Entanglements, 1806-1914 Barbara Jelavich, 2004-03-11 This book examines the reason for the Russian involvement in the Balkan peninsula Germany's Empire in the East David Hamlin, 2017-07-03 This book puts German policy toward Romania and the German East into a global context One of the signal events of the twentieth century was Germany s effort to construct an empire in Europe modeled on the European experience outside Europe The turn to European empire resulted less from the dynamics of capitalist expansion than from a deep crisis in global political and economic order Confronted with the global economic and political power of the western allies the Germans turned to Eastern Europe to construct a dependent

space tied to Germany as Central America was to the US The First World War transformed how Germans thought about international order empire and the nature of Romanians The domestic consequences of Germany's eviction from global markets authorized deep interventions in Romanian society to establish a pre eminent position for the German state inside Romania David Hamlin embeds occupation and war aims in economic concerns **Encyclopedia of Historians and**

Milward and Contemporary European History* Fernando Guirao,Frances M.B. Lynch,2015-10-14 Alan S Milward was a renowned historian of contemporary Europe In addition to his books as well as articles and chapters in edited books he also wrote nearly 250 book reviews and review articles some in French and German which were published in journals world wide Taken together they reveal a remarkable degree of theoretical consistency in his approach to understanding the history of Europe since the French Revolution This book brings together these previously unexamined pieces of historical analysis in order to trace and shed light on key intellectual debates taking place in the second half of the 20th century Many of these discussions continue to influence us today such as the role of Germany in Europe the economic social and political foundations of European integration the European rescue of the nation state the reasons for launching the single currency the conditions for retaining the allegiance of European citizens to the notions of nation and supra nation and ultimately the issue of democratic governance in a global environment In bringing together these reviews and review articles the book provides an introduction to the main scholarly achievements of Milward in his own words Fernando Guirao and Frances M B Lynch provide an introduction to the volume which both guides the reader through many of the academic debates embedded within the text while underlining their contemporary relevance By introducing and bringing together this hitherto overlooked treasure trove of historical analysis this book maps a close itinerary of some of the most salient intellectual debates of the second half of the 20th century and beyond This unique volume will be of great interest to scholars of economic history European history and historiography *Palmerston and Metternich's Austria, 1830–1841* Jiří Vyčichlo,2025-03-03 This book aims to analyze the

international policies of Viscount Palmerston and Prince Metternich during the years 1830-1841. The focus of this work is on the pivotal role of British diplomacy in Europe during a period marked by the outbreak of the July Revolution, the dissolution of the United Kingdom of the Netherlands, the November Uprising, significant events in the German Confederation and the Papal States, as well as the civil wars in Portugal and Spain and the two Egyptian-Ottoman wars. The clash between Palmerston and Metternich stands out. Both men were at the forefront of European foreign relations and were symbols of two different political currents. This work aims to challenge the traditional view of Palmerston as a progressive statesman who defended the freedom of European liberalism and Metternich as a reactionary who opposed social modernization. The text highlights the motives behind British foreign policy which were centred on promoting national interests, often at the expense of cooperation among the Great Powers, in contrast to the Austrian Chancellor's efforts to foster the best possible relations within the Concert of Europe.

[A History of Eastern Europe 1740-1918](#) Ian D. Armour, 2012-11-22. A History of Eastern Europe 1740-1918: Empires, Nations and Modernisation provides a comprehensive authoritative account of the region during a troubled period that finished with the First World War. Ian Armour focuses on the three major themes that have defined Eastern Europe in the modern period: empire, nationhood and modernisation, whilst chronologically tracing the emergence of Eastern Europe as a distinct concept and place. Detailed coverage is given to the Habsburg, Ottoman, German and Russian Empires that struggled for dominance during this time. In this exciting new edition, Ian Armour incorporates findings from new research into the nature and origins of nationalism and the attempts of supranational states to generate dynastic loyalties, as well as concepts of empire. Armour's insightful guide to early Eastern Europe considers the important figures and governments, analyses the significant events and discusses the socio-economic and cultural developments that are crucial to a rounded understanding of the region in that era. Features of this new edition include a fully updated and enlarged bibliography and notes, eight useful maps, updated content throughout the text. A History of Eastern Europe 1740-1918 is the ideal textbook for students studying Eastern European history.

[Entangled Histories of the Balkans - Volume One](#), 2013-07-15. Modern Balkan history has traditionally been studied by national historians in terms of separate national histories taking place within bounded state territories. The authors in this volume take a different approach. They all seek to treat the modern history of the region from a transnational and relational perspective in terms of shared and connected as well as entangled histories, transfers and crossings. This goes along with an interest in the way ideas, institutions and techniques were selected, transferred and adapted to Balkan conditions and how they interacted with those conditions. The volume also invites reflection on the interacting entities in the very process of their creation and consecutive transformations rather than taking them as givens. Contributors include Alexander Vezhenkov, Constantin Iordachi, Raymond Detrez, Ronelle Alexander Roumen Daskalov and Tchavdar Marinov.

The Longman Companion to European Nationalism 1789-1920 Raymond Pearson, 2014-09-25. A highly topical analysis of European Nationalism from the French Revolution through to the

aftermath of the First World War when the nationalist issues and problems that dominate the political landscape of our own time were already fully established. Covering an enormous range of peoples from the Icelanders to the Gypsies from Brittany to Wallachia the book presents a wealth of historical geopolitical information unavailable elsewhere. Essential as a reference work it also provides a unique opportunity to survey systematically a crucial but fragmented subject in its full European context. Finding Order in Diversity Scott Berg, 2022-03-15 Finding Order in Diversity Religious Toleration in the Habsburg Empire 1792 1848 covers the tumultuous period in the Habsburg Empire from Joseph II's failed reforms through the Revolutions of 1848 documenting the ongoing struggle between religious activism and civil peace. In the name of stability the Habsburg Empire sidelined Catholic activists and promoted religious toleration during this era in which Austria was an international symbol of conservatism and other states engaged in strident confessional politics. Austria's well known fear of disorder and revolution in this notoriously conservative regime extended to Catholics and the state utilized the censors and police to institutionalize religious toleration which it viewed as essential to law and order and to tame religious passions which officials feared could mobilize public opinion in unpredictable directions. The state's growing use of police power had wide reaching consequences for refugees women and empire building. By the end of the nineteenth century the Habsburg Empire would become known as a multinational and multicultural state but this toleration was the product of the infamously conservative and rigid regime that ruled Austria in the decades after the French Revolution and until the Revolutions of 1848. While the Habsburgs typically are associated with Catholicism 1780 to 1848 marked the only era in which the Habsburgs tried to disassociate themselves politically from Catholicism. Though civil peace and religious toleration eventually became the norm this book documents the decades of heavy handed state efforts to get there.

Moldova Rebecca Haynes, 2020-03-19 Moldova is a new nation state with a long history. Despite only recently gaining independence following the fall of the Soviet Union in 1991 Moldova's roots stretch all the way back to the Principality of Moldavia established in 1359. After centuries toiling under Ottoman control and latterly Russian Imperial rule the Moldovans briefly tasted independence in the early twentieth century before being annexed by the Soviet Union. In recent times the Transnistrian Dispute has once again threatened the sovereignty and indeed the independence of Moldova and this conflict remains unresolved today. For the first time in English this book places the problems of contemporary Moldova in a long term historical perspective. It argues that the Moldovans complex relations with the Russians and the West are not simply the product of the Soviet era but have their roots in earlier centuries. Haynes contends that the Moldovan lands and Moldovan identity and culture have long been contested by the Roman and Byzantine Empires of antiquity by the expanding Hungarian and Polish Lithuanian kingdoms in the Middle Ages by the Ottoman Habsburg Russian and Soviet empires in more recent centuries and by the Romanian state. The book provides a political and cultural history of the growth and development of the medieval Principality of Moldova the Principality's partition and

The Foreign Office Mind T. G. Otte, 2013-08-22 With this pioneering approach to the study of international history T G Otte reconstructs the underlying principles, perceptions and unspoken assumptions that shaped British foreign policy between the death of Palmerston and the outbreak of the First World War Grounded in a wide range of public and private archival sources and drawing on sociological insights *The Foreign Office Mind* presents a comprehensive analysis of the foreign service as a knowledge based organization rooted in the social and educational background of the diplomatic elite and the broader political, social and cultural fabric of Victorian and Edwardian Britain The book charts how the collective mindset of successive generations of professional diplomats evolved and reacted to and shaped changes in international relations during the second half of the nineteenth century including the balance of power and arms races the origins of appeasement and the causes of the First World War *Empty Signs, Historical Imaginaries* Ágoston Berecz, 2020-03-20 Set in a

multiethnic region of the nineteenth century Habsburg Empire this thoroughly interdisciplinary study maps out how the competing Romanian, Hungarian and German nationalization projects dealt with proper names With particular attention to their function as symbols of national histories Berecz makes a case for names as ideal guides for understanding historical imaginaries and how they operate socially In tracing the changing fortunes of nationalization movements and the ways in which their efforts were received by mass constituencies he provides an innovative and compelling account of the historical utilization, manipulation and contestation of names

Sword of the Spirit, Shield of Faith Andrew Preston, 2012-02-28 A richly detailed profoundly engrossing story of how religion has influenced American foreign relations told through the stories of the men and women from presidents to preachers who have plotted the country's course in the world Ever since John Winthrop argued that the Puritans new home would be a city upon a hill Americans role in the world has been shaped by their belief that God has something special in mind for them But this is a story that historians have mostly ignored Now in the first authoritative work on the subject Andrew Preston explores the major strains of religious fervor liberal and conservative pacifist and militant internationalist and isolationist that framed American thinking on international issues from the earliest colonial wars to the twenty first century He arrives at some startling conclusions among them Abraham Lincoln's use of religion in the Civil War became the model for subsequent wars of humanitarian intervention nineteenth century Protestant missionaries made up the first NGO to advance a global human rights agenda religious liberty was the centerpiece of Franklin Roosevelt's strategy to bring the
