## **Self Therapy For The Stutterer:**

*Self-therapy for the Stutterer* Malcolm Fraser, 2002 Malcolm Fraser knew from personal experience what the person who stutters is up against His introduction to stuttering corrective procedures first came at the age of fifteen under the direction of Frederick Martin M D who at that time was Superintendent of Speech Correction for the New York City schools A few years later he worked with J Stanley Smith L L D a stutterer and philanthropist who for altruistic reasons founded the Kingsley Clubs in Philadelphia and New York that were named after the English author Charles Kingsley who also stuttered The Kingsley Clubs were small groups of adult stutterers who met one night a week to try out treatment ideas then in effect In fact they were actually practicing group therapy as they talked about their experiences and exchanged ideas This exchange gave each of the members a better understanding of the problem The founder often led the discussions at both clubs In 1928 Malcolm Fraser joined his older brother Carlyle who founded the NAPA Genuine Parts Company that year in Atlanta Georgia He became an important leader in the company and was particularly outstanding in training others for leadership roles In 1947 with a successful career under way he founded the Stuttering Foundation of America In subsequent years he added generously to the endowment so that at the present time endowment income covers over fifty percent of the operating budget In 1984 Malcolm Fraser received the fourth annual National Council on Communicative Disorders Distinguished Service Award The NCCD a council of 32 national organizations recognized the Foundation s efforts in adding to stutterers parents clinicians and the public s awareness and ability to deal constructively with stuttering Book jacket

treatment for any one client Changes in fluency are looked at in relation to the effects they might have on the person's life as a whole and factors involved in the maintenance of this change are discussed In addition adjuncts to speech therapy such as drugs hypnosis and various forms of masking are evaluated Issues of the training of therapists are raised and suggestions made as to the nature of the therapeutic relationship when working with people who stutter **Stuttering** Marty Jezer, 1997-05-15 A personal memoir of Jezer's lifelong struggles with stuttering his experiences with speech therapy psychotherapy medication and the self help movement and how he ultimately was able to take responsibility for his speech
