting for transformation *Democracy and World Language Education Toward a Transformation* offers insights into a number of important topics Among the issues that are addressed in this timely book are linguisticism the ideology of linguistic legitimacy raciolinguistics and critical epistemology Specific cases and case studies that are explored in detail include the contact language Spanglish African American English and American Sign Language The book also includes critical examinations of the less commonly taught languages the teaching of classical languages primarily Latin and Greek and the paradoxical learning and speaking of critical languages that are supported primarily for purposes of national security Arabic Chinese Farsi Russian etc

Rusistika, 2003

Linguistic Legitimacy and Social Justice

Timothy Reagan, 2019-02-28 This book examines the nature of human language and the ideology of linguistic legitimacy the common set of beliefs about language differences that leads to the rejection of some language varieties and the valorization of others It investigates a broad range of case studies of languages and dialects which have for various reasons been considered low status including

African American English Spanglish American Sign Language Yiddish Esperanto and other constructed languages indigenous languages in post colonial neo European societies and Afrikaans and related language issues in South Africa Further it discusses the implications of the ideology of linguistic legitimacy for the teaching and learning of foreign languages in the US Written in a clear and accessible style this book provides a readable and pedagogically useful tool to help readers comprehend the nature of human language and the ways in which attitudes about human language can have either positive or negative consequences for communities and their languages It will be of particular interest to language teachers and teacher educators as well as students and scholars of applied linguistics intercultural communication minority languages and language extinction *Russian Minstrels* Russell Zguta,2017-01-30 No detailed description available for Russian Minstrels

Peculiar Language Derek Attridge,2004-08-02 First published in 1988 this classic text is established as one of the most important discussions of the language of literature Re issued as a result of recent critical interest this edition includes a new preface by the author Forthcoming Books Rose Arny,2002-02 **Peopling the Russian Periphery** Nicholas Breyfogle,Abby Schrader,Willard Sunderland,2007-11-02 Though usually forgotten in general surveys of European colonization the Russians were among the greatest colonizers of the Old World eventually settling across most of the immense expanse of Northern Europe and Asia from the Baltic and the Pacific and from the Arctic Ocean to Central Asia This book makes a unique contribution to our understanding of the Eurasian past by examining the policies practices cultural representations and daily life experiences of Slavic settlement in non Russian regions of Eurasia from the time of Ivan the Terrible to the nuclear era The movement of tens of millions of Slavic settlers was a central component of Russian empire building and of the everyday life of numerous social and ethnic groups and remains a crucial regional security issue today yet it remains relatively understudied Peopling the Russian Periphery redresses this omission through a detailed exploration of the varied meanings and dynamics of Slavic settlement from the sixteenth century to the 1960s Providing an account of the different approaches of settlement and expansion that were adopted in different periods of history it includes detailed case studies of particular episodes of migration Written by upcoming and established experts in Russian history with exceptional geographical and chronological breadth this book provides a thorough examination of the history of Slavic settlement and migration from the Muscovite to the Soviet era It will be of great interest to students and scholars of Russian history comparative history of colonization migration interethnic contact environmental history and European Imperialism *A History of Russia Volume 1* Walter G. Moss,2003-07-01 This new edition retains the features of the first edition that made it a popular choice in universities and colleges throughout the US Canada and around the world Moss s accessible history includes full treatment of everyday life the role of women rural life law religion literature and art In addition it provides many other features that have proven successful including a well organized and clearly written text references to varying historical perspectives numerous illustrations and maps fully updated bibliographies accompanying each chapter as well as a general

bibliography a glossary and chronological and genealogical lists The Routledge Handbook of Russian International Relations Studies Maria Lagutina, Natalia Tsvetkova, Alexander Sergunin, 2023-02-27 This handbook examines the study of international relations IR in Russia giving a comprehensive analysis of historical theoretic conceptual geographical and institutional aspects It identifies the place and role of Russia in global IR and discusses the factors that facilitate or impede the development of Russian IR studies The contributors represent diverse Russian regions and IR schools and offer an overview of different intellectual traditions and key IR paradigms in the post Soviet era Filling the vacuum in international understanding of the Russian perspective on pivotal international issues they demonstrate the continuity and change in Russia's international policy course over the past three decades and explain how different foreign policy schools and concepts have affected Russian foreign policy making and the decision making process Providing a unique contribution to the discussion on non Western IR theory this handbook will appeal to scholars and students of international relations Russian studies world politics and international studies **The Expansion of Orthodox Europe** Jonathan Shepard, 2017-05-15 This volume aims to clarify the context for the expansion of Western Europe by focusing on what had been the greatest power in early medieval Europe the Byzantine empire and on the continuing strengths and expansion of the Orthodox world Byzantine orthodoxy offered a format for faith hope and fear in various combinations involving religious beliefs and an idealised world order Its multifaceted nature helps explain Byzantium's success the resilience of the earthly empire and the appeal of its religious organisation and rites to other societies The volume reprints a set of key studies combining classic treatments of Byzantine and Slavic history with far reaching explorations of the extent of those worlds Part I focuses on the empire in its heyday some studies illustrate the sense of manifest destiny bolstering the imperial order until and even beyond Constantinople's fall to the fourth crusaders in 1204 The spread of the Byzantines' cult enlarged their trading zone northwards across Rus while Byzantine based merchants were more active than is generally realised in the Eastern Mediterranean Part II includes an overview of the fragmentation following 1204 Studies show how Byzantine rites and ideals of rulership were adopted by Serb and Bulgarian dynasts Particular attention is paid to Rus although subjugated by the Mongols Rus churchmen monks and leading princes all drew on Byzantine religious texts and imagery From the later fifteenth century Moscow's rulers began to be portrayed as new guardians of religious correctness even as the World's End supposedly drew nigh The Introduction contextualises the studies included here highlighting the significance and not just in terms of rivalry of the Byzantine Orthodox world for developments in Western Europe **A history of Russian state and law. A Course of Lectures for Master's Students / История государства и права России** Игорь Никодимов, 2022-05-15 XX **Russian America** Ilya Vinkovetsky, 2011-04-06 From 1741 until Alaska was sold to the United States in 1867 the Russian empire claimed territory and peoples in North America In this book Ilya Vinkovetsky examines how Russia governed its only overseas colony illustrating how the colony fit into and diverged from the structures

developed in the otherwise contiguous Russian empire Russian America was effectively transformed from a remote extension of Russia's Siberian frontier penetrated mainly by Siberianized Russians into an ostensibly modern overseas colony operated by Europeanized Russians Under the rule of the Russian American Company the colony was governed on different terms than the rest of the empire a hybrid of elements carried over from Siberia and imported from rival colonial systems Its economic labor and social organization reflected Russian hopes for Alaska as well as the numerous limitations such as its vast territory and pressures from its multiethnic residents it imposed This approach was particularly evident in Russian strategies to convert the indigenous peoples of Russian America into loyal subjects of the Russian Empire Vinkovetsky looks closely at Russian efforts to acculturate the native peoples including attempts to predispose them to be more open to the Russian political and cultural influence through trade and Russian Orthodox Christianity Bringing together the history of Russia the history of colonialism and the history of contact between native peoples and Europeans on the American frontier this work highlights how the overseas colony revealed the Russian Empire's adaptability to models of colonialism **Cumulated**

Index Medicus, 1978 *The Making of Holy Russia* John Strickland, 2013-09-01 This book is a critical study of the interaction between the Russian Church and society in the late 19th and early 20th century While other studies exist that draw attention to the voices in the Church typified as liberal in the years leading up to the Revolution this work introduces a wide range of conservative opinion that equally strove for spiritual renewal and the spread of the Gospel Grounded in original research conducted in the newly accessible libraries and archives of post Soviet Russia this study is intended to reveal the wider relevance of its topic to an ongoing discussion of the relationship between national or ethnic identities on the one hand and the self understanding of Orthodox Christianity as a universal and transformative faith on the other

The Supplement to The Modern Encyclopedia of Russian, Soviet and Eurasian History: Bashkir Autonomous Soviet Socialist Republic - Bugaev, Boris Nikolaevich George N. Rhyne, Edward J. Lazzerini, Bruce Friend Adams, 2003

The Russian Folktale by Vladimir Yakovlevich Propp Vladimir Yakovlevich Propp, 2012-09-12 Vladimir Propp is the Russian folklore specialist most widely known outside Russia thanks to the impact of his 1928 book *Morphology of the Folktale* but *Morphology* is only the first of Propp's contributions to scholarship This volume translates into English for the first time his book *The Russian Folktale* which was based on a seminar on Russian folktales that Propp taught at Leningrad State University late in his life Edited and translated by Sibelan Forrester this English edition contains Propp's own text and is supplemented by notes from his students *The Russian Folktale* begins with Propp's description of the folktale's aesthetic qualities and the history of the term the history of folklore studies first in Western Europe and then in Russia and the USSR and the place of the folktale in the matrix of folk culture and folk oral creativity The book presents Propp's key insight into the formulaic structure of Russian wonder tales and less schematically than in *Morphology* though in abbreviated form and it devotes one chapter to each of the main types of Russian folktales the wonder tale the novellistic or everyday tale the animal

tale and the cumulative tale Even Propp s bibliography included here gives useful insight into the sources accessible to and used by Soviet scholars in the third quarter of the twentieth century Propp s scholarly authority and his human warmth both emerge from this well balanced and carefully structured series of lectures An accessible introduction to the Russian folktale it will serve readers interested in folklore and fairy tale studies in addition to Russian history and cultural studies *Words on Cassette* ,1997 Learning a non-native language in a naturalistic environment: Insights from behavioural and neuroimaging research Christos Pliatsikas,Vicky Chondrogianni,2015-09-02 It is largely accepted in the relevant literature that successful learning of one or more non native languages is affected by a number of factors that are independent of the target language s per se these factors include the age of acquisition AoA of the target language s the type and amount of formal instruction the learners have received as well as the amount of language use that the learners demonstrate Recent experimental evidence suggests that one crucial factor for efficient native like performance in the non native language is the amount of naturalistic exposure or immersion that the learners receive to that language This can be broadly defined as the degree to which language learners use their non native language outside the classroom and for their day to day activities and usually presupposes that the learners live in an environment where their non native language is exclusively or mostly used Existing literature has suggested that linguistic immersion can be beneficial for lexical and semantic acquisition in a non native language as well as for non native morphological and syntactic processing More recent evidence has also suggested that naturalistic learning of a non native language can also have an impact on the patterns of brain activity underlying language processing as well as on the structure of brain regions that are involved expressed as changes in the grey matter structure This Research Topic brings together studies on the effects of learning and speaking a non native language in a naturalistic environment These include more efficient or native like processing in behavioural tasks tapping on language lexicon morphology syntax as well as changes in the brain structure and function as revealed by neuroimaging studies

Adopting the Song of Term: An Emotional Symphony within **Rus A Comprehensive Course In Russian**

In some sort of consumed by monitors and the ceaseless chatter of quick communication, the melodic splendor and mental symphony produced by the written term usually disappear into the back ground, eclipsed by the persistent sound and disturbances that permeate our lives. However, set within the pages of **Rus A Comprehensive Course In Russian** an enchanting literary value brimming with fresh thoughts, lies an immersive symphony waiting to be embraced. Crafted by a masterful musician of language, that interesting masterpiece conducts readers on a mental journey, well unraveling the hidden songs and profound impact resonating within each cautiously crafted phrase. Within the depths of this touching analysis, we will examine the book is central harmonies, analyze its enthralling writing style, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
