Selected Poems and Prose [of] Michael Roberts Michael Roberts,1980 *The Criterion* Jason Harding,2002 In this detailed study of literary culture in the inter war period Jason Harding examines the standing of T S Eliot s journal the Criterion in relation to other literary periodicals and beyond that to the larger cultural networks of the time The Criterion may at first sight seem a well studied publication often dismissed as predictably conservative even proto Fascist However through his examination of insufficiently known archive material and interviews with living witnesses to the period Harding significantly alters our understanding of the journal and of Eliot s role as editor More than that by carefully resituating the journal in its relations of both competition and co operation with a range of other literary periodicals for the most part little studied themselves he shows himself an authoritative and discriminating guide to the often complex networks within which Eliot worked *The Criterion Cultural Politics and Periodical Networks in Inter War Britain* defends the journal against charges of Fascism and anti Semitism it is an invaluable book for scholars of Eliot and an original and incisive exploration of difficult areas of literary cultural exchange W.H. Committed Styles Benjamin Kohlmann, 2014-08-14 *Committed Styles* offers a new understanding of the politicized literature of the 1930s and its relationship to modernism It reclaims a central body of literary and critical works for modernist studies offering in depth readings of texts by T S Eliot and I A Richards as well as by key left wing authors including William Empson David Gascoyne Charles Madge Humphrey Jennings and Edward Upward Building on substantial new archival research Benjamin Kohlmann explores the deep tensions between modernist experimentation and political vision that lie at the heart of these works Taking as its focus the work of these writers the book argues that the close interactions between literary production critical reflection and political activism in the decade shaped the influential view of modernism as fundamentally apolitical Intervening in debates about the long life of modernism it contends that we need to take seriously the anti modernist impulse of 1930s left wing literature even when attention is paid to the formal complexity of these committed works The tonal ambiguities which run through the politicised literature of the 1930s thus effect not a disengagement from but a more thorough immersion in the profoundly conflicted political commitments of the decade At the same time the study shows that debates about the politics of writing in the 1930s continue to inform current debates about the relationship between literature and political commitment
