*The Jung / Buddhism Dialogue*

EDITED BY  
DANIEL J. MECKEL  
AND ROBERT L. MOORE

# Self And Liberation The Jung Buddhism Dialogue

**Ira Helderman**

## **Self And Liberation The Jung Buddhism Dialogue:**

Self and Liberation Daniel J. Meckel, Robert L. Moore, 1992 A collection of essays on two important sources of spiritual and psychological insight Includes Jung's essays on Buddhism and his correspondence with Buddhist Zen master Shin ichi Hisamatsu      *Contexts and Dialogue* Tao Jiang, 2006-11-30 Are there Buddhist conceptions of the unconscious If so are they more Freudian Jungian or something else If not can Buddhist conceptions be reconciled with the Freudian Jungian or other models These are some of the questions that have motivated modern scholarship to approach layavij na the storehouse consciousness formulated in Yog c ra Buddhism as a subliminal reservoir of tendencies habits and future possibilities Tao Jiang argues convincingly that such questions are inherently problematic because they frame their interpretations of the Buddhist notion largely in terms of responses to modern psychology He proposes that if we are to understand layavij na properly and compare it with the unconscious responsibly we need to change the way the questions are posed so that layavij na and the unconscious can first be understood within their own contexts and then recontextualized within a dialogical setting In so doing certain paradigmatic assumptions embedded in the original frameworks of Buddhist and modern psychological theories are exposed Jiang brings together Xuan Zang's layavij na and Freud's and Jung's unconscious to focus on what the differences are in the thematic concerns of the three theories why such differences exist in terms of their objectives and how their methods of theorization contribute to these differences *Contexts and Dialogue* puts forth a fascinating erudite and carefully argued presentation of the subliminal mind It proposes a new paradigm in comparative philosophy that examines the what why and how in navigating the similarities and differences of philosophical systems through contextualization and recontextualization      **The Unharnessed World** Cindy Gabrielle, 2015-06-18 Though New Zealand author Janet Frame 1924-2004 lived at a time of growing dissatisfaction with European cultural models and though her auto biography fiction and letters all testify to the fact that a direct encounter between herself and Buddhism occurred her work has so far never been examined from the vantage point of its indebtedness to Buddhism It is of the utmost significance however that a Buddhist navigation of Frame's texts should shed fresh light on large segments of the Framean corpus which have tended to remain obdurately mysterious This includes passages centering on such themes as the existence of a non dual world or a character's sudden embrace of a non ego like self Of equal significance is the conclusion one then draws that this unharnessed world which human beings are often unable to embrace has always been right under their nose for whenever the aspect of the intellect that filters perceptions into mutually excluding categories fails to function he or she finds a place of subjective arrival in and sees this supposedly unknowable beyond Thus possibly against the grain of mainstream criticism this study argues that Janet Frame constantly seeks ways through which the infinite and the Other can be approached though not corrupted by the perceiving self and that she found in the Buddhist epistemology a pathway towards evoking such alterity      **Shadow, Self, Spirit - Revised Edition** Michael Daniels, 2021-09-28 New and enlarged

edition Transpersonal Psychology concerns the study of those states and processes in which people experience a deeper sense of who they are or a greater sense of connectedness with others with nature or the spiritual dimension Pioneered by respected researchers such as Jung Maslow and Tart it has nonetheless struggled to find recognition among mainstream scientists Now that is starting to change Dr Michael Daniels teaches the subject as part of a broadly based psychology curriculum and this new and enlarged edition of his book brings together the fruits of his studies over recent years It will be of special value to students and its accessible style will appeal also to all who are interested in the spiritual dimension of human experience The book includes a detailed 38 page glossary of terms and detailed indexes **The Sacred Image: C.**

**G. Jung and the Western Embrace of Tibetan Buddhism** Judson Davis, 2015-05-19 The Swiss psychiatrist Carl Gustav Jung made a number of revolutionary contributions to modern Western psychology and his pioneering work was greatly enhanced through his contact with Eastern religions especially Tibetan Buddhism In these esoteric traditions Jung discovered a holistic approach and a deep affinity for nature and in the yogic and tantric disciplines he encountered a complex symbolic world that resonated with him deeply Jung was particularly drawn to the highly articulated and intricate symbolism of Tibetan Tantra which provided considerable support for his seminal theories on the universal archetypes and the collective unconscious His cross cultural and interdisciplinary engagement with Indo Tibetan spirituality later proved instrumental in establishing the basis of the modern East West dialogue in which the religions of the East and in particular Buddhism have become a central focus Jung is also widely acknowledged as the father of transpersonal psychology which in seeking to integrate the wisdom traditions of East and West stands at the forefront of contemporary studies in human consciousness and mysticism **Religion and Psychology** Diane Jonte-Pace, William B. Parsons, 2002-09-26 Religion and Psychology is a

thorough and incisive survey of the current relationship between religion and psychology from the leading scholars in the field This is an essential resource for students and researchers in the area of psychology of religion Issues addressed are The Psychology Theology Dialogue The Psychology Comparativist Dialogue Psychology Religion and Gender Studies Psychology as Religion Social Scientific Approaches to the Psychology of Religion The Empirical Approach International Perspectives

Nature's Primal Self Nam T. Nguyen, 2011-01-01 The underlying theme of this book is the analysis of Corrington's ecstatic naturalism as a breakthrough movement that combines the fields of semiotics theology depth psychology and philosophy in a new metaphysics of nature Ecstatic naturalism provides a viable alternative to Peirce's semiotic conception of the self and to Jaspers' existential elucidation of Existenz **Spheres of Awareness** James Lough, Patricia

Herron, 2009-09-29 Spheres of Awareness Wilberian Integral Approaches to Literature Philosophy Psychology and Art moves toward building a new and more comprehensive theory of literature philosophy psychology and art The extremely popular work of Ken Wilber unites the best of both western and eastern thought and affirms that the stages of consciousness more refined than that of the reasoning mind do exist These stages culminate in awareness of Spirit or what Buddhism has called

Emptiness Spheres of Awareness shows us how applying Wilber's theoretical templates can broaden and deepen our approaches to literature philosophy psychology and art

**Journeys Into Emptiness** Robert Jingen Gunn, 2000 Journeys into Emptiness traces the lives of three famous religious seekers and their quests for personal transcendence Dogen a thirteenth century Japanese Zen master experienced emptiness in wordless meditation the practice of zazen that spread in time from the Eastern world to the West Thomas Merton was a twentieth century Catholic monk whose experience of personal homelessness brought him to explore the tension that lies between solitude and community Carl Jung raised by a pious father and a psychologically unbalanced mother was driven to understand the structure of the psyche including the male and female elements that exist in every human person Robert Jingen Guinn provides wise and compassionate portraits of these emblematic figures Each of them in his own way had to experience emptiness going beyond consciousness to discover his own personal truth whether that was rooted in Buddha nature God or the unconscious This going beyond became a path to encountering their own unique selves and a deeper sense of life

BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

*The Theory and Practice of Zen Buddhism* Charles S. Prebish, On-cho Ng, 2022-02-15 This book brings together an impressive group of scholars to critically engage with a wide ranging and broad perspective on the historical and contemporary phenomenon of Zen The structure of the work is organized to reflect the root and branches of Zen with the root referring to important episodes in Chan Zen history within the Asian context and the branches referring to more recent development in the West In collating what has transpired in the last several decades of Chan Zen scholarship the collection recognizes and honors the scholarly accomplishments and influences of Steven Heine arguably the most important Zen scholar in the past three decades As it looks back at the intellectual horizons that this towering figure in Zen Chan studies has pioneered and developed it seeks to build on the grounds that were broken and subsequently established by Heine thereby engendering new works within this enormously important religio cultural scholarly tradition This curated Festschrift is a tribute both retrospective and prospective acknowledging the foundational work that Heine has forged and generates research that is both complementary and highly original This academic ritual of assembling a liber amicorum is based on the presumption that sterling scholarship should be honored by conscientious scholarship In the festive spirit of a Festschrift this anthology consists of the resounding voices of Heine and his colleagues It is an indispensable collection for students and scholars interested in Japanese religion and Chinese culture and for those researching Zen Buddhist history and philosophy

**Shadow, Self, Spirit** Michael Daniels, 2005

Transpersonal Psychology concerns the study of those states and processes in which people experience a deeper sense of who they are or a greater sense of connectedness with others with nature or the spiritual dimension Pioneered by respected researchers such as Jung Maslow and Tart it has nonetheless struggled to find recognition among mainstream scientists Now that is starting to change Dr Michael Daniels teaches the subject as part of a broadly based psychology curriculum and this

book brings together the fruits of his studies over recent years It will be of special value to students and its accessible style will appeal also to all who are interested in the spiritual dimension of human experience The book includes a detailed 38 page glossary of terms and detailed indexes

**Awakening and Insight** Polly Young-Eisendrath,Shoji

Muramoto,2003-09-02 Buddhism first came to the West many centuries ago through the Greeks who also influenced some of the culture and practices of Indian Buddhism As Buddhism has spread beyond India it has always been affected by the indigenous traditions of its new homes When Buddhism appeared in America and Europe in the 1950s and 1960s it encountered contemporary psychology and psychotherapy rather than religious traditions Since the 1990s many efforts have been made by Westerners to analyze and integrate the similarities and differences between Buddhism and its therapeutic ancestors particularly Jungian psychology Taking Japanese Zen Buddhism as its starting point this volume is a collection of critiques commentaries and histories about a particular meeting of Buddhism and psychology It is based on the Zen Buddhism and Psychotherapy conference that took place in Kyoto Japan in 1999 expanded by additional papers and includes new perspectives on Buddhism and psychology East and West cautions and insights about potential confusions traditional ideas in a new light It also features a new translation of the conversation between Shin ichi Hisamatsu and Carl Jung which took place in 1958 Awakening and Insight expresses a meeting of minds Japanese and Western in a way that opens new questions about and sheds new light on our subjective lives It will be of great interest to students scholars and practitioners of psychotherapy psychoanalysis and analytical psychology as well as anyone involved in Zen Buddhism

**Gender and**

**Desire** Polly Young-Eisendrath,1997 Also available in an open access full text edition at <http://oaktrust.library.tamu.edu/handle/1969.1/146844> Contradictory and provocative pathways crisscross the terrain of gender among contemporary psychologists and psychoanalysts Clearing a path through this terrain Polly Young Eisendrath describes and illustrates issues of gender and desire among women and men Young Eisendrath introduces three world views premodern modern and postmodern Then she calls our attention to how we shape reality and clearly explains how a lived postmodern philosophy is essential for us to understand ourselves and how we can change Next she discusses gender and sex differences in terms of how the former are flexible and the latter are not The division of the human community into the two exclusive groups of male and female has important psychological implications on both conscious and unconscious levels Most depth psychological theories of gender and sex have been androcentric taking males as the norm for health and have failed to develop a full understanding of desire opposition and idealization between the sexes One major theme in a depth psychology of gender is that of Woman as the object of desire The Greek myth of Pandora deftly illustrates the problem of female beauty as the desire awakening maiden Pandora is powerful but empty The link between female beauty power and evil teaches us about the consequences of female appearance as a commodity to be used among men Zeus placed the curse of Pandora on humankind as a punishment for the theft of fire from the gods and we are still living with the effects of this patriarchal curse The double

bind of female beauty damned if you engage it and damned if you don't must be lifted from the male female relationships in this time of growing equality and reciprocity between the sexes For women and men to reach their full potential of development as individuals and in relationships they must break Pandora's curse and free themselves from the myth of the power of female beauty In working to liberate us from the curse of Pandora Young Eisendrath has developed a theory of desire desire contains within it a primordial absence a sense that something is missing When we come to understand the nature of desire itself we can be liberated from it domination Drawing on experiences from culture everyday life and psychotherapy Polly Young Eisendrath's Gender and Desire Uncursing Pandora provides a full engagement with the intricacies and complexities of gender desire and liberation for women and men in a postmodern world **Knowledge in a**

**Nutshell: Carl Jung** Gary Bobroff, 2020-04-01 An excellent primer on Jungian concepts Highly recommended Jung Utah review by A Butler One of the best introductions to Jung's psychology Andr De Koning past President Australian and New Zealand Society for Jungian Analysts Carl Jung was the founder of analytical psychology who revolutionized the way we approached the human psyche Drawing on Eastern mysticism mythology and dream analysis to develop his theories Jung proposed many ideas which are still influential today including introversion extroversion and the collective unconscious Knowledge in a Nutshell Carl Jung introduces psychologist Jung's ideas in an engaging and easy to understand format Jungian psychology expert Gary Bobroff breaks down the concepts of the psyche collective unconscious archetypes personality types and more in this concise book He also explores the influence on Eastern philosophy and religion on Jung's ideas and how spiritualism enriched his theories With useful diagrams and bullet point summaries at the end of each chapter this book provides an essential introduction to this influential figure and explains the relevance of Jung's ideas to the modern world ABOUT THE SERIES The Knowledge in a Nutshell series by Arcturus Publishing provides engaging introductions to many fields of knowledge including philosophy psychology and physics and the ways in which human kind has sought to make sense of our world **On Dreams and the East** C. G. Jung, Heinrich Zimmer, 2025-01-14 Jung's landmark seminar on

the symbolism of yoga and its applications to dream analysis In the summer of 1933 C G Jung conducted a seminar in Berlin attended by a large audience of some 150 people including several Jewish Jungians who would soon leave Germany Hitler had begun consolidating his position as dictator and these students were distressed at Jung's recent decision to accept the presidency of a German professional psychotherapy society that was rapidly becoming Nazified and purged of Jews On Dreams and the East makes these seminar sessions widely available for the first time offering tantalizing insights into Jung's evolving understanding of yoga and the realization of the self The seminar commences with a presentation on the psychology of yoga by noted Indologist and linguist Heinrich Zimmer whose collaboration in these talks reflects Jung's growing engagement with the Hindu tradition particularly Tantric yoga Jung analyzes a series of dreams of a middle aged male patient focusing on mandalas and the centering process He reflects on related motifs in alchemical symbolism Navaho

healing drawings Mithraism baptism symbolism the foundation of Rome ecclesiastic dances and labyrinths drawing connections with the symbolism of yoga and Tantra Featuring a richly documented introduction by Giovanni Sorge On Dreams and the East opens a window on Jung's deepening exploration of Eastern thought and the comparative study of the individuation process at a critical juncture in his life and work     *Prescribing the Dharma* Ira Helderman, 2019-02-08 Interest in the psychotherapeutic capacity of Buddhist teachings and practices is widely evident in the popular imagination News media routinely report on the neuropsychological study of Buddhist meditation and applications of mindfulness practices in settings including corporate offices the U S military and university health centers However as Ira Helderman shows curious investigators have studied the psychological dimensions of Buddhist doctrine for well over a century stretching back to William James and Carl Jung These activities have shaped both the mental health field and Buddhist practice throughout the United States This is the first comprehensive study of the surprisingly diverse ways that psychotherapists have related to Buddhist traditions Through extensive fieldwork and in depth interviews with clinicians many of whom have been formative to the therapeutic use of Buddhist practices Helderman gives voice to the psychotherapists themselves He focuses on how they understand key categories such as religion and science Some are invested in maintaining a hard border between religion and psychotherapy as a biomedical discipline Others speak of a religious secular binary that they mean to disrupt Helderman finds that psychotherapists' approaches to Buddhist traditions are molded by how they define what is and is not religious demonstrating how central these concepts are in contemporary American culture     *Dancing Between Two Worlds* Fred Gustafson, 1997 In this thought provoking and sensitive book a noted Jungian scholar explores the deepest elements in the American psyche that need healing to bring forth the best in both of the worlds we walk in the highly differentiated and technologically developed Western civilization and the indigenous native soul that is the essence of each human being The author demonstrates that this soul is forcefully represented in America in the experience of the Native American peoples and their relationship to the land and to the ancient indigenous one at the heart of our human rights The author explores not only the best of Native American spiritual thought to rediscover that soul but also the terrible psychic damage done to later settlers by five hundred years of violence against the original peoples He sketches positive directions that will create a partnership between the two worlds of our past and bring them together in a dance that will encourage a more redemptive spiritual order     **The Legacy of C. G. Jung's Buddha** Oliver Knox, 2025-08-18 This book traces the pivotal role Jung played in reframing Buddhist thought as a psychological tradition a shift that continues to influence contemporary interpretations of meditation mindfulness and the self Exploring both the historical context of Jung's engagement with Buddhism and its lasting impact this book examines how his theories of individuation the collective unconscious and psychological typology resonated with Buddhist thought It also critically assesses the diverse ways Buddhism has been psychologized from ethical philosophy to modern therapeutic practice By

positioning Buddhism as a science of the unconscious this volume discusses how Jung's ideas helped bridge Eastern philosophy and Western psychology offering a new framework for understanding Buddhist doctrine A vital contribution to Buddhist studies and the history of psychology this book offers fresh insights for scholars students and practitioners alike

*Mindfulness and Psychotherapy* Christopher K. Germer, Ronald D. Siegel, Paul R. Fulton, 2005-03-09 Responding to growing interest among psychotherapists of all theoretical orientations this practical book provides a comprehensive introduction to mindfulness and its clinical applications The authors who have been practicing both mindfulness and psychotherapy for decades present a range of clear cut procedures for implementing mindfulness techniques and teaching them to patients experiencing depression anxiety chronic pain and other problems Also addressed are ways that mindfulness practices can increase acceptance and empathy in the therapeutic relationship The book reviews the philosophical underpinnings of mindfulness and presents compelling empirical findings User friendly features include illustrative case examples practice exercises and resource listings

*Elaborate Selves* E Mark Stern, 2013-12-16 In this fascinating volume Anthony Molino interviews some of today's foremost thinkers in psychoanalysis and psychotherapy Organized around the fertile and controversial concept of multiplicity *Elaborate Selves* explores the life work and thought of a diverse group of therapists who have played key roles in furthering postmodern perspectives on self experience Through five engaging conversations readers discover how discontinuities in self experience reflect phenomena that are both fundamental to formations of human identity and central to an understanding of contemporary relationships Throughout the strands of these interviews theory and practice come alive in a multivocal exploration at the intersections of culture and history ideology and instinct biology and fantasy nostalgia and hope and ultimately of trauma and treatment *Elaborate Selves* explores the postmodern concern with the notion of a multiple or fragmented self In this context the stories lives and selves of the very therapists interviewed are seen to reflect predicaments and tensions of the culture at large Each interview explores a therapist's unique contribution to the field while making connections between efforts and theories that at a first glance appear remarkably diverse Among these are the constructivism of Jungian Buddhist and feminist Polly Young Eisendrath the inspired object relations theorizing of Christopher Bollas and the mystic sensibilities of Michael Eigen Readers will find that the depth and complexities of the following issues are rendered in a language that is at once both compelling and accessible contemporary theories of the self and implications for clinical practice psychoanalysis and postmodernism psychoanalysis and spirituality myth and ritual as a basis for self knowledge and group psychotherapy A fundamental text for clinicians and students of all schools of psychoanalysis contemporary social theory philosophy and religious thought *Elaborate Selves* is a major contribution to the ever growing genre of the interview Indeed the interviews collected in this unique volume offer more than an exciting exploration of a singular group of life experiences They probe beyond the biographical to illustrate connections between personal and intellectual history and between life experience culture and the production of knowledge

in an increasingly complex world
