Gelpi, 2015-03-09 Albert Gelpi's *American Poetry after Modernism* is a study of sixteen major American poets of the postwar period from Robert Lowell to Adrienne Rich. Gelpi argues that a distinctly American poetic tradition was solidified in the later half the twentieth century thus severing it from British conventions      *The Oxford Companion to American Literature* James

David Hart, 1948      **A Time to Reason and Compare** Joana Matos Frias, Jorge Bastos da Silva, 2016-08-17 This collection commemorates the centenary of decisive events in the history of international Modernism. The second decade of the twentieth century witnessed an extraordinary burst of creativity and inquiry which left an indelible mark in literature, music and the visual arts as well as in their respective theoretical frameworks. As with other moments of crisis, the period was exceptionally rich in innovation and experimentation. For literature and the arts, it was also a time of great clashes, both contextually most obviously because authors were faced with the events of the Great War and internally through radical contestation of the aesthetic and intellectual legacies of the past. The passing of one hundred years provides an opportunity for homage as well as critical assessment of intentions and accomplishments. The present volume brings together the work of scholars who focus on both early and late Modernism and its long ranging cultural and literary reverberations in order to widen the reader's perspective of the significance of the modernist movement for contemporary art theory and criticism. Contributions range from the Little Magazines and James Joyce to post World War II theatre of the absurd from literature in English to literature written in other languages such as French and Portuguese      **The Bachelor** Andrew

Palmer, 2021-07-20 A witty and wise People debut novel about love and commitment, celebrity and obsession, poetry and reality TV. Palmer's novel wryly tracks an earnest interrogation of art and selfhood. The New Yorker: Reeling from a breakup with his almost fiancée, the narrator of Andrew Palmer's debut novel returns to his hometown in Iowa to house sit for a family friend. There, a chance flick of the TV remote and a new correspondence with an old friend plunge him into unlikely twin obsessions: the reality show *The Bachelor* and the Pulitzer Prize winning poet John Berryman. As his heart begins to mend, his fascination with each deepens, and somewhere along the way representations of reality become harder and harder to distinguish from real life. Soon he finds himself corresponding with multiple love interests, participating in an ill considered group outing and trying to puzzle through the strange turn his life seems to have taken. An absorbing coming of age tale that marks the debut of a significant talent. Kirkus Reviews starred. *The Bachelor* approaches with wit and grace the high stakes questions of an overconnected world. If salvation can no longer be found in fame, can it still be found in romantic relationships? In an era of reality TV, where does entertainment end and reality begin? And why do we season after season repeat the same mistakes in love and life      **Out of the Wreck I Rise** Neil Steinberg, Sara Bader, 2018-05-11 There's still time to change
