Schellenberg, 1971 **Selected Readings** in Social Psychology Steuart Henderson Britt, 1950 **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office.1974 The Idea of Social Structure Lewis A. Coser, 2017-07-12 Written and compiled by friends and former students The Idea of Social Structure honors Robert K Merton considered one of the premier sociologists of the twentieth century Along with Talcott Parsons and Marion J Levy Merton was emphatic in his use of the term social structure however different they were in defining and refining the term The chapters in this volume address many of Merton's diverse sociological theories and in turn his theories impact upon a very large sociological territory. The volume includes major statements on the context of working with Merton by Lewis A Coser Paul F Lazarsfeld Robert A Nisbet and Seymour Martin Lipset as well as memorable statements covering Merton's interests in the sociology of knowledge and science planning communities medical education relative deprivation everyday life political roles and communication media This is a powerful sourcebook for understanding the work of Merton and of his intellectual successors Nisbet called the decade of the 1930s among the most vital and creative periods in American history It was certainly a period of intense struggle political military and ideological But the formation of modern sociology was without question one of the crowning achievements in the scientific evolution of the century The volume is sharply focused on Merton's work and deeply appreciative of the nature of his contribution It is a landmark effort in the study of sociology as history **Instructor's Resource Manual and Examination Items for a Course in Social Psychology** Bertram Herbert Raven, 1976 **American Book Publishing Record** R.R. Bowker Company, 1978 Paperbound Books in Print ,1982 **Resources in Education** .2000 Research Midwestern Landscape Architecture William H. Tishler, 2000 This richly illustrated collection in Education ,1969 profiles the bold innovators in landscape architecture who around the turn of the twentieth century ventured into the nation s heartland to develop a new style of design celebrating the native midwestern landscape The pioneers of landscape architecture in the Midwest are responsible for creating some of the most recognizable parks cemeteries recreation areas and other public gathering places in the region Midwestern Landscape Architecture includes essays on Adolph Strauch who introduced a new concept of visually integrated landscape treatment in Cincinnati s Spring Grove Cemetery William Le Baron Jenney designer of Chicago s diverse West Parks and Jens Jensen who created the American Garden in Union Park in Chicago a celebration of native flora and founder of The Clearing a unique school of the arts and humanities in Wisconsin Other major figures include Frederick Law Olmsted Sr co designer of New York s Central Park whose work in the Midwest included the layout of the 1893 World's Columbian Exposition and Ossian Cole Simonds who helped reconcile the formal approach of the City Beautiful movement with the naturalism of the Prairie School in urban park design This volume also details the

contributions of crusaders for ecological awareness and an appreciation of the region s natural heritage These include horticultural writer Wilhelm Miller who spread the ideals of the Prairie style and Genevieve Gillette a landscape architect and conservationist whose preservation efforts led to the establishment of numerous Michigan state parks and wilderness areas Midwestern Landscape Architecturefosters a better understanding of how landscape design took shape in the Midwest and how the land itself inspired new solutions to enhance its understated beauty Despite Olmsted's assessment of the Illinois prairie as one of the most tiresome landscapes that I ever met with the Midwest has amassed an important legacy of landscape design that continues to influence how people interact with their environment in the heartland Library of Congress, 1970 The Publishers' Trade List Annual, 1978 Murder Town, USA Yasser Arafat Payne, Brooklynn K. Hitchens, Darryl L. Chambers, 2023-07-14 Far too many poor Black communities struggle with gun violence and homicide The result has been the unnatural contortion of Black families and the intergenerational perpetuation of social chaos and untimely death Young people are repeatedly ripped away from life by violence while many men are locked away in prisons In neighborhoods like those of Wilmington Delaware residents routinely face the pressures of violence death and incarceration Murder Town USA is thus a timely ethnography with an innovative structure the authors helped organize fifteen residents formerly involved with the streets and or the criminal justice system to document the relationship between structural opportunity and experiences with violence in Wilmington's Eastside and Southbridge neighborhoods Earlier scholars offered rich cultural analysis of violence in low income Black communities and yet this literature has mostly conceptualized violence through frameworks of personal responsibility or individual accountability And even if acknowledging the pressure of structural inequality most earlier researchers describe violence as the ultimate result of some moral failing a propensity for crime and the notion of helplessness Instead in Murder Town USA Payne Hitchens and Chamber along with their collaborative team of street ethnographers instead offer a radical re conceptualization of violence in low income Black communities by describing the penchant for violence and involvement in crime overall to be a logical resilient response to the perverse context of structural inequality Library of Congress Catalogs Library of Congress,1976 Social Interaction Thomas M.
