**Selfhood and Authenticity** Corey Anton, 2001-02-22 Winner of the 2004 Erving Goffman Award for Outstanding Scholarship in the Ecology of Social Interaction presented by the Media Ecology Association Drawing upon numerous influential thinkers of the twentieth century including Heidegger Bakhtin Merleau Ponty Sartre Goffman Schrag and Taylor Selfhood and Authenticity articulates the phenomenological constitution by which social construction is a real possibility Anton brings phenomenology and existential philosophy to wider audiences and makes complex insights refreshingly lucid by systematically radicalizing and integrating the notions of embodiment sociality symbolicity and temporality **Selfhood**

**and Authenticity** Corey Anton, 2001-02-22 Explores the notion of selfhood in the wake of the post structuralist debates

**Authenticity in Culture, Self, and Society** J. Patrick Williams, 2016-12-05 Across sociology and cultural studies in particular the concept of authenticity has begun to occupy a central role yet in spite of its popularity as an ideal and philosophical value authenticity notably suffers from a certain vagueness with work in this area tending to borrow ideas from outside of sociology whilst failing to present empirical studies which centre on the concept itself Authenticity in Culture Self and Society addresses the problems surrounding this concept offering a sociological analysis of it for the first time in order to provide readers in the social and cultural sciences with a clear conceptualization of authenticity and with a survey of original empirical studies focused on its experience negotiation and social relevance at the levels of self culture and specific social settings

Parasain, 2016-07-15 This book offers an original intersection of concepts from Immanuel Kant's moral command ethics and S ren Kierkegaard's existential ethics The Kantian formulation of moral law is based on theoretical ground while

Kierkegaardian ethics of the quest for selfhood views it as the very act of living The present work provides an account of both these perspectives and questions whether these approaches to morality are mutually exclusionary Using Slavoj i ek s parallax view in the realm of morality it argues that moral philosophy must engage with a constant critique of difference around which the transformation of our various perspectives to morality revolves This work appeals for furtherance of the conversation model and participation of perspectives to transcend positional confinement It advocates the traversing of the ethical parallax to allow for intellectual openness and an empathetic perception of the other Engaging and well researched this book will be of interest to scholars and researchers of ethics political philosophy and continental philosophy **The**

**Literature of Reconstruction** Wolfgang Funk, 2017-03-23 Winner of the 2016 ESSE Junior Scholar Book Award in Literatures in the English Language The Literature of Reconstruction argues for the term and concept of postmillennial reconstruction to fill the gap left by the decline of postmodernism and deconstruction as useful cultural and literary categories Wolfgang Funk shows how this notion emerges from the theoretical and philosophical development that led to the demise of postmodernism by relating it to the idea of authenticity immediate experience that eludes direct representation In addition he provides a clear formal framework with which to identify and classify the features of reconstructive literature by updating the narratological category of metafiction originally established in the 1980s Based on Werner Wolf s observation of a metareferential turn in contemporary arts and media he illustrates how the specific use of metareference results in a renegotiation of the specific patterns of literary communication and claims that this renegotiation can be profitably described with the concept of reconstruction To substantiate this claim in the second half of the book Funk discusses narrative texts that illustrate this transition from postmodern deconstruction to postmillennial reconstruction The analyses take in distinguished and prize winning writers such as Dave Eggers Julian Barnes Jennifer Egan and Jasper Fforde The broad scope of authors featuring writers from the US as well as the UK underlines the fact that the reconstructive tendencies and strategies Funk diagnoses are of universal significance for the intellectual and cultural self image of the global North

Essays in Honor of Hubert L. Dreyfus: Heidegger, authenticity, and modernity Mark A. Wrathall, Jeff Malpas, 2000 These essays focus on the dialogue with the continental philosophical tradition in particular the work of Heidegger that has played a foundational role in Dreyfus s thinking **The Theological Imperative to Authenticity** Christy Capper, 2022-11-04

From a theological viewpoint this book explores the junction between the philosophical existential idea of the authentic self and its cultural appropriation The text builds on the theology of John Macquarrie and the narrative formation of identity to construct a theological definition of authentic selfhood It then contrasts this definition with the common idea that authenticity in the moral sense can be used to justify any action The author argues that this is not genuine authenticity Instead they consider that authenticity rests upon loyalty to something greater than oneself and for Christians this is the character of the God in whose image they are created and are being formed This book is illuminating reading for students

and scholars of theological anthropology pastoral theology ethics and moral philosophy

**The Authentic Self** Robert R. Ehman, 2012-08-06 Philosopher Robert Ehman looks at the familiar topics of personal identity morality sexuality love and death from a new perspective that of the unique irreplaceable personal value of each individual self as distinguished from the anonymity of our impersonal contemporary world Ehman defines the authentic self as something more than the locus of spatial temporal identity the agent of action the object of moral duties and respect or the sum total of personal projects achievements social function and status What makes the self authentic can be discovered by contrasting who we really are as irreplaceable individuals with uniquely personal perspectives with the roles we must play in an essentially technological world where one individual can easily be substituted for another But the primary experience through which we encounter the authentic self according to Ehman is love for it is personal love that provides access to the unique value of an individual self This level of insight into the person is quite distinct from a moral appreciation of the individual in which we respect another as a free being with rights and duties It is also to be distinguished from sexual desire in which we appreciate another for his or her potential for satisfying our own sexual urges regardless of any value apart from the sexual context Ehman concludes his study by considering Heidegger's intriguing proposal that it is only through a proper understanding of death that we can achieve authenticity Through the experience of the death of a loved one and by coming to terms with the reality of our own death we are afforded new opportunities of understanding the unique irreplaceable value of each personal self [Aging and Self-Realization](#)

Hanne Laceulle, 2018-11-08 Dominant cultural narratives about later life dismiss the value senior citizens hold for society In her cultural philosophical critique Hanne Laceulle outlines counter narratives that acknowledge both potentials and vulnerabilities of later life She draws on the rich philosophical tradition of thought about self realization and explores the significance of ethical concepts essential to the process of growing old such as autonomy authenticity and virtue These counter narratives aim to support older individuals in their search for a meaningful age identity while they make society recognize its senior members as valued participants and moral agents of their own lives *Heidegger's Philosophy and Theories of the Self* Derek Robert Mitchell, 2019-07-30 This title was first published in 2001 Explaining and defending a Heideggerian account of the self and our knowledge of the world this book addresses the fundamental issues of selfhood and the elemental question of what it means to be human The author critically examines theories of the self derived from two distinct schools of thought Descartes Hume Kant Sartre and Stirner representing a tradition which has dominated Western philosophy since Descartes Heidegger and Laing representing a radical departure from the tradition The author focuses on two key philosophical problems throughout the problem of knowledge and the problem of identity The author argues that ultimately Heidegger does no more than echo Stirner's empty egoism and provides a bleak inescapable heroism for the individual

pervasive anxieties in US Muslim communities around a perceived crisis of faith As Zaid Adhami argues in this richly textured ethnography these concerns are fundamentally about the pressures and dilemmas of authenticity what it really means to be a Muslim While discussions about authenticity in Islam typically focus on maintaining tradition and competing claims to true Islam Adhami focuses instead on the powerful idea of being true to one's own self and what it means to have genuine belief Drawing on extensive conversations with American Muslims and careful readings of broader communal discourse Adhami shows that this drive for personal authenticity plays out in complicated ways It can produce deep doubt while also serving as the grounds to affirm tradition It can converge with revivalist modes of piety but it can also prompt emphatic challenges to communal orthodoxies Through vivid storytelling and sensitive analysis Adhami illuminates why religious doubt is often a source of intense anxiety in today's world and how people maintain their faith despite such unsettling uncertainty     **Self-deception and Morality** Mike W. Martin, 1986 This book systematically explores the moral

issues surrounding self deception While many articles and books have been written on the concept of self deception in recent years Martin's gives much greater emphasis to self deception as a significant topic for both ethical theory and applied ethics Self deception is perplexing from a moral point of view It seems tailor made to camouflage and foster immorality Does all self

deception involve some guilt and is it among the most abhorrent evils as some moralists and theologians have charged Or is it only wrong sometimes such as when it has bad consequences Could it on occasion be permissible or even desirable to deceive ourselves just as we are sometimes justified in deceiving other people Are self deceivers perhaps more like innocent victims than perpetrators of deceit and as such deserving of compassion and help Or paradoxically are they best viewed with ambivalence culpable as deceivers and simultaneously innocent as victims of deception from the introduction Martin develops a conception of self deception as the purposeful evasion of acknowledging to oneself truths or one's view of truth He details a systematic framework for understanding the main moral perspectives and traditions concerning self deception that have emerged in western philosophy In so doing he clarifies related concepts like sincerity authenticity honesty hypocrisy weakness of will and self understanding Ranging across traditions both philosophical Kant Kierkegaard and Sartre and non philosophical Freud Eugene O'Neill and Henrik Ibsen Martin shows why self deception is as morally complex as any other major form of behavior The appeal of this book is broad The volume will challenge professional philosophers and psychologists yet it is organized and written to be accessible to students in courses on ethics philosophy of mind and philosophy of literature Martin's numerous literary examples should also interest literary critics
