Report of the Farmers' Institutes of British Columbia Farmers' Institutes of British Columbia,1903 Annual Report of the Department for the Year ... British Columbia. Department of Agriculture,1926 **Shaping the Metropolis** Zack Taylor,2019-05-23 Rising income inequality and concentrated poverty threaten the social sustainability of North American cities Suburban growth endangers sensitive ecosystems water supplies and food security Existing urban infrastructure is crumbling while governments struggle to pay for new and expanded services Can our inherited urban governance institutions and policies effectively respond to these problems In *Shaping the Metropolis* Zack Taylor compares the historical development of American and Canadian urban governance both at the national level and through specific metropolitan case studies Examining Minneapolis St Paul and Portland Oregon in the United States and Toronto and Vancouver in Canada Taylor shows how differences in the structure of governing institutions in American states and Canadian provinces cumulatively produced different forms of urban governance Arguing that since the nineteenth century American state governments have responded less effectively to rapid urban growth than Canadian provinces he shows that the concentration of authority in Canadian provincial governments enabled the rapid adoption of coherent urban policies after the Second World War while dispersed authority in American state governments fostered indecision and catered to parochial interests Most contemporary policy problems and their solutions are to be found in cities *Shaping the Metropolis* shows that urban governance encompasses far more than local government and that states and provinces have always played a central role in responding to urban policy challenges and will continue to do so in the future **Planning Canadian Regions** Gerald Hodge,Ira M. Robinson,2007-10-01 *Planning Canadian Regions* is the first book to consolidate the history evolution current practice and future prospects for regional planning in Canada As planners grapple with challenges wrought by globalization the evolution of massive new city regions and the pressures for sustainable and community economic development a deeper understanding of Canada s approaches is invaluable Hodge and Robinson identify the intellectual and conceptual foundations of regional planning and review the history and main modes of regional planning for rural regions economic development regions resource development regions and metropolitan and city regions They draw lessons from Canada s past experience and conclude by proposing a new paradigm addressing the needs of regional planning now and in the future emphasizing

regional governance greater inclusiveness and integration of physical planning with planning for economic sustainability and natural ecosystems Planning Canadian Regions will be a much needed text for students and teachers of regional planning and an indispensable reference for planning practitioners It will also find a receptive audience in such disciplines as urban planning environmental studies geography political science public administration and economics **OECD Green Growth Studies Compact City Policies A Comparative Assessment** OECD,2012-05-14 This report is thus intended as food for thought for national sub national and municipal governments as they seek to address their economic and environmental challenges through the development and implementation of spatial strategies in pursuit of Green Growth objectives

Policing Integration Chris Giacomantonio,2015-07-20 This book critically examines coordination work between police officers and agencies Police work requires constant interaction between police forces and units within those forces yet the process by which police work with one another is not well understood by sociologists or practitioners At the same time the increasing inter dependence between police forces raises a wide set of questions about how police should act and how they can be held accountable when locally based police officers work in or with multiple jurisdictions This rearrangement of resources creates important issues of governance which this book addresses through an inductive account of policing in practice Policing Integration builds on extensive fieldwork in a multi jurisdictional environment in Canada alongside a detailed review of ongoing research and debates In doing so this book presents important theoretical principles and empirical evidence on how and why police choose to work across boundaries or create barriers between one another

Situated Practices of Strategic Planning Louis Albrechts,Alessandro Balducci,Jean Hillier,2016-07-22 All over the world societies are facing a number of major problems New developments challenges and opportunities cause these issues and yet cases tell us that traditional spatial planning responses and tools are often insufficient to tackle these problems and challenges Situated Practices of Strategic Planning draws together examples from across the globe from France to Australia from Nigeria to the United States as it observes international comparisons of the strategic planning process Many approaches and policies used today fail to capture the dynamics of urban regional transformation and are more concerned with maintaining an existing social order than challenging and transforming it Stewarded by a team of highly regarded and experienced researchers this book gives a synthetic view of the process of change and frames future directions of development It is unique for its combination of analysis of international case studies and reflection on critical nodes and features in strategic planning This volume will be of interest to students who study regional planning academics professional planners and policy makers Changing on the Fly Courtney Szto,2020-10-16 Hockey and multiculturalism are often noted as defining features of Canadian culture yet rarely are we forced to question the relationship and tensions between these two social constructs This book seeks to inject more color into hockey s historically white dominated narratives by amplifying the voices of South Asian hockey participants **Metropolitan Governing** Eran Razin,Patrick J. bi-Yerushalayim. Halbert Centre for Canadian Studies, Israel Association for Canadian Studies, 2006-12-04 Metropolitan reforms have been implemented in Canada at a scale and frequency greater than anywhere else in the democratic world The cross national case studies provide a perspective on the role of different political systems and political cultures in determining the metropolitan governance agenda and the reforms undertaken revealing considerable similarities in the agenda and diversity in responses City Making in Paradise Ken Cameron, Mike Harcourt, 2009-12-01 Time and again Vancouver is recognized internationally as one of the best places to live It achieved that reputation by breaking rules and forging its own brand of North American urbanism City Making in Paradise details the nine most important decisions made in the Greater Vancouver region since the 1940s Authors Mike Harcourt and Ken Cameron themselves key players in several of these developments reveal the political machinations the ideological struggles and the personal commitment that lay behind each one By tracing today's successes back to their roots they illustrate their central theme that cities are the result of the daily choices we make as leaders activists and citizens *Geography of British Columbia, Third Edition* Brett McGillivray, 2011-01-01 Why is British Columbia unique within Canada What forces have made its landscape so rugged its population so diverse How have its resources been exploited and managed in the past and in the present Brett McGillivray adopts mainly a thematic rather than a regional approach to answer these questions Beginning with a regional overview and introduction to geographic concepts he then moves to discuss the physical processes that produced a spectacular variety of mountains lakes fjords forests and minerals His thematic exploration traces the province's historical geography including First Nations lifeways colonization Asian immigration and institutionalized racism Detailed accounts of BC's economic geography forestry fisheries mining energy supply and demand agriculture water and tourism culminate in a discussion of contemporary issues such as urbanization economic development and resource management This fully revised edition is enhanced by updated figures maps and graphs and by new discussions including how globalization climate change and recession are influencing the province and its people *A Bounded Land* Cole Harris, 2020-11-01 Canada is a country of bounded spaces a nation situated between rock and cold to the north and a political border to the south In *A Bounded Land* Cole Harris seeks answers to a sweeping question How was society reorganized for Indigenous and non Indigenous people alike when Europeans resettled this distinctive land Through a series of vignettes that focus on people's experiences on the ground Harris exposes the underlying architecture of settler colonialism as it grew and evolved from the first glimpses of new lands and peoples to the immigrant experience in early Canada to the dispossession and resettlement of First Nations in British Columbia By considering the whole territory that became Canada over 500 years and focusing on sites of colonial domination rather than settler texts Harris unearths fresh insights on the continuing and growing influence of Indigenous peoples and argues that Canada's boundedness is ultimately drawing the country toward its Indigenous roots *Politics, Policy, and Government in British Columbia* R. Kenneth Carty, 1996-09-23 Politics Policy and Government in British Columbia

examines the political life of Canada's dynamic Pacific province. Each of the seventeen chapters written by well-known experts provides an up-to-date portrait and analysis of one of the many faces of B.C. politics. Taken together, they provide a clear and comprehensive overview of the dominant themes and issues that have been the distinguishing features of the province's political life. Key elements of the book include sections on the political setting with discussions of B.C.'s political culture and economy and its relations with the rest of Canada and its own Native communities; B.C. style politics which focus on electoral and parliamentary party politics; the changing place of women in B.C. public life and the critical role of the media in explaining it all to British Columbians; governing the province with accounts of the premier and cabinet; the bureaucracy that delivers most government services and the complex system from the police to the courts that provides the administration of justice and the rule of law; and contemporary policy issues with clear explanations of the intricacies of fiscal and social policy. Analyses of recent conflicts over forest policy and environmental protection, a discussion of the role of lobbyists, and an examination of what difference is made when NDP governments are elected. Anyone interested in B.C. or its politics will find this book an informative up-to-date record of the processes and events that have marked B.C.'s past and will continue to shape its future.
