Selling The Rope To Hang Capitalism The Debate On West East Trade And Technology Transfer:

Controlling East-West Trade and Technology Transfer Gary K. Bertsch, 1988 Western efforts to control trade and technological relations with communist countries affect many interests and political groups in both Eastern and Western blocs Although there is general agreement within the Western alliance that government imposed controls are necessary to prevent material having military importance from falling in the hands of the Soviet Union and its Warsaw Pact allies there is considerable controversy over the specifics the exact definition of militarily significant material how the Western nations should administer controls the implications of glasnost and other matters **Selling the Rope to Hang Capitalism?**

Western Doctrines on East-West Trade Peter Van Ham, 1992-06-18 East West trade and technology transfer have always been linked to the issue of national security The author identifies many different Western doctrines on East West trade demonstrating that two basic belief systems underly these doctrines **East-West Economic Relations in the**

1990s Gary K. Bertsch, Christopher Saunders, 1989-06-18 This volume contains a number of analyses of the present global situation and provides a reasoned preview of likely macro economic developments during the next decade in the relations between East and West It is based on the 1988 11th Workshop on East West European Economic Interaction **China's**

Influence on Non-Trade Concerns in International Economic Law Paolo Farah, Elena Cima, 2016-10-14 This volume examines the range of Non Trade Concerns NTCs that may conflict with international economic rules and proposes ways to protect them within international law and international economic law Globalization without local concerns can endanger relevant issues such as good governance human rights right to water right to food social economic cultural and environmental rights labor rights access to knowledge public health social welfare consumer interests and animal welfare climate change energy environmental protection and sustainable development product safety food safety and security Focusing on China the book shows the current trends of Chinese law and policy towards international standards The authors argue that China can play a leading role in this context not only has China adopted several reforms and new regulations to address NTCs but it has started to play a very relevant role in international negotiations on NTCs such as climate change energy and culture among others While China is still considered a developing country in particular from the NTCs point of view it promises to be a key actor in international law in general and more specifically in international economic law in this respect This volume assesses taking into consideration its special context China's behavior internally and externally to understand its role and influence in shaping NTCs in the context of international economic law **Professional Journal of the United States Army**, 1988 **East-West Relations in the 1990s** Rio D. Foreign Policy Analysis,1989-01-01 Technological Revolutions and the Periphery Eduardo da Motta e Albuquerque,2023-10-13 This book evaluates the uneven propagation of technological revolutions investigating the roots of this phenomenon in the absorptive capabilities that are built by countries and regions at the periphery To understand this global process this book looks to two dimensions time and geography Temporally the book follows the sequence of technological revolutions in the last 250 years With regard to geography the book studies five different regions at the periphery China India Africa Russia and Latin America to understand how they differ in the institutional processes that shape their absorptive capabilities Focusing on each technological revolution and its impact on those five peripheric regions the chapters illustrate how each region coped with each shock wave emanating from the center Providing a truly global outlook of a complex system with a dynamic nature this book will be of interest to researchers and students of development economics the economics of innovation evolutionary economics and the economics of science and technology *The Reagan-Gorbachev Summit and Its Implications for United States-Soviet Relations* United States. Congress. House. Committee on Foreign Affairs,1988 *The Politics of International Economic Relations* Jeffrey A. Hart,Joan Edelman Spero,2013-06-17 The first and definitive book of its kind Joan Spero s *The Politics of International Economic Relations* has been fully updated to reflect the sweeping changes in the international arena With the expertise of co author Jeffrey Hart the fifth edition strengthens the coverage of political and economic relations since the end of the Cold War economic polarization in developing nations and the roots of economic decline in centrally planned economies A new chapter on industrial policy and competitiveness debates further illustrates the changing dynamics of International Political Economy Ideal as a supplement to the International Relations course or as the core text in International Political Economy Spero and Hart s *The Politics of International Economic Relations* continues to give students the breadth and depth of scholarship needed to understand the politics of world economy **Military Review** ,1988 Reluctant Cold Warriors Vladimir Kontorovich,2019-09-02 Scholars attribute the collapse of the Soviet Union in part to the militarization of its economy But during the Cold War economic studies of the USSR largely neglected the military sector of the Soviet economy its dominant and most successful part This is all the more puzzling in that academic study of the Soviet economy in the US was specifically created to help fight the Cold War If the rival superpower maintained the peacetime war economy why did experts fail to tell us when it mattered Vladimir Kontorovich shows how Western economists came up with strained non military interpretations of several important aspects of the Soviet economy which the Soviets themselves acknowledged to have military significance Such civilianization suggests that the neglect of the military sector was not forced on scholars of the Soviet economy by secrecy it was their choice The explanation of this choice in *Reluctant Cold Warriors* raises many questions about the internal workings of economic Sovietology and its intellectual and political background Are peripheral academic fields mimicking the agenda of the discipline s mainstream more likely to produce faulty scholarship Did the search for the essence of socialism

distract researchers from the actual Soviet economy Were economic Sovietologists under political pressure and if so in what direction This book answers these questions in a way that has broad relevance for national security uses of social science today

Engineering Communism Steven T. Usdin, 2008-10-01 Engineering Communism is the fascinating story of Joel Barr and Alfred Sarant dedicated Communists and members of the Rosenberg spy ring who stole information from the United States during World War II that proved crucial to building the first advanced weapons systems in the USSR On the brink of arrest they escaped with KGB s help and eluded American intelligence for decades Drawing on extensive interviews with Barr and new archival evidence Steve Usdin explains why Barr and Sarant became spies how they obtained military secrets and how FBI blunders led to their escape He chronicles their pioneering role in the Soviet computer industry including their success in convincing Nikita Khrushchev to build a secret Silicon Valley The book is rich with details of Barr s and Sarant s intriguing and exciting personal lives their families as well as their integration into Russian society Engineering Communism follows the two spies through Sarant s death and Barr s unbelievable return to the United States

Social Responses to Large Technical Systems Todd R. La Porte, 2012-12-06 This volume stems from the efforts of scholars who seek to understand the social dynamics of large technical systems The purpose is to develop concepts and empirical knowledge concerning the dynamics of such systems with particular emphasis on the processes of control and or management in a variety of national settings and to improve the basis of public policy so that future developments might be less distressing in consequence and more shaped to the desires of their host societies One vehicle for this enterprise is a series of international conferences on the Evolution and Dynamics of Large Technical Systems LTSs This series was instituted to encourage the coalescence of the multidisciplinary group of scholars who are actively engaging in the empirical study of these phenomena Their disciplines span history sociology political science and economics studies They come from Australia France the Netherlands Norway Sweden the United Kingdom the United States and West Germany And they possess strong backgrounds in the empirical study of specific technical areas and a taste for conceptual and theoretical integration

Moscow Stories Loren R. Graham, 2006-03-31 Graham has brilliantly encapsulated and interwoven the major features of Soviet and post Soviet history in his riveting stories a splendid and extraordinary work Edward Grant author of God and Reason in the Middle Ages A very lively read indeed a real page turner Graham s discussion of pressing ethical dilemmas displays a sureness of hand and a refreshing candor about his own struggles with the issues Susan Solomon University of Toronto The distinguished American historian of Russian and Soviet science Loren R Graham recounts with warmth and wit his experiences during 45 years of traveling and researching in the Soviet Union and post Soviet Russia from 1960 to 2005 Present for many historic events during this period Graham writes not as a political correspondent or an analyst but as an ordinary American living through these years alongside Russian friends and critics Graham befriended some of the leading scientists and politicians in Russia but his most touching stories concern average Russians with whom he lived worked suffered and exchanged views

Graham also writes of the ethical questions he confronted such as the tension between independence of thought and political loyalty Finally he depicts the ways in which Russia has changed visually politically and ideologically during the last 15 years These gripping sometimes humorous always deeply personal stories will engage and inform all readers with an interest in Russia during this tumultuous period of history *Strategic Surprise in the Age of Glasnost* David Thomas Twining, **The New Wizard War** Robyn Shotwell Metcalfe,1988 **American Military Policy in Small Wars** Andrew J.
