Self-knowledge in the Age of Theory Ann Hartle,1997 The philosophical ideal of self knowledge has been all but forgotten in what Walker Percy calls the age of theory Hartle attempts to recover that ancient philosophical task and to articulate what that ideal could mean in the context of our historical situation She considers and rejects claims that we can attain self knowledge through theory anti theory or narrative and she defends philosophy as a humanistic rather than scientific endeavor Self Knowledge in the Age of Theory will be of great interest not only to philosophers but to scholars of literature and other humanities

Its focus goes beyond that of traditional scholarship that tends to focus only on sex differences and sex roles; instead, it considers alternative views of what is worth studying, how one should study it, etc. The chapters provide new feminist perspectives on topics of great current interest to developmental psychologists.

**Cognitive Information Processing: Career Theory, Research, and Practice** V. Casey Dozier, Susan Epstein, Jeff W. Garis, Myrna Hoover, Justin D. Hultman, Tristen Hyatt, Emily L. Kennelly, Jaana Kettunen, Kirsten M. Kinsley, Stephen J. Leierer, Jukka Lerkkanen, Julia Panke Makela, Laura Reid Marks, Sarah Pearson, Gary W. Peterson, Robert C. Reardon, Denise E. Saunders, Erica L. Stallings, Raimo Vuorinen, 2023-11-30 This book's aim is to improve the integration of Cognitive Information Processing (CIP) theory research and practice leading to more cost-effective career interventions that help persons to make informed and careful career decisions over a lifetime. The starting point for the book's content was the 2004 Sampson, Reardon, Peterson, and Lenz book *Career Counseling and Services: A Cognitive Information Processing Approach*, which itself was a revision of the 1991 Peterson, Sampson, Reardon book *Career Development and Services: A Cognitive Approach*. We had four goals for this edition of our book. Our first goal was to update the theory research and practice of CIP theory from 2004 through the end of 2022. Our second goal was to expand the authors to better reflect the diverse community of practice that has emerged for CIP theory over the past eighteen years. Our third goal was to remove cost as a potential barrier to disseminating knowledge about CIP theory by making the book accessible as an open access publication through the Florida State Open Publishing. Finally, our fourth goal was to disseminate the book via open source software available in libraries, which can be used to make periodic book content updates more feasible.

**Coming of Age in Times of Uncertainty** Harry Blatterer, 2009-07 Adulthood is taken for granted. It connotes the end of childhood, the resolution to the storm and stress period of adolescence. This conception is strongly entrenched in the sociology of youth and the sociology of the life course as well as in the policy arena. At the same time, adulthood itself remains an unarticulated journey's end, remains conceptually fixed and theoretically uncontested. Adulthood then is both central to the social imagination and neglected as an area of

sociological investigation something that has been noted by sociologists over the last four decades Going beyond the overwhelmingly psychological literature this book draws on original qualitative research and theories of social recognition and thus presents a first step towards filling an important gap in our understanding of the meaning of adulthood
