H. Goh, 1998 The book comprises a selection of the papers presented at an international conference on Meaning as Production The Role of the Unwritten held in Singapore in 1995 It takes textual analysis beyond the traditional boundaries of literary studies into a more culturally dynamic field of social semiotics rhetorical studies hermeneutics and theories of interpretation There are also essays that explore the issues with reference to canonical literary texts or authors **Paradoxical Citizenship** Silvia Nagy-Zekmi, 2008-01-01 In a collection of intriguing essays on the work of Edward Said internationally recognized scholars pay homage to the late critic by addressing many aspects of his oeuvre including his breakthrough *Orientalism* the role of the intellectual the Question of Palestine and finally his dramatic memoir *Out of Place* This volume is a useful contribution for classroom use as well as recreational reading for those interested in the work of this controversial thinker **Reading Song Lyrics** Glenn Fosbraey, 2025-08-05 This book will provide an exploration of how popular songs have been analysed in the past before detailing how an interdisciplinary approach is necessary to appreciate the multimodal format of the medium Beginning by examining what we can gain from staying inside the song it will explore the role the listener has in determining meaning within a song before moving on to how through their lyrics songwriters can persuade their audience to react in the desired ways Lyrical storytelling will also be analysed in terms of the narratives we find within individual songs but also through song sequences where the story spans multiple songs across different projects and also the concept album format As we move outside the song we see what can be offered in terms of cultural significance the difference between real events and their lyrical representations how the format we listen to music in influences our readings and to what extent visual materials affect our relationships with songs Annotated Chaucer bibliography Mark Allen, Stephanie Amsel, 2015-11-01 An extremely thorough expertly compiled and crisply annotated comprehensive bibliography of Chaucer scholarship between 1997 and 2010 Victorian Fetishism Peter Melville Logan, 2008-12-18 *Victorian Fetishism* argues that fetishism was central to the development of cultural theory in the nineteenth century From 1850 to 1900 when theories of social evolution reached their peak European intellectuals identified all primitive cultures with Primitive Fetishism a psychological form of self projection in which people believe everything in the external world thunderstorms trees stones is alive Placing themselves at the opposite extreme of cultural evolution the Victorians defined culture not by describing what culture was but by describing what it was not and what it was not was

fetishism In analyses of major works by Matthew Arnold George Eliot and Edward B Tylor Peter Melville Logan demonstrates the paradoxical role of fetishism in Victorian cultural theory namely how Victorian writers projected their own assumptions about fetishism onto the realm of historical fact thereby fetishizing fetishism The book concludes by examining how fetishism became a sexual perversion as well as its place within current cultural theory Signs, Solidarities, & Sociology Blasco José Sobrinho,2001-07-17 Signs Solidarities Sociology addresses the formation and fragmentation of identity in today s postmodern world Informed by the conceptual convergence in the theories of Durkheim Peirce Mead and Lacan this book surveys the range of twentieth century sociology to deconstruct those favored nostrums of subjective meaning personal power and autonomous selfhood that comprise its semantics of agency Revealed beneath this semantic screen is the triad of pragmatic codes premodern affiliation modern calibration and postmodern globalization that govern the social construction of the self While the ill comprehended confluence of these three signification codes in the present world situation can indeed fragment personal identity their formal structural linkages as shown in this book may inform a truly postmodern globally applicable science of culture

A Century of Travels in China Douglas Kerr,Julia Kuehn,2007-05-01 Writings of travelers have shaped ideas about an evolving China while preconceived ideas about China also shaped the way they saw the country A Century of Travels in China explores the impressions of these writers on various themes from Chinese cities and landscapes to the work of Europeans abroad From the time of the first Opium War to the declaration of the People s Republic China s history has been one of extraordinary change and stubborn continuities At the same time the country has beguiled scared and puzzled people in the West The Victorian public admired and imitated Chinese fashions in furniture and design gardens and clothing while maintaining a generally negative idea of the Chinese empire as pagan backward and cruel In the first half of the twentieth century the fascination continued Most foreigners were aware that revolutionary changes were taking place in Chinese politics and society yet most still knew very little about the country But what about those few people from the English speaking world who had first hand experience of the place What did they have to say about the real China To answer this question we have to turn to the travel accounts and memoirs of people who went to see for themselves during China s most traumatic century While this book represents the work of expert scholars it is also accessible to non specialists with an interest in travel writing and China and care has been taken to explain the critical terms and ideas deployed in the essays from recent scholarship of the travel genre

Absent Narratives, Manuscript Textuality, and Literary Structure in Late Medieval England E. Scala,2002-08-16 Absent Narratives is a book about the defining difference between medieval and modern stories In chapters devoted to the major writers of the late medieval period Chaucer Gower the Gawain poet and Malory it presents and then analyzes a set of unique and unnoticed phenomena in medieval narrative namely the persistent appearance of missing stories stories implied alluded to or fragmented by a larger narrative Far from being trivial digressions or passing curiosities these absent narratives prove central to the way these medieval works function and to why

they have affected readers in particular ways Traditionally unseen ignored or explained away by critics absent narratives offer a valuable new strategy for reading medieval texts and the historically specific textual culture in which they were written

Alterities in Asia Leong Yew, 2010-11-18 This book investigates the politics of identity in Asia and explores how different groups of people inside and outside Asia have attempted to relate to the alterity of the places and cultures in the region through various modes literary and filmic representation scholarly knowledge and so on and at different points in time Although coming from different perspectives like literary criticism film studies geography cultural history and political science the contributors collectively argue that Asian otherness is more than the dialectical interplay between the Western self and one of its many others and more than just the Orientalist discourse writ large Rather they demonstrate the existence of multiple levels of inter Asian and intercultural contact and consciousness that both subvert as much as they consolidate the dominant Western Core Asian periphery framework that structures what the mainstream assumes to be knowledge of Asia With chapters covering a wealth of topics from Korea and its Cold War history to Australia's Asian identity crisis this book will be of huge interest to anyone interested in critical Asian studies Asian ethnicity postcolonialism and Asia cultural studies Leong Yew is an Assistant Professor in the University Scholars Programme National University of Singapore He is the author of *The Disjunctive Empire of International Relations* 2003

The Politics of Integration Chloe Gill-Khan, 2017-10-19 After almost seven decades Britain and France nations with divergent political cultures and heirs to contrasting philosophies of integration have proclaimed the failure to integrate their post war ethnic minorities at this present time the Muslim The argument of this book therefore is a question despite the legal political and social commitments that emerged from the events of the Holocaust why do both nations continue to govern minorities on the sites of the law and race Through comparative readings of British Asian and Franco Maghrebian literatures the author examines the contours and patterns of British and French post war governance and racism over four decades Departing from prevailing theories in postcolonial studies that situate post war

racism within the narrative of colonialism or the politics of the nation state The Politics of Integration shows how we must re appraise the inter war histories of minorities if we are to ask more meaningful questions about the present We are invited to take stock of how well theorization of post war ethnic populations and their politics have served us in terms of asking what does history tell us and how and where do we Europe and its minorities go from here As such the book will appeal to scholars in multiple disciplines in the humanities and social sciences such as history philosophy literature cultural and postcolonial studies

The Victorian Diary Anne-Marie Millim, 2016-02-17 In her examination of neglected diaristic texts Anne Marie Millim expands the field of Victorian diary criticism by complicating the conventional notion of diaries as mainly private sources of biographical information She argues that for Elizabeth Rigby Eastlake Henry Crabb Robinson George Eliot George Gissing John Ruskin Edith Simcox and Gerard Manley Hopkins the exposure or publication of their diaries was a real possibility that they either coveted or feared Millim locates the diary at the intersection of the public and private spheres to show that well known writers and public figures of both sexes exploited the diary's self reflexive diurnal structure in order to enhance their creativity and establish themselves as authors Their object was to manage rather than to indulge or repress their emotions for the purposes of perfecting their observational and critical skills Reading these diaries as literary works in their own right Millim analyses their crucial role in the construction of authorship By relating these Victorian writers diaries to their publications and to contemporary works of cultural criticism Millim shows the multifarious ways in which diaristic practices emotional management and professional output corresponded to experiences of the literary marketplace and to nineteenth century codes of propriety

Contours of Culture Robbie B.H. Goh, 2005-03-01 This volume discusses the urban history and cultural landscape of Singapore in relation to theories of textual dialogics multiculturalism and the cultural and political unconscious Multidisciplinary in approach it takes as its data not only government policy and official discourses and the more quantitative elements of population census information on religion income race and nationality but also a wide range of related cultural discourses in film literature media texts social behaviour and other interventions and interpretations of the city The main parameters of Singapore's socio national construction public housing social elitism racial and linguistic plurality and their management colonial remnants and their transformation are explained and analysed in terms of Singapore's colonial past its rapid modernization and its current push to compete as a global city and tourist destination This multidisciplinary book should be of interest to a correspondingly wide readership including architects and urban planners political scientists cultural analysts and theorists colonial discourse scholars urban geographers and sociologists Asian studies specialists graduate and undergraduate students in the above areas and a general readership interested in cities and cultures This is a remarkable book By taking a series of readings of Singapore's urban culture it chronicles the emergence of a new city form which through the coming together of quite particular narratives of modernity nationhood and identity may well be providing a much more general spatial model for Asian cities Simultaneously it provides a gripping account of how to

read the possibilities and tensions that this model throws up Nigel J Thrift Oxford University Goh's theoretically sophisticated and creative analysis of Singapore's society space and culture and his brilliant critique of the city's official policies of self representation is a marvellous tour de force An astute urban semiotician and interpreter of cultural signs Goh draws on films figures and fiction to provide a fascinating reading of a city preparing for global competition Questions of ethnicity class sexuality national identity architecture and space are brought together in an imaginative as well as provocative exercise of symbolic explication and analysis Essential for studies of Asian urbanism and a model for students of the so called global city Anthony King State University of New York at Binghamton In *Contours of Culture* Robbie Goh has achieved what many specialists in cultural studies have attempted only metaphorically by successfully fusing the materiality of spatiality with the symbolic realm of cultural processes The result is an absorbing and nuanced interpretation of the meaning of the landscapes of Singapore where space serves as a text that reflects and reproduces the political cultures of a global city in a state of constant re invention David Ley University of British Columbia Canada
