**Selections from Political Writings**

**(1910-1920) with Additional Texts by Bordiga Nad Tasca** Antonio Gramsci, 1977

The Dialectic of Position and

Maneuver Daniel Egan, 2016-09-27 In The Dialectic of Position and Maneuver Daniel Egan examines the role that the military metaphors of war of position and war of maneuver play in Antonio Gramsci's social theory. The foundation for this analysis is the different ways in which Marxists have understood war and military strategy since the mid nineteenth century. In doing so Egan argues that the distinction between war of position and war of maneuver which is so central to Gramsci's work as well as contemporary interpretations of his work must be understood in a more dialectical manner. This conclusion is important not only in terms of Gramsci's social theory but also for understanding the limits and possibilities of contemporary political strategies for the left worldwide.

Antonio Gramsci Mark McNally, 2015-08-11 The thought of Antonio Gramsci continues to enjoy widespread appeal in contemporary political and social theory. This book draws together some of the world's leading scholars on Gramsci to critically explore key ideas, debates and themes in his work in an accessible manner relating them to contemporary politics and society.

**Hegemony and Education Under Neoliberalism** Peter Mayo, 2015-03-12 Based in a holistic exposition and appraisal of Gramsci's writings that are of relevance to education in neoliberal times, this book rather than simply applying Gramsci's theories to issues in education argues that education constitutes the leitmotif of his entire oeuvre and lies at the heart of his conceptualization of the ancient Greek term hegemony that was used by other political theorists before him. Starting from this understanding, the book goes on to compare Gramsci's theories with those of later thinkers in the development of a critical pedagogy that can confront neoliberalism in all its forms.

Images of Gramsci Andreas Bieler, Adam Morton, 2014-06-03 A comprehensive reassessment of the relevance of Gramsci's theory and practice at the beginning of the twenty first century. Whilst commentaries on Antonio Gramsci and arguments surrounding his political and intellectual legacy have proliferated, little attention has been hitherto directed to linking the connections and contentions between Political Theory and International Political Economy. This volume brings together leading authorities engaged in common debates to produce for the first time a major collection that clarifies addresses and lays bare the manifest connections and contentions within political and international theory surrounding the legacy of Antonio Gramsci. In Part I scholars examine various approaches to Gramsci's thought including his methodological principles, the specific conception of civil society, he offers his writings on war and cultural struggle, the spatial dimension of his thinking and his philosophy of history. Part II focuses on very new developments in Gramsci scholarship concerning the questioning of contemporary world order. This includes reflections on his relevancy to issues of globalising capitalism, transformations in the state, revolutionary praxis, orientalism and empire as well as European regionalism. This book was previously published as a special issue of the

leading Critical Review of International Social and Political Philosophy CRISPP *Political Approaches to Educational Administration and Leadership* Eugenie A. Samier, with Adam G. Stanley, 2008-03-01 This collection explores the political philosophy and theory foundations for educational administration and leadership as they influence our understanding analysis and practice in the field The first section Political Philosophy The Foundations discusses the work of such writers as Machiavelli Kant and Hegel Hayek Habermas and Bourdieu as their theories apply to the educational context The second section Political Analysis The Critique examines various types of political analyses such as the politics of the policy process minority politics civil society micro politics community politics and cosmopolitan theory The last section Current Political Controversies The Practice addresses current topical issues of a political nature including the serving of the state economic agenda the democratisation of educational organisations the neo conservative agenda and globalisation The broad international perspective from which these topics are covered makes this volume an excellent addition to the fields of educational leadership organizational studies and educational administration theory **Basic Income, Disability**

**Pensions and the Australian Political Economy** Jennifer Mays, 2019-12-03 Global developments in basic income have reinvigorated political debates on the necessity of progressing to universal basic income implementation Basic income is a powerful strategy for addressing poverty gaps and growing inequality This book provides new insights and strategies from an Australian political economy perspective to respond to implementation challenges and distributive justice The book positions the disability dimension and disability pensions in relation to basic income to explore strategies for strengthening universal provisions It illustrates the need for socially just conditions and adequate financing to underpin redistribution as a way of safeguarding the sustainability of basic income Gramsci and Educational Thought Peter Mayo, 2010-03-19 Through a series of writings from international scholars Gramsci and Educational Thought pays tribute to the educational influence of Antonio Gramsci considered one of the greatest social thinkers and political theorists of the 20th century Represents sound social theory and a broad application and reinvention of Gramsci's ideas Covers important areas such as language and education community education and social work education Features perspectives from different geographical contexts

Gramsci and the History of Dialectical Thought Maurice A. Finocchiaro, 2002-04-18 A critical reappraisal of Gramsci as a thinker and of the dialectical approach as a mode of inquiry Beyond the Regulation Approach Bob Jessop, Ngai-Ling Sum, 2006 Every now and then a book comes along that you positively want to be asked to read and review and this is one of them a major work of scholarship in its own right while at the same time a ground clearing exercise for what is to follow This it should be emphasized is a hugely impressive body of work an expansive statement of Jessop's contribution as a major figure within the world of regulation approaches Ray Hudson Economic Geography This book presents a detailed and critical account of the regulation approach in institutional and evolutionary economics Offering both a theoretical commentary and a range of empirical examples it identifies the successes and failures of the regulation approach as an explanatory theory and

proposes new guidelines for its further development Although closely identified with heterodox French economists there are several schools of regulation theory and the approach has also been linked to many topics across the social sciences Bob Jessop and Ngai Ling Sum provide detailed criticisms of the various schools of the regulation approach and their empirical application and have developed new ways of integrating it into a more general critical exploration of contemporary capitalism The authors go on to describe how the regulation approach can be further developed as a progressive research paradigm in political economy Also presented is a detailed philosophical as well as theoretical critique of the regulation approach and its implications for the philosophy of social sciences and questions of historical analysis especially periodization Addressing the implications of the regulation approach for both the capitalist economy and the changing role of the state and governance this book will be of great interest to a wide ranging audience including institutional and evolutionary economists economic and political sociologists and social and political theorists      *NextGen Marxism* Mike Gonzalez, Katherine Cornell

Gorka, 2025-09-16 Many Americans believe that the United States is in decline They see a country that has become unrecognizable where individuals are reduced to their race ethnicity or sexual identity where children are indoctrinated into radical ideologies where anti semitism has become widespread This book explains how all of these ills are rooted in Marxism To be sure it is not Soviet Marxism but a Marxism that was shaped by European intellectuals adapted and refined by America's student radicals of the 1960s and diffused throughout the culture as those student radicals became professors community organizers and leaders The end goal of these NextGen Marxists is expropriation redistribution central planning and collectivism They are working toward nothing less than the cultural transformation of the United States and they have partially succeeded But *NextGen Marxism What It Is and How to Combat It* is infused with optimism It reveals the dark inner workings of the radical left's destructive agenda in the United States in order to teach Americans how to fight back The authors share their conviction that the best days for the United States are still ahead of us if every day Americans can work together to restore sanity and make America the great beacon of freedom once again      *Educational Leadership and*

*Antonio Gramsci* Howard Stevenson, 2023-11-17 This insightful book explores the life and ideas of Italian Marxist theoretician Antonio Gramsci and argues his work has considerable contemporary relevance when re considering educational leadership in today's age of crises Gramsci's theory of hegemony has provided an invaluable intellectual resource for those seeking to bring about radical change in the complex context of contemporary capitalist societies In particular his focus on the role of organic intellectuals engaging in an ongoing ideological struggle across economic political and civil society helps to locate his notion of hegemony as a theory of leadership that is deeply rooted in pedagogical processes This volume focuses on transformatory change both in and through education reframing traditional notions of educational leadership as educative leadership in which leadership for change within and beyond educational institutions is understood in pedagogical terms This volume will be of pivotal interest to academics researchers and postgraduates in the fields of educational leadership the

sociology of education and education policy and politics Practitioners interested in educational leadership and social theory and those active in social movements may also find the book of use **From Radical Marxism to Knowledge Socialism** Michael A. Peters, Liz Jackson, 2021-12-22 This volume examines the place of Marxist theory in the history of the journal Educational Philosophy and Theory primarily through the selection and exploration of typical and significant articles exploring Marxist related themes in the journal over time The title From Radical Marxism to Knowledge Socialism reflects this historical approach In the 1960s and 1970s Marxism was considered to be a radical extreme political theory while western liberalism and a free market economy were largely taken for granted as natural phenomena in western philosophy of education and in the journal More recently educational theorists have begun to explore trends related to the neoliberal age Paradoxically such trends include the move toward knowledge socialism which decenters the normative presuppositions of knowledge capitalism as the latest iteration of western liberalism The volume begins with an introductory chapter that examines the history of Marxism in western philosophy and philosophy of education The rest of the book features works selected from the journal that further illustrate the evolution of Marxist theoretical perspectives in the field over time This collection thus gives a sense of the range and extent of Marxist inspired thinking in educational philosophy and theory This book will be of interest to students and scholars of educational philosophy and theory and others who are interested in exploring in depth the evolution of key themes in this field over time including liberalism ideology Marxism neoliberalism knowledge construction capitalist and socialist schooling and other aspects of economic analysis in education

**Rethinking Gramsci** Marcus Green, 2011-03-30 This edited volume provides a coherent and comprehensive assessment of Antonio Gramsci's significant contribution to the fields of political and cultural theory It contains seminal contributions from a broad range of important political and cultural theorists from around the world and explains the origins development and context for Gramsci's thought as well as analysing his continued relevance and influence to contemporary debates It demonstrates the multidisciplinary nature of Gramscian thought to produce new insights into the intersection of economic political cultural and social processes and to create a vital resource for readers across the disciplines of political theory cultural studies political economy philosophy and subaltern studies **The Red Flag** David Priestland, 2016-05-03 The best and the most accessible one volume history of communism now available A far reaching vividly written account Foreign Affairs In The Red Flag Oxford professor David Priestland tells the epic story of a movement that has taken root in dozens of countries across two hundred years from its birth after the French Revolution to its ideological maturity in nineteenth century Germany to its rise to dominance and subsequent fall in the twentieth century Beginning with the first modern Communists in the age of Robespierre Priestland examines the motives of thinkers and leaders including Marx Engels Lenin Stalin Castro Che Guevara Mao Ho Chi Minh Gorbachev and many others Priestland also shows how Communism in all its varieties appealed to different societies for different reasons in some as a response to inequalities and in others more out of a

desire to catch up with the West But paradoxically while destroying one web of inequality Communist leaders were simultaneously weaving another It was this dynamic together with widespread economic failure and an escalating loss of faith in the system that ultimately destroyed Soviet Communism itself At a time when global capitalism is in crisis and powerful new political forces have arisen to confront Western democracy The Red Flag is essential reading if we are to apply the lessons of the past to navigating the future Detailed and scholarly but written in lively prose this is a rich satisfying account of the most successful utopian political movement in history Publishers Weekly starred review

**The International Politics of Post-Conflict Reconstruction in Guatemala** N. Short, 2016-04-30 This book looks at the Guatemalan peace process which was successful in providing a development program to modernize the economy and national infrastructure with the support of international organizations and negotiating parties analyzing the extent to which peace processes offer opportunity for progressive social transformation

**The Routledge Guidebook to Gramsci's Prison Notebooks** John Schwarzmantel, 2014-12-17 Gramsci's Prison Notebooks are one of the most important and original sources of modern political philosophy but the Prison Notebooks present great difficulties to the reader Not originally intended for publication their fragmentary character and their often cryptic language can mystify readers leading to misinterpretation of the text The Routledge Guidebook to Gramsci's Prison Notebooks provides readers with the historical background textual analysis and other relevant information needed for a greater understanding and appreciation of this classic text This guidebook Explains the arguments presented by Gramsci in a clear and straightforward way analysing the key concepts of the notebooks Situates Gramsci's ideas in the context of his own time and in the history of political thought demonstrating the innovation and originality of the Prison Notebooks Provides critique and analysis of Gramsci's conceptualisation of politics and history and culture in general with reference to contemporary i.e. present day examples where relevant Examines the relevance of Gramsci in the modern world and discusses why his ideas have such resonance in academic discourse Featuring historical and political examples to illustrate Gramsci's arguments along with suggestions for further reading this is an invaluable guide for anyone who wants to engage more fully with The Prison Notebooks
