Educating for Sustainability in Primary Schools Neil Taylor,Frances Quinn,Chris Eames,2015-06-17 Education for Sustainability is a key priority in today s schools as our society seeks to find a balance between environmental social cultural political and economic imperatives that affect our future As young children will become the next generation of adults it is vital that they are educated about sustainability issues so that they can learn to make informed decisions and take positive action for a sustainable world Teachers are ideally placed to educate for sustainability issues and indeed have a responsibility
