Self Disclosure In The Therapeutic Relationship:

Psychotherapist Revealed Andrea Bloomgarden, Rosemary B. Mennuti, 2010-06-10 In this edited volume the real dialogue begins Therapists speak openly and honestly about their self disclosure practices decisions and clinical dilemmas Bloomgarden and Mennuti bring together research training and tales from their clinical experience to illuminate lessons derived from their own journeys toward judicious balanced self disclosure practices In a readable fashion the stories highlight a variety of self disclosure and boundary issues that occur in the course of psychotherapy Numerous treatment modalities and clinical orientations are represented The collective wisdom offered through these stories which includes suggested guidelines and a standard of care for good practice will assist the reader in developing a better understanding of what it means to self disclose appropriately recognizing a flexible middle ground between too much and too little along with responsiveness to client need The Freudian based taboo that rigidly warns against all self disclosure is antiquated and a more reasonable balanced perspective is under way As a psychotherapeutic community including psychologists social workers art therapists counselors dance movement therapists who are all represented in this book it is time to talk openly about a balanced judicious and therapeutically appropriate approach to self disclosure and boundaries Bravely that is exactly what the authors in this book have done *Self-Disclosure in the Therapeutic Relationship* M. Fisher, Sharon A.

Shueman, 2013-11-11 The editors of the present volume were also privileged to collaborate on an earlier book *Intimacy* also published by Plenum Press In our preface to that volume we described the importance and essence of intimacy and its centrality in the domain of human relationships After reading the contributions to that volume a number of issues emerged and pressed for elaboration These questions concerned the nature and parameters of intimacy The natural extension of these concerns can be found in the current work *Self Disclosure in the Therapeutic Relationship* The editors after careful consideration of the theoretical philosophical and technical literature are impressed by the relationship between intimacy and appropriate self disclosure Self disclosure in this context refers to those behaviors that allow oneself to be sufficiently revealing so as to become available for an intimate relationship Levenson has referred to psychotherapy as the demystification of experience wherein intimacy emerges during the time that interpersonal vigilance diminishes through growing feelings of safety Interpersonal experience can be demystified and detoxified by disclosure openness and authentic relatedness This is not an easy process Before one can be open make contact or reach out with authenticity one must be available to oneself This means making contact with and accepting the dark fearful and of ten untouched areas within the person that are often hidden even from oneself The process of therapy enables those areas to gain consciousness be tolerated and be shared with trusted others Therapist Self-Disclosure Graham S. Danzer, 2018-09-03 Therapist Self

Disclosure gives clinicians professional and practical guidance on how and when to self disclose in therapy Chapters weave together theory research case studies and applications to examine types of self disclosure timing factors and dynamics of the

Disclosure and Concealment in Psychotherapy Sarah Knox, Clara Hill, 2018-10-11

Although clients disclose many of their concerns to therapists they often choose to conceal some of their concerns as well Equally therapists occasionally reveal something of themselves to clients via therapist self disclosure but typically keep the focus on clients Such disclosure whether by clients or therapists is seldom easy and is instead often fraught with questions as to what how much and why to disclose as well as concerns regarding the consequences of disclosure Clearly disclosure or the lack thereof is an important phenomenon of the therapy endeavour The chapters included in this book examine various aspects of the disclosure and concealment phenomena whether from client or therapist perspective Contributions examine the relationship of therapist self disclosure to alliance and outcome the phenomenon of therapist self disclosure in psychodynamic therapy client concealment and disclosure of secrets in therapy young adults disclosures in psychotherapy and on Facebook and lying in psychotherapy Each offers intriguing insights into the disclosure or lack of disclosure in psychotherapy from the therapist or client perspective This book was originally published as a special issue of Counselling Psychology Quarterly
