Six different areas have been distinguished which correspond to Parts A to F of the book. These areas range from general ideas and motivation to detailed syntactical investigations. *Selected Papers from the Asia Conference on Economics & Business Research 2015* Stanley Soh, 2016-07-01 The book is a compilation of selected papers presented at the Asia Conference on Economics Business Research in 2015. Maritime law in the second half of the 20th century. Selected articles Jan Łopuski, 2008 The book contains a selection of articles written in the years 1962-2004 and published in English or French languages. They provide information and present views of the author on matters relating to the development and transformations which occurred in maritime law in the second half of the 20th century. Articles on Polish maritime law are presented separately from more numerous articles on international and transnational maritime law. The articles compiled in this book illustrate the process of important changes and developments occurred in maritime law in the said period. They indicate how problems created by the progress in the organisation of maritime trade, technical innovations and political changes on the map of the world were identified, considered and sometimes solved. In the latter case the relevant article may have only a historical significance.
