Incapacitating Criminals Jacqueline Cohen,1983 *The Punishment Imperative* Todd R. Clear,Natasha A. Frost,2015-09-04 Clear and Frost chart the rise of penal severity in the U S and the forces necessary to end it Over the last 40 years the US penal system has grown at an unprecedented rate five times larger than in the past and grossly out of scale with the rest of the world In *The Punishment Imperative* eminent criminologists Todd R Clear and Natasha A Frost argue that America s move to mass incarceration from the 1960s to the early 2000s was more than just a response to crime or a collection of policies adopted in isolation it was a grand social experiment Tracing a wide array of trends related to the criminal justice system this book charts the rise of penal severity in America and speculates that a variety of forces fiscal political and evidentiary have finally come together to bring this great social experiment to an end The authors stress that while the doubling of the crime rate in the late 1960s represented one of the most pressing social problems at the time it was instead the way crime posed a political problem and thereby offered a political opportunity that became the basis for the great rise in punishment Clear and Frost contend that the public s growing realization that the severe policies themselves not growing crime rates were the main cause of increased incarceration eventually led to a surge of interest in taking a more rehabilitative pragmatic and cooperative approach to dealing with criminal offenders that still continues to this day Part historical study part forward looking policy analysis *The Punishment Imperative* is a compelling study of a generation of crime and punishment in America *Out-of-Control Criminal Justice* Daniel P. Mears,2017-09-28 *Out of Control Criminal Justice* shows that our system of criminal justice is broken it is out of control The author writes that a research based strategy is needed that builds on the insights of those who work within criminal justice or are affected by it Such a strategy must entail continuous evaluation and improvement so that what works can be expanded and what does not can be eliminated *Out of Control Criminal Justice* identifies how systems problems plague our criminal justice systems It then

presents a comprehensive strategy for bringing these systems under control to reduce crime to increase justice and accountability and to do so at less cost The strategy can be used too to create greater responsiveness to victims and communities effectiveness in reducing racial and ethnic disparities and understanding of the causes and consequences of crime After describing this new approach the book identifies the tools needed to implement a systems solution to create a safer and more just society

Continuity and Discontinuity in Criminal Careers Paul E. Tracy, Kimberly

Kempf-Leonard, 2013-11-21 It takes courage to do research on crime and delinquency. Such research is typically conducted in an atmosphere of concern about the problem it addresses and is typically justified as an attempt to discover new facts or to evaluate innovative programs or policies. When, as must often be the case, no new facts are forthcoming or innovative programs turn out not to work, hopes are dashed and time and money are felt to have been wasted. Because they take more time, longitudinal studies require even greater amounts of courage. If the potential for discovery is enhanced, so is the risk of wasted effort. Long-term longitudinal studies are thought to be especially risky for other reasons as well. Theories, issues, and statistical methods in vogue at the time they were planned may not be in vogue when they are finally executed. Perhaps, worse, according to some perspectives, the structure of causal factors may shift during the execution of a longitudinal project such that in the end its findings apply to a reality that no longer exists. These fears and expectations assume an ever-changing world and a corresponding conception of research as a more or less disciplined search for news. Such ideas belittle the contributions of past research and leave us vulnerable to theories, programs, policies, and research agendas that may have only tenuous connections to research of any kind. *The Psychology of Criminal Conduct* D.A. Andrews, James

Bonta, 2014-09-19 *The Psychology of Criminal Conduct* Fifth Edition discusses the psychology of criminal behavior drawing upon general personality as well as cognitive behavioral and cognitive social learning perspectives. The book consists of 15 chapters which are organized into four sections. Part 1 provides an overview of theoretical context and major knowledge base of the psychology of criminal conduct. Part 2 discusses the eight major risk/need factors of criminal conduct. Part 3 examines the prediction and classification of criminal behavior along with prevention and rehabilitation. Part 4 summarizes the major issues in understanding criminal conduct. In addition to senior undergraduate students, graduate students, and professionals in psychology, this book may be helpful to students and practitioners in the fields of social work, sociology, education, health, youth, and family studies, criminology, and youth and adult justice. The book is also accessible to members of the general public who are interested in understanding antisocial behavior. Resource notes throughout explain important concepts. Technical notes at the back of the book allow the advanced student to explore complex research without distracting readers from the main points. An acronym index is also provided. Sentencing and Punishment Susan Easton, Christine Piper, 2012-06-14 This

text presents an overview of sentencing and punishment from penological, social policy, and legal perspectives. It provides an accessible account of the changing attitudes of the public policy makers and the judiciary regarding what constitutes just punishment. *Enduring Issues in Criminology* Ron Boostrom, 1995 The field of criminology is debated by Walter B. Miller,

Paul W. Tappan, Herman and Julia Schwendinger, Edwin H. Sutherland, Roscoe Pound, James Q. Wilson, and others. Five timely topics are covered. **Encyclopedia of Public Administration and Public Policy - 5 Volume Set** Domonic A.

Bearfield, Evan Berman, Melvin J. Dubnick, 2020-08-14 Now in its third edition, *Encyclopedia of Public Administration and*

Three Strikes Laws Jennifer E. Walsh, 2007-01-30

In the mid 1990s policymakers in more than half the states and the federal government responded to escalating crime rates and a series of sensationalized crimes by passing laws that imposed lifetime sentences on repeat offenders. Since then the Three Strikes and You're Out movement, which embodies the overall get tough with crime approach to criminal sentencing, has generated much controversy. Critics argue that Three Strike laws are disproportionate, costly, and inefficient. Supporters, however, argue that the laws are effective, necessary, and just. Despite the controversy, Three Strike laws are still popular more than a decade after their implementation. Attempts to reduce the scope and/or severity of Three Strike policies have failed, and the laws continue to affect thousands of offenders each year. Setting the record straight, Walsh provides a clear, comprehensive overview of the movement and its consequences. Do Three Strikes laws really prevent crime? Do they cost less than releasing repeat offenders, time and time again? Are they evenly and fairly applied? These questions and more are answered in these pages through a careful analysis of the costs, benefits, and results of Three Strikes legislation. Walsh analyzes the historical development of the Three Strikes movement in the context of get tough sentencing reforms and provides detail about the various Three Strikes statutes adopted across the nation while offering an in-depth examination of the controversies they have produced. Amid efforts to repeal or revise such statutes, the laws still stand, and this book sheds light on the history, rationale, and results of one of the most controversial criminal justice movements of our time.
