Selected Papers of Walter Isard (2 volume set) Christine Smith, 1990-12-01 0 Selected Papers of Walter Isard (2 volume set) Christine Smith, 1990-12-01 Selected Papers of Walter Isard: Location analysis and general theory Walter Isard, 1990 *Selected Papers of Walter Isard: Practical methods of regional science and empirical applications* Walter Isard, 1990 *Practical Methods of Regional Science and Empirical Applications* Walter Isard, 1990 **Economic Thought Since Keynes** Michel Beaud, Gilles Dostaler, 2005-09-27 Economic Thought Since Keynes provides a concise overview of changing economic thought in the latter part of the twentieth century Offering a concise biography of 150 influential economists since Keynes it is an invaluable reference tool **Regional Trading Blocs in the World Economic System** Jeffrey A. Frankel, Ernesto Stein, Shang-Jin Wei, 1997 Covers trends from 1957 to 1995 Introduction to Intercultural Economics Rongxing Guo, 2012-04-23 This book presents a methodological framework for the analysis of intercultural issues frequently misinterpreted by existing theories It uses a challenge and response theory of cultural development to examine the relationship between different natural disasters and threats and the developments of ancient civilizations The spatial interaction of ancient civilizations is assessed and four non linear patterns of intercultural dynamics are presented Our empirical analyses of the four major ancient civilizations the Mesopotamian the Egyptian the Indus and the Chinese focus on intercultural influences as well as how they have shaped the spatial dynamics of the world as a whole This book also examines various aspects of intercultural economic influences such as those of culture on international trade Evidence from a broad panel of nations supports the presumption that high income trade partners will be less sensitive to the measures of cultural dissimilarity than low income trade partners between which cultural dissimilarity leads to barriers to international trade The treatment of linguistic and religious factors as continuous variables in this book has improved past studies in which language was treated as one or more dummy variables and religion was ignored **Infrastructure and the Space-Economy** Karin Peschel, 2012-12-06 This Festschrift is dedicated to ROLF FUNCK on occasion of his 60th birthday on February 7 1990 It was a wholehearted desire of the authors who all are obliged to ROLF FUNCK in their research work to please and to honour him and to express their deep gratitude I gladly took the initiative of preparing this Festschrift since I have been closely associated with ROLF FUNCK for many years of his academic life We first met in 1958 when he was Assistant Professor Wissenschaftlicher Assistent and I was student at the University of Munster A few years later when ROLF FUNCK still very young moved to the University of Karlsruhe as Professor of Economics and Director of the Institute of Economic Policy and Research he offered me the opportunity of working with him and this started a long period of successful scientific collaboration Nowadays we meet only occasionally at conferences in committees etc but I always recall with pleasure the warm hearted and stimulating atmosphere he created at his Institute in Karlsruhe I express my thanks to the authors and to the publisher the Springer Verlag for their cooperation as well as to the sponsors who provided the necessary

funds for the publication of this Festschrift For her enthusiasm in compiling and processing the articles on the PC and producing the final draft I am indebted to Mrs Ilona Lohr

Open Economics Richard Arena,Sheila Dow,Matthias Klaes,2009-06-02 This book offers an up to date assessment of economics in relation to other disciplines combining the work of leading international scholars and rising young stars and presenting an historical introduction to the disciplinary context of economics

The World Economy ,1991 Covers trade policy and other open economy issues embracing international trade and the environment international finance and trade and development It also considers related areas such as economies in transition and development economics

The Economic Thought of William Petty Hugh Goodacre,2018-05-11 William Petty 1623 1687 long recognised as a founding father of English political economy was actively involved in the military colonial administration of Ireland following its invasion by Oliver Cromwell and to the end of his days continued to devise schemes for securing England s continued domination of that country It was in that context that he elaborated his economic ideas which consequently reflect the world of military bureaucratic officialdom neo feudalism and colonialism he served This book shows that much of the theory and methodology in use within the economics discipline of today has its roots in the writings of Petty and his contemporaries rather than in the supposedly universalistic and enlightened ideals of Adam Smith a century later Many of the fundamental ideas of today s development economics for example are shown to have been deployed by Petty explicitly for the purpose of furthering England s colonialist objectives while his pioneering writings on fiscal issues and national accounting theory were equally explicitly directed towards the raising of funds for England s predatory colonial and commercial wars This book argues that exploring the historical roots of economic ideas and methods in this way is an essential aspect of assessing their appropriateness and analytical power today and that this is more relevant than ever It will be of interest to advanced students and researchers in the history of economic

thought early modern economic history development economics and economic geography Selected Reading in Quantitative Urban Analysis Samuel J. Bernstein, W. Giles Mellon, 2013-10-22 Selected Readings in Quantitative Urban Analysis focuses on the use of quantitative approaches in analyzing urban problems The areas discussed are overall urban models urban models dealing with the basic economic factors of urban life workers and jobs housing and transportation urban models dealing with the provision of basic services education health care fire police water and sanitation urban models dealing with the provision of the luxuries of urban life theater ballet symphony urban models dealing with how the decisions to provide these factors are made policy formulation and the resolution of conflicting priorities This book is comprised of 11 chapters and begins with an outline of the major areas of urban life analyzed in a quantitative manner Urban modeling is then introduced and problems and pitfalls in urban model building are considered The next section looks at the economic base of urban life with emphasis on labor markets and labor force urban housing markets and housing policy and policy and policy models in transportation Subsequent chapters explore essential urban services including public education community health services fire protection sanitation and emergency medical services The remaining sections discuss the amenities of urban life and urban politics and policy This monograph should be useful to urban administrators and planners as well as students interested in urban problems **Fifty Years of Regional Science** Raymond Florax, David A. Plane, 2013-04-17 This book contains the complete text of the special Golden Anniversary issue of the flagship journal of the Regional Science Association International RSAI Papers in Regional Science Volume 83 Number 1 as well as the full text of Walter Isard's Presidential Address The future near and far of regional science Professor Isard originally delivered the speech in a special plenary session of the fiftieth North American Meetings of the Regional Science Association International The session began with a ceremonial kickoff to the year long celebration of the multidisciplinary field's first 50 years At the ceremony held on the morning of Friday November 21 2004 at the DoubleTree Hotel in Philadelphia we presented Walter Isard the founder of our multidisciplinary field as well as Antoine Bailly the President of the Regional Science Association International and David Boyce the Association's Archivist with commemorative first copies of the anniversary issue This book entitled Fifty Years of Regional Science consists of a compendium of thought papers authored by a representative sampling of some of the field's leading scholars For the special journal issue we originally titled the collection The Brightest of Dawns *Intercultural Economic Analysis* Rongxing Guo, 2009-08-29 Since the end of the Cold War the study of intercultural relations has become one of the most popular topics in the field of global politics and economics This book presents a methodological framework for the analysis of intercultural issues frequently misinterpreted by existing theories The book uses a challenge and response theory of cultural development to examine the relationship between different natural disasters and threats and the developments of ancient civilizations The spatial interaction of ancient civilizations is assessed and some theoretical patterns of intercultural influences are presented with a focus on the Chinese Egyptian Indus and Mesopotamian civilizations Using

the development of China as a case study and on the basis of a simplified spatial model the optimal spatial structure and size of culture areas are mathematically solved and the political economy implications to the interactions between cultures differing in size are illustrated The book also examines various aspects of intercultural economic influences such as those of culture on international trade The empirical results suggest that high income trade partners are less sensitive than low income trade partners to the measures of cultural dissimilarity which block international trade The existing literature relating to the determinants of economic growth treats explanatory variables such as income inequality and cultural diversity separately This book investigates whether there are any conditions under which income inequality and cultural diversity could encourage economic growth and provides evidence from a broad panel of nations which reveals that economic growth is quite independent from the variables of inequality and cultural linguistic and religious diversity Finally this book provides suggestions for how cultural influences can benefit developing economies both large and small Selected Readings on Atomic Energy U.S. Atomic Energy Commission, 1958
