Myanmar Dilemmas And Options The Challenge Of Economic Transition In The 1990s:

Myanmar Dilemmas and Options Mya Than, 1990 The political upheavals in the Union of Myanmar in 1988-89 precipitated many changes in the political, social and economic sectors. The country is now at a critical crossroad in its history and development. This study on Myanmar's options in terms of restructuring its economy is therefore useful and timely. The papers in this volume attempt to identify the major issues concerning the role of the state and economic management, the new directions in resource, agricultural and industrial development and the challenges arising from the opening up of the economy to the stimuli of external trade and capital movements. *Burma's Economy in the Twentieth Century* Ian Brown, 2013-11-07 An incomparable introduction to Burma's political and economic history written by one of the premier economic historians of Southeast Asia. Financial Resources for Development in Myanmar Myat Thein, 2000 Much attention has been paid to the increasingly substantial inflows of foreign direct investment into Myanmar since the country opened its doors to overseas investors in late 1988. In addition to bringing capital in the form of cash, such investment has also introduced new technology, training and skills, business and management acumen as well as various other inputs that Myanmar undoubtedly requires if the country is to develop. However, there is a growing realization that FDI inflows alone will not enable the country to meet the ambitious economic growth targets. As evidenced by the Asian Tiger economies, there is also a need for considerable amounts of domestic capital and in order to attain substantial levels of domestic investment, a system of domestic savings vehicles that the state and industry can harness must be developed. Hence, this volume seeks to examine ways in which domestic savings and investment capital can be encouraged and increased. The contributors include not only Myanmar economists and policy makers but also experts from ASEAN and Japan who share their experiences.

India--Myanmar Relations Rajiv Bhatia, 2015-08-11 This book provides a comprehensive evaluation of India's multifaceted relations with Myanmar. It unravels the mysteries of the complex polity of Myanmar as it undergoes transition through democracy after long military rule. Based on meticulous research and understanding, the volume traces the trajectory of India-Myanmar associations from ancient times to the present day and offers a fascinating story in the backdrop of the region's geopolitics. An in-depth analysis of India-Myanmar-China Triangle brings out the strategic stakes involved. It will be of great interest to researchers and scholars of international relations, peace and conflict studies, defence and strategic studies, politics, South and Southeast Asian studies as well as policy makers and political think tanks. Industrial and Trade Policy Reform in Developing Countries Ramesh Adhikari, Colin H. Kirkpatrick, John Weiss, 1992 **Regional Community Building in East Asia** Lee Lai To, Zarina Othman, 2016-09-01 This volume is a collection of papers written by nationals or former nationals of the respective country in ASEAN and Northeast Asia. Unlike other works written by scholars outside ASEAN or East Asia, it offers an insider's point of view of the 10 ASEAN states, China, Japan and South Korea on regional community building. While a nationalist perspective may permeate throughout the study, it is also clear that pursuing regional

cooperation is considered to be important by the respective author denoting the non exclusivity between nationalism and regionalism and the mutual reinforcement of the two Each author of this volume has made a deliberate effort to introduce and survey the developmental challenges and experiences of his or her country from a historical perspective All authors without exception have emphasized the importance and advantages in staying with ASEAN or linking up with ASEAN by China Japan and South Korea in political security economic and socio cultural terms Their papers also reveal that the self help and self strengthening mechanism emphasized by the ASEAN Plus Three process will take time to bear fruits In the meantime it seems that bilateral interactions and cooperation between ASEAN and Northeast Asian states remain to be more dominant as shown in this study One can argue that bilateral interactions are the building block of multilateralism interactions To be sure there is a deliberate effort in this study to highlight unity in diversity in East Asia in general and ASEAN in particular

The State in Myanmar Robert H. Taylor, 2009 *State Dominance in Myanmar* Tin Maung Maung Than, 2007 Focuses on the state s efforts to industrialize Myanmar first through direct intervention and planning under a socialist economic framework as interpreted by the state leaders 1948 88 and lately 1989 onwards through state managed outward orientation *Developmental States* Linda Low, 2004 As the Asian crisis triggered or precipitated the meltdown a second objective is to explore the reasons and factors for the breakdown or redundancy of developmental states distinguishing between domestic transformative capacity and external global factors as identified A third objective is to cull experiences and lessons beyond East Asia With many transition economies in Central and Eastern Europe beside China and Indochinese states the theory and practice of developmental states may be a useful bridge These are by no means exhaustive and comprehensive aims questions and issues For individual developmental states covered in this volume country specific lessons may also be drawn for them to be reconfigured to stay relevant The most important consideration for this volume is to value add to the literature both the theory and principles of the Asian developmental state as well as empirical observations observed elsewhere This volume comprises 13 chapters in two parts *Burma* P. Carey, 1997-07-28 An up to date collection of essays by leading academics and Burma specialists covering some of the key economic ethnic political and social problems which currently confront Burma The book is divided into four parts Politics and Constitution Making Foreign Policy Views from the Periphery and the Challenges of Development Peter Carey s introduction provides a useful historical background and assesses the political prospects for Aung San Suu Kyi s National League for Democracy following her 1995 release

Fiery Dragons Sean Turnell, 2009 This book tells the story of Burma's financial system of its banks moneylenders and microfinanciers from colonial times to the present day It argues that Burma's financial system matters and that the careful study of this system can tell us something more general about Burma not least about how the richest country in Southeast Asia at the dawn of the twentieth century became the

poorest at the dawn of the twenty first While financial systems and institutions matter in all countries Turnell argues that they especially count in Burma as events in the financial and monetary sphere have been unusually spectacularly prominent in Burma s turbulent modern history The story of Burma s financial system and its players is one that has shaped the country It is a dramatic story of interest beyond the confines of economics and development studies **New Tigers and Old**

Elephants Carl F. Horowitz,2019-01-22 Which factors identify winners tigers in the development game and which characterize losers elephants are described in this approach to understanding economic development in a post cold war environment *Foreign Investment in Southeast Asia in the Twentieth Century* J. Lindblad,1998-01-14 This monograph is the first book length study of foreign direct investment in Southeast Asia during both the late colonial period and in the contemporary period It examines the leading Southeast Asian countries receiving foreign investment this century The arrival of today s Asian investors from Japan and the four Asian NICs is described after a brief discussion of the transitionary period of warfare decolonization and assertion of newly independent states Special attention is given to the impact of foreign investment on the economic development of the host country *Promoting Human Rights in Burma* Morten B.

Pedersen,2008 Since 1988 when Burma s military rulers crushed a popular uprising Western governments have promoted democracy as a panacea for the country s manifold development problems Morten B Pedersen argues that Western democracy rhetoric has not supplied the solution to these problems Based on extensive field research *Promoting Human Rights in Burma* proposes an alternative model of critical engagement that emphasizes more pragmatic efforts to help bring a deeply divided society together and promote socioeconomic development as the basis for longer term political change

East Asian Dynamism Steve Chan,2019-03-08 East Asian Dynamism continues to offer a succinct account of Pacific regional political economy from the dawn of the modern world system to projections of alternative futures Steve Chan is a master at demystifying the geography history and culture of the region while bringing to life the current policy choices and dilemmas facing its people Political Corruption and Political Geography Peter J. Perry,2018-12-20 First published 1997

this volume examines the way in which political corruption remains neglected as a matter of scholarly enquiry and research There is still a powerful and traditional taboo which is quite out of the step with the topic s real world significance and the increasing attention it receives from serious sections of the media The book aims by systematic exposition and case study to break down that taboo and to demonstrate the topic s importance within a framework provided by the discipline of geography The novelty of the book is then that it considers a formerly unconsidered factor corruption as part of the world s geography as both part of the geographical context in which human activity takes place and as a spatially variable condition explicable at least in part in terms of other geographies The conclusion is that much geographical scholarship ignores this factor at the risk of its credibility **The Emergence of Modern Southeast Asia** David P. Chandler,Norman G.

Owen,William R. Roff,David Joel Steinberg,Jean Gelman Taylor,Robert H. Taylor,Alexander Woodside,David K.

Wyatt,2004-11-30 **Myanmar (Burma) since 1962: the Failure of Development** Peter John Perry,2021-02-27 Why has Myanmar Burma a country rich in resources rice timber minerals descended to least developed country status Is the explanation to be found inside Burma or beyond Is the failure of development due to political authoritarianism and conflict Or perhaps the drugs trade is partly to blame This book contends that all these factors have contributed But it also maintains that the mismanagement of the country s resources is of equal or even greater importance A clear answer to the question of Burma s developmental failure is sought by focussing upon the misuse of resources in concert with those factors that are more usually emphasized
