Scriptural Vitality Hindy Najman, 2024-12-18 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations Scriptural Vitality challenges the view that the Persian and Hellenistic periods constitute a time of decay a period of late Judaism languishing between an original vibrant Judaism and the birth of Christianity Instead Hindy Najman argues that the Second Temple period was one of untethered creativity and poetic imagination of dynamism exemplified through philosophical translation poetic composition and a convergence of ancient Mediterranean cultures that gave birth to hermeneutic innovation Building on Nietzsche's critique of classical philology and drawing on new ways of reading the Dead Sea Scrolls the author carries out a radical rethinking of biblical studies Instead of seeking to reconstruct the original text and to find its original author or at least the original context of its production Najman celebrates textual pluriformity and transformation tracing ways in which texts and meanings proliferated within interpretive communities through new performances and fresh articulations of the past Engaging with thinkers such as Friedrich Schlegel and Peter Szondi whom biblicalists have rarely considered biblical philology is reimagined as the forward moving study of the poetic processes by which Jewish communities re-created their past and revitalized their present The Second Temple period emerges as a golden age of creativity whose traces may still be discerned in Judaism and Christianity today

Europe during the eighteenth century S D Chrostowska juxtaposes the discourse s written forms in three linguistic cultural regions Germany Poland and Russia to show how fluid the relationship once was between the genres of criticism and those of literature An alternative history of literary criticism Literature on Trial marks a shift from earlier studies focus on aesthetic principles to an emphasis on the development of literary critical forms Chrostowska relates cultural and institutional changes in these areas to the formation of literary critical knowledge She accounts for the ways in which critical discourse organized itself formally and deemed some genres proper while eliminating others Analysing works by Lessing Goethe and Karamzin among others Literature on Trial brings a fresh theoretical perspective to the links between genre as a discursive strategy and socio political life

Debating World Literature Christopher Prendergast,2020-05-05 In the continuing debates about the cultural dimensions of globalization the question of literature has been something of a poor relation This volume seeks to redress the balance It takes as its starting point Goethe s idea of Weltliteratur from which it then travels out to various parts of the globe at different historical junctures Among its many concerns are the legacies of Goethe s idea variable understandings of the term literature itself cross cultural encounters the nature of small literatures and the cultural politics of literary genres With contributions from many of the leading voices in the field Debating World Literature seeks to transcend the pieties and simplifications of polemic in a search for the complexity embodied in the linking of the two terms world and literature

Terms of Response Robert Montgomery,1991-09-15 This book takes a new look at the place occupied by medieval Spanish epic within European folk and literary tradition Thomas Montgomery traces the origins of key parts of most known medieval Spanish epics to an ancient myth He shows how the myth of the initiation of the young warrior shown by Georges Dumzil to be fundamental to the belief systems of widely distributed Indo European peoples was variously adapted to shape the action of texts including the Siete Infantes de Lara the Mocedades de Rodrigo and the Poema de Mio Cid in which it accounts for the peculiar behavior of the Infantes de Carri n Montgomery also connects the same mythic tradition to works as diverse as Tristan and the Chanson de Roland In a preliterate society the oral presentation of this archetypal lore required a special language capable of re creating the ritualized behavior of the epic characters and maintaining the ceremonial tone of the performance Focusing on the Poema de Mio Cid Montgomery examines the ways in which the poetic language worked to evoke a feeling of group unity that absorbed the audience and still works its spell upon today s readers

Contesting Languages Ekaputra Tupamahu,2022-11-04 How did the Apostle Paul navigate the language differences in Corinth In this book Ekaputra Tupamahu investigates Corinthian tongue speech as a site of political struggle Tupamahu demonstrates that conceptualizing speaking in tongues as ecstatic unintelligible expressions is an interpretive invention of German romantic nationalist scholarship Instead drawing on Mikhail Bakhtin s theories of language Tupamahu finds two forces of language at work in the New Testament a centripetalizing force of monolingualism which attempts to force heterogeneous languages into a singular linguistic form and a countervailing centrifugal force that diverse languages

Rhetoric, Poetics, and Literary Historiography Stefan H. Uhlig, 2024-01-23 In *Rhetoric Poetics and Literary Historiography* Stefan H Uhlig offers a new account of the emergence of literary studies Most histories of the early years of the field search for unifying origins of literature as a discipline and object of study Uhlig turns to the decades around 1800 in Europe to reveal that the inception of the literary field was instead defined by intellectual diversity and contestation He draws on an array of European writers to show how three schools of literary study rhetoric teaching theories of poetry and literary history emerged and clashed during this time offering near contemporaneous yet divergent visions of how to understand literature Rhetoric and poetics thwarted criticism to different ends while literary historiography proved institutionally reassuring yet less useful as a tool for textual understanding Uhlig details how Scottish writers like Adam Smith and Hugh Blair taught rhetoric as a form self expression while Anglophone and German theorists of poetry like William Wordsworth Friedrich Schlegel and Johann Wolfgang von Goethe both engaged with and resented critics At the same time varying opinions on the practice of literary history emerged with Immanuel Kant and Thomas De Quincey arguing for the independence of literature from historical forces while writers like Matthew Arnold approached literature as a means of narrating cultural archives instead of drawing on close reading and analysis *Rhetoric Poetics and Literary Historiography* traces current debates in literary studies back to this formative moment serving as a guide to past and present controversies in the field

The Anxiety of Autonomy and the Aesthetics of German Orientalism Nicholas A. Germana, 2017 A history of Kantian and post Kantian thought and of a foundational stage of German orientalism German orientalism has been understood variously as a form of latent colonialism as a quest for academic hegemony in Europe and as an effort to diagnose and treat the ills of modern Western culture Nicholas Germana identifies a different impetus for orientalism in German thought seeing it as an effort to come to grips with the Other within German society at the turn of the nineteenth century and within the dynamics of subjectivity itself Drawing largely on work by

feminist scholars the book uncovers an anxiety at the core of Kantian and post Kantian thought thus shedding light on its derogation or elevation of Oriental cultures Kant's philosophy of freedom is a construction of modern Western masculinity Reason which alone can make freedom possible subverts and orders chaotic nature and protects the rational subject from the enervating influences of the senses and the imagination The feminized sexually charged Orient is a threat to the historical achievement of Western male rationality Germana's book emphasizes aesthetics in the German orientalist discourse a subject that has received little attention to date In this tradition of German thought aesthetics became a form of spiritual anthropology ordering and classifying societies races and genders in terms of their ability to master the senses and the imagination forces that undermine rational autonomy the very source of human i.e. masculine dignity Nicholas A. Germana is Professor of History at Keene State College New Hampshire

Herder John K. Noyes, 2015-11-26 Among his generation of intellectuals the eighteenth century German philosopher Johann Gottfried Herder is recognized both for his innovative philosophy of language and history and for his passionate criticism of racism colonialism and imperialism A student of Immanuel Kant Herder challenged the idea that anyone even the philosophers of the Enlightenment could have a monopoly on truth In Herder's Aesthetics against Imperialism John K. Noyes plumbs the connections between Herder's anti imperialism often acknowledged but rarely explored in depth and his epistemological investigations Noyes argues that Herder's anti rationalist epistemology his rejection of universal conceptions of truth knowledge and justice constitutes the first attempt to establish not just a moral but an epistemological foundation for anti imperialism Engaging with the work of postcolonial theorists such as Dipesh Chakrabarty and Gayatri Spivak this book is a valuable reassessment of Enlightenment anti imperialism that demonstrates Herder's continuing relevance to postcolonial studies today
