Lucas** Immanuel Kant, Jacob Sigismund BECK, George Briscoe KERFERD (M.A.), Peter Gray LUCAS, D. E. WALFORD, 1968 *Kant* Immanuel Kant, 1968 **Humanitarian Space and International Politics** Hikaru Yamashita, 2017-07-05 The creation of safe areas poses a number of difficult challenges to the spatial and normative organization of contemporary international politics As a result academics practitioners and NGOs alike will find the case studies in this informative book essential reading Hikaru Yamashita firstly looks at the case of northern Iraq after the first Iraqi war where safe areas represented a major departure from the conventional notion The different understandings of the Srebrenica safe areas especially with regard to the role of security are also assessed to ascertain how they eventually destroyed this humanitarian space A much needed account of the extent to which humanitarian space intended as shelter in response to Rwandan genocide consequently destabilized the area and provided cover for the genocideurs is additionally provided This well researched book through the prism of safe areas allows a measured assessment to be made of the place of human rights and humanitarianism in the contemporary world *The Foundations of Wittgenstein's Late Philosophy* Ernst Konrad Specht, 1969 **An Inquiry Concerning Virtue, Or Merit** Anthony Ashley Cooper Earl of Shaftesbury, David Walford, 1977 **Twelve Great Philosophers** Wayne P. Pomerleau, 1997 A collection on the historical introduction to human nature **Kantian Ethics Almost without Apology** Marcia W. Baron, 2018-10-18 A reappraisal on the emphasis on duty in Immanuel Kant s ethics is long overdue Marcia W Baron evaluates and for the most part defends Kantian ethics against two frequent criticisms that duty plays too large a role leaving no room for the supererogatory and that Kant places too much value on acting from duty The author first argues that Kant s distinction between perfect and imperfect duties provides a plausible and intriguing alternative to contemporary approaches to charity self sacrifice heroism and saintliness She probes the differences between the supererogationist and the Kantian exploring the motivation between the former s position and bringing to light sharply divided views on the nature of moral constraint and excellence Baron then confronts problems associated with Kant s account of moral motivation she argues that the value that Kant attaches to acting from duty attaches primarily to governing ones conduct by a commitment to doing what morality asks Thus understood Kant s ethics steers clear of the most serious criticism Of special interest is her discussion of overdetermination Clearly written and cogently argued *Kantian Ethics Almost without Apology* takes on the most philosophically intriguing challenges to Kantian ethics and subjects them to a rigorous yet sympathetic assessment Readers will find here original contributions to the debate

Wheeler,2008 *The Philosophy Of Right And Left* J. van Cleve,R.E Frederick,2012-12-06 Incongruent counterparts are objects that are perfectly similar except for being mirror images of each other such as left and right human hands Immanuel Kant was the first great thinker to point out the philosophical significance of such objects He called them counter parts because they are similar in nearly every way incongruent because despite their similarity one could never be put in the place of the other Three important discussions of incongruent counterparts occur in Kant s writings The first is an article published in 1768 On the First Ground of the Distinction of Regions in Space in which Kant con tended that incongruent counterparts furnish a refutation of Leibniz s relational theory of space and a proof of Newton s rival theory of absolute space The second is a section of his Inaugural Dissertation published two years later in 1770 in which he cited incongruent counterparts as showing that our knowledge of space must rest on intuitions The third is a section of the Prolegomena to Any Future Metaphysics of 1783 in which he cited incongruent counterparts as a paradox resolvable only by his own theory of space as mind dependent A fourth mention in the Metaphysical Foundations of Natural Science of 1786 briefly repeats the Prolegomena point Curiously there is no mention of incongruent counterparts in either of the editions 1781 and 1787 of Kant s magnum opus the Critique of Pure Reason *Kant's Theory of Mind* Karl Ameriks,2000 This text presents a survey and evaluation of Kant s theory of mind It focuses on Kant s discussion of the Paralogisms in the Critique of Pure Reason and examines how the themes raised there are treated in the rest of Kant s writings Reading Religion in Text and Context Peter Collins,2017-05-15 To what extent is religion inherently textual What might the term textual mean in relation to religious faith and practice These are the two key questions addressed by the eleven thought provoking essays collected in this volume Accounts of the content and structure of sacred texts are commonplace The rather more adventurous aim of this book is to disclose within the context of religion the various ways in which meaning can be read of more or less obviously sacred writing and from discourses such as the body the built and natural environment drama and ritual *The Location of Religion* Kim Knott,2015-08-12 The ways in which humans interact with their location is an important topic within

sociological studies of religion It is integral to the place of religion in secular society The Location of Religion A Spatial Analysis offers an overview of the ways in which religion can be located within social cultural and physical space It examines contemporary spatial theory notably the work of the influential sociologist Henri Lefebvre and the many disciplines that have contributed to the spatial study of religion This volume will be invaluable to all those interested in the role of religion in spatial analysis

The Political Subject of Violence David Campbell, Michael Dillon, 1993 These essays examine various aspects of the violence of the relationship between modern reason and modern political violence drawing upon Nietzschean and Heideggerian themes and the work of contemporary thinkers such as Foucault Derrida and Levinas Sources,

Processes and Methods in Coleridge's 'Biographia Literaria' Kathleen M. Wheeler, 1980-11-27 This is Dr Wheeler's analysis of the Biographia Literaria one of the central prose texts of the Romantic period

Kant as Philosophical Theologian Bernard M.G. Reardon, 1988-07-26 This book sets out to present Kant as a theological thinker His critical philosophy was not only destructive of natural theology with its attempt to prove divine existence by logical argument it also left no room for revelation in the traditional sense Yet Kant himself who was brought up in Lutheran pietism certainly believed in God and could fairly be described as a religious man But he held that religion can be based only on the moral consciousness and in his last major work Religion within the Limits of Reason Alone discussed here in detail he interpreted Christianity purely in terms of moral symbolism It would be no exaggeration to claim that Kant's influence has been decisive for modern theology

Classical Influences on Western Thought A.D. 1650-1870 R. R. Bolgar, 2010-06-10 This volume examines the progress of classical studies to the general history of ideas from 1650 to 1870 The Fate of Place Edward Casey, 2013-05-13 In this imaginative and comprehensive study Edward Casey one of the most incisive interpreters of the Continental philosophical tradition offers a philosophical history of the evolving conceptualizations of place and space in Western thought Not merely a presentation of the ideas of other philosophers The Fate of Place is acutely sensitive to silences absences and missed opportunities in the complex history of philosophical approaches to space and place A central theme is the increasing neglect of place in favor of space from the seventh century A.D. onward amounting to the virtual exclusion of place by the end of the eighteenth century Casey begins with mythological and religious creation stories and the theories of Plato and Aristotle and then explores the heritage of Neoplatonic medieval and Renaissance speculations about space He presents an impressive history of the birth of modern spatial conceptions in the writings of Newton Descartes Leibniz and Kant and delineates the evolution of twentieth century phenomenological approaches in the work of Husserl Merleau Ponty Bachelard and Heidegger In the book's final section Casey explores the postmodern theories of Foucault Derrida Tschumi Deleuze and Guattari and Irigaray
