Mystic Moderns James H. Thrall, 2020-01-21 Mystic Moderns examines the responses of three British authors Evelyn Underhill 1875-1941 May Sinclair 1863-1946 and Mary Webb 1881-1927 to the emerging modernity of the long early twentieth-century moment encompassing the First World War As they explored divergent but overlapping understandings of what mystical experience might be these authors rejected claims that modernity's celebration of the secular and rational left no place for the mystical rather they countered sensitivity to a greater reality could both establish and validate personal agency and was integral to their identities as modern women Their preoccupations with the dynamism of human connection drew on prevailing ideas of vital energy or life force developed by Arthur Schopenhauer and Henri Bergson in ways that channeled modernity's erotic energy of change By using their

fiction to describe new self authenticating forms of mysticism separate from either the prevailing orthodoxy of establishment Christianity or the extreme heterodoxy of their era s enthusiasm for paranormal experimentation they also contributed to the rise of a generic concept of spirituality Mystic Moderns thus offers historical perspective on contemporary claims for self constructed non institutional spiritual experience associated with the claim I m spiritual not religious Working as they did within the shadow of the First World War Underhill Sinclair and Webb were in the end attempting to determine what might be of authentic value for a modern age marked by ubiquitous death While not themselves utopian authors each was touched by her era s complicated hunger for the best of all possible worlds Their constructions of how an individual should be and act in the midst of modernity thus simultaneously projected visions of what that modernity itself should become

Jung the Mystic Gary Lachman,2010-06-24 This bold compact new biography of Carl Jung fills a gap in our understanding of the pioneering psychiatrist by focusing on the occult and mystical dimension of Jung s life and work a critical but frequently misunderstood facet of his career Although he is often called the

founding father of the New Age Carl Jung the legendary Swiss psychiatrist best known for his groundbreaking concepts like the collective unconscious archetype theory and synchronicity often took pains to avoid any explicit association with mysticism or the occult Yet Jung lived a life rich in paranormal experiences arguing for the existence of poltergeists in a debate with Sigmund Freud participating in sances incorporating astrology into his therapeutic work reporting a near death experience and collaborating with the pioneering ESP researcher J B Rhine It is these critical experiences often fleetingly touched on in other biographies or critical studies and just as frequently used to make a case against Jung and his philosophies that form the core of this exciting new biography Jung the Mystic While Jung s ghostwritten memoirs *Memories Dreams Reflections* touch on the role his mystical and occult experiences played in his life Gary Lachman s *Jung the Mystic* completes the circle Lachman assesses Jung s life and work from the viewpoint of Western esoteric tradition and helpfully places Jung in the context of other major esoteric thinkers such as Rudolf Steiner G I Gurdjieff and Emanuel Swedenborg In that respect this new biography appeals directly to the sensibility of spiritual readers who rightly see Jung as a pioneer of today s contemporary metaphysical culture Neue metaphysische rundschau ,1910 **The Quest** ,1910 *The Mystic Way in Postmodernity* Sue Yore,2009 This book challenges experiential esoteric and colloquial understandings of mysticism by bringing a fresh relevance to the term through an interdisciplinary dialogue between literature mysticism and theology in the context of postmodernity In order to achieve this the author takes selected writings of Iris Murdoch Denise Levertov and Annie Dillard and incorporates them into various stages of a redesigned mystic way The fourteenth century mystic Julian of Norwich is invoked throughout as a role model whom these three writers seek to emulate as popular writers contemplatives and theologians As theologians who are concerned with the pressing issues of our age Grace Jantzen Dorothee Soelle and Sallie McFague are drawn on as conversation partners to complete the three way discussion The author maintains that understanding the writing and reading of creative texts in the context of practical mysticism facilitates an integrated approach to the use of literature for theological expression *The Soul of Higher Education* Margaret Benefiel,Bo Karen Lee,2019-05-01 The Soul of Higher Education Contemplative Pedagogy Research and Institutional Life for the Twenty first Century contributes to an understanding of the importance and implications of a contemplative grounding for higher education It is the sixth in a series entitled *Advances in Workplace Spirituality Theory Research and Application* which is intended to be an authoritative and comprehensive series in the field This volume consists of chapters written by noted scholars from both Eastern and Western traditions that shed light on the following questions What is an appropriate epistemological grounding for contemplative higher education How does the current dominant epistemology in higher education mitigate against contemplative teaching learning and research What alternatives can be offered How can a contemplative culture be nurtured in the classroom What difference does that culture make in teaching and learning What is the role of individual and institutional leadership in creating and sustaining this culture What is contemplative research How

can the emerging field of contemplative studies fit into the twenty first century university What can faculty and students learn from contemplative practices about how to find peace of mind in a world of higher education characterized by increasing complexity financial pressures and conflicts What does a contemplative organizational structure look like in higher education How can committees faculty meetings and administrative teams use contemplative practices to work more effectively together How can contemplative decision making processes be used in higher education Given hierarchies turf wars and academics propensity for using argument as a weapon is it possible to introduce contemplative practices into decision making situations in appropriate ways The Oxford Handbook of Philosophy of Religion William

Wainwright,2004-12-16 The Oxford Handbook of Philosophy of Religion contains newly commissioned chapters by 21 prominent experts who cover the field in a comprehensive but accessible manner Each chapter is expository critical and representative of a distinctive viewpoint **A Companion to Jesuit Mysticism** Robert Aleksander Maryks,2017-03-06 In A Companion to Jesuit Mysticism Robert A Maryks provides thirteen unique essays discussing the Jesuit mystical tradition a somewhat neglected aspect of Jesuit historiography that stretches as far back as the order s co founder Ignatius of Loyola his spiritual visions at Manresa and ultimately the mystical perspective contained in his Spiritual Exercises The volume s contributions on the most significant representatives of the Jesuit mystical tradition from Baltasar lvarez to Louis Lallemant to Hugo Makibi Enomiya Lassalle aim to fill this lacuna in Jesuit historiography Although intended primarily as a handbook for scholars seeking to further their own research in this area the volume will undoubtedly be of interest to scholars and students of Jesuit studies more broadly **Holiness: The Soul of Quakerism** Carole Dale Spencer,2007-12-01 No single word conjures up religion spirituality or the sacred more than holiness Yet its meaning in Christian theology and application in Christian practice has been greatly misunderstood Few Quakers today of any persuasion would recognize the mystical depth of meaning the concept had for Quakers down through the centuries Holiness The Soul of Quakerism recovers the essential place of holiness theology in three centuries of Quaker history It explores how Quaker spirituality was shaped in its inception by the experience of union with God otherwise known in the Christian tradition as perfection and examines selected figures from Quaker history who represent different emphases of holiness in the context of their time and culture
