The Plays of George Etherege Michael Corder, 1982-10-28 Even among the richly talented generation who wrote for the stage during the Restoration Etherege was from the start considered to be a very special kind of innovator His first play *The Comical Revenge* 1664 with its partisan portrait of the Cavalier gentry during the last years of the Revolution and its bravura interweaving of four separate plots deftly caught an early Restoration mood and enjoyed great popularity Its successor *She Would if She Could* 1668 marks a deliberate change in direction Audiences expecting a sequel more akin to *The Comical Revenge* were at first faltering in their response but by 1671 Thomas Shadwell was confidently calling it the best comedy to have been written since the return of the king in 1660 Etherege's masterpiece however is his last play *The Man of Mode* 1676 which in clarity of vision and freshness of detail surpasses both its predecessors and in the early years of the eighteenth century became a central text in the debate about the worth of Restoration comedy This edition includes annotated texts of all three plays prefaced by an account of Etherege's life and the reception of his plays on the stage and in criticism

Emulation on the Shakespearean Stage Vernon Guy Dickson, 2017-03-02 The English Renaissance has long been considered a period with a particular focus on imitation however much related scholarship has misunderstood or simply marginalized the significance of emulative

practices and theories in the period This work uses the interactions of a range of English Renaissance plays with ancient and Renaissance rhetorics to analyze the conflicted uses of emulation in the period including the theory and praxis of rhetorical imitatio humanist notions of exemplarity and the stage's purported ability to move spectators to emulate depicted characters This book emphasizes the need to see emulation not as a solely or even primarily literary practice but rather as a significant aspect of Renaissance culture giving insight into notions of self society and the epistemologies of the period and informed by the period's own sense of theory and history Among the individual texts examined here are Shakespeare's *Titus Andronicus* and *Hamlet* Jonson's *Catiline* and Massinger's *The Roman Actor* with its strong relation to Jonson's *Sejanus* **A Select**
