The House of Twenty Thousand Books

Sasha Abramsky, 2017-03-28 A tender and compelling memoir of the author's grandparents, their literary salon, and a way of life that is no more. *The House of Twenty Thousand Books* is the story of Chimen Abramsky, an extraordinary polymath and bibliophile who amassed a vast collection of socialist literature and Jewish history. For more than fifty years, Chimen and his wife Miriam hosted epic gatherings in their house of books that brought together many of the age's greatest thinkers. The atheist son of one of the century's most important rabbis, Chimen was born in 1916 near Minsk, spent his early teenage years in Moscow while his father served time in a Siberian labor camp for religious proselytizing, and then immigrated to London where he discovered the writings of Karl Marx and became involved in left-wing politics. He briefly attended the newly established Hebrew University in Jerusalem until World War II interrupted his studies. Back in England, he married, and for many years he and Miriam ran a respected Jewish bookshop in London's East End. When the Nazis invaded Russia in June 1941, Chimen joined the Communist Party, becoming a leading figure in the party's National Jewish Committee. He remained a member until 1958, when shockingly late in the day he finally acknowledged the atrocities committed by Stalin. In middle age, Chimen reinvented himself once more, this time as a liberal thinker, humanist professor, and manuscripts expert for Sotheby's auction house. Journalist Sasha Abramsky recreates here a lost world, bringing to life the people, the books, and the ideas that filled his grandparents' house from gatherings that included Eric Hobsbawm and Isaiah Berlin to books with Marx's handwritten notes, William Morris manuscripts, and woodcuts, an early sixteenth-century Bomberg Bible, and a first edition of Descartes's *Meditations*. *The House of Twenty Thousand Books* is a wondrous journey through our times from the vanished worlds of Eastern European Jewry to the cacophonous politics of modernity. *The House of Twenty Thousand Books* includes 43 photos.

[Bringing Genius Hour to Your Library](#) Elizabeth Barrera Rush, 2017-11-28 This unique book presents a practical and realistic approach to implementing a school-wide K-12 Genius Hour program, one that can succeed regardless of budgetary and infrastructure constraints. Genius Hour is a movement in which students are allowed to spend a portion of their in-school time learning about a topic of their choosing, even subjects outside of the curriculum. When properly implemented, a Genius Hour program can create true passion for learning among unmotivated students, ignite interest in STEM, as well as the arts, encourage collaboration, improve the relationship between educator and students, and help prepare students for real life outside of the educational system. But revamping a school library program to offer a Genius Hour program may seem like an insurmountable task, especially when working with a limited staff or budget. This book provides specific direction and concrete advice that enables school librarians to lead a school-wide program for all grade levels from kindergarten to 12th grade. It explains why Genius Hour is the perfect program complement to the learning commons environment, presents research and support that will empower librarians to make a convincing case to administration, explains how to enlist the participation of faculty, and provides step-by-step guidance to begin successfully manage and grow
