

The background of the entire page is an abstract, textured composition. It features a mix of vibrant blue and white, with the blue appearing in various shades from light sky blue to deep navy. The texture is reminiscent of a close-up of a rough surface, like stone or coral, or perhaps a microscopic view of a material. The overall effect is dynamic and visually rich, with the colors blending and contrasting in a non-representational way.

Disarming Intelligence Zakir Paul, 2024-08-13 A critical account of the idea of intelligence in modern French literature and thought In the late nineteenth century psychologists and philosophers became intensely interested in the possibility of quantifying measuring and evaluating intelligence and using it to separate and compare individuals *Disarming Intelligence* analyzes how this polyvalent term was consolidated and contested in competing discourses from fin de si cle psychology and philosophy to literature criticism and cultural polemics around the First World War Zakir Paul examines how Marcel Proust Henri Bergson Paul Val ry and the critics of the influential *Nouvelle revue fran aise* registered negotiated and subtly countered the ways intelligence was invoked across the political and aesthetic spectrum For these writers intelligence fluctuates between an individual sovereign faculty for analyzing the world and something collective accidental and contingent *Disarming Intelligence* shows how literary and critical styles questioned suspended and

reimagined what intelligence could be by bringing elements of uncertainty and potentiality into its horizon The book also explores interwar political tensions from the extreme right to Walter Benjamin's engaged essays on contemporary French writers Finally a brief coda recasts current debates about artificial intelligence by comparing them to these earlier crises of intelligence By drawing together and untangling competing conceptions of intelligence *Disarming Intelligence* exposes its mercurial but influential and urgent role in literary and cultural politics

Working with Walter Benjamin: Recovering a Political Philosophy Andrew Benjamin, 2013-11-18 This book provides a highly original approach to the writings of the twentieth century German philosopher Walter Benjamin by one of his most distinguished readers It develops the idea of working with Benjamin seeking both to read his corpus and to put it to work to show how a reading of Benjamin can open up issues that may not themselves be immediately at stake in his texts The defining elements in Benjamin's writings that Andrew Benjamin isolates history experience translation technical reproducibility and politics are put to work that is their utility is established in engaging the works of others The question is how utility is understood As Andrew Benjamin argues utility involves demonstrating the different ways in which Benjamin is a central thinker within the project of understanding the nature of modernity This is best achieved by noting connections and points of differentiation between his work and the writings of Adorno and Heidegger However the more demanding project is that working with Benjamin necessitates deploying the implicit assumptions within his writings as well as demanding of his formulations more than is provided by their initial presentation What is at stake is not the application of Benjamin's thought Rather what counts is its use *Working with Benjamin* engages with the themes central to Benjamin's work with deftness daring and critical insight while at the same time situating those themes within current academic and cultural debates
