Mystical Experience and Religious Doctrine Philip C. Almond, 2015-02-06 No detailed description available for Mystical Experience and Religious Doctrine    *Mysticism in Religion* Rev. W.R. Inge, 1948    *Mysticism in World Religion* Sidney Spencer, 1966    A Treasury of Mystic Terms John Davidson (M.A.), 2003    **Mysticism and Religious Traditions** Steven T. Katz, 1983    *Studies in Religious Mysticism* Santosh Thomas, 2005 This Book Is An Introductory Study Of Mysticism In The Christian Religion It Should Be Suitable For Both General Readers And College Undergraduates It Provides Both A Theory Of Mysticism And Surveys Of Its Main Contours In Buddhism And Traditional Religious Cultures It Also Suggests How Readers May Understand And Appreciate What Mysticism Implies For Their Own Lives    Mysticism: A Guide for the Perplexed Paul Oliver, 2009-09-01 Mysticism is one of the most enduring and fascinating aspects of religious life and one of the most difficult to unpick It has over the centuries inspired many of the leading figures in different faiths to seek a sense of union with God or with the spiritual forces in the universe and is increasingly part of the spiritual mainstream Designed for students grappling with this complicated area this book enables readers to understand the nature of mysticism and to examine in detail the traditional methods used by mystics in seeking an intimate understanding of the spiritual world Including a detailed survey of mystical trends within all the main world religions and case studies of the lives of important mystics *Mysticism A Guide for the Perplexed* also examines the nature of the mystical lifestyle and the extent to which ordinary people can develop a sense of personal mysticism    *Teaching Mysticism* William B. Parsons, 2011-12-16 The term mysticism has never been consistently defined or employed either in religious traditions or in academic discourse The essays in this volume offer ways of defining what mysticism is as well as methods for grappling with its complexity in a classroom This volume addresses the diverse literature surrounding mysticism in four interrelated parts The first part includes essays on the tradition and context of mysticism devoted to drawing out and examining the mystical element in many religious traditions The second part engages traditions and religio cultural strands in which mysticism is linked to other terms such as shamanism esotericism and Gnosticism The volume s third part focuses on methodological strategies for defining mysticism with respect to varying social spaces The final essays show how contemporary social issues and movements have impacted the meaning study and pedagogy of mysticism *Teaching Mysticism* presents pedagogical reflections on how best to communicate mysticism from a variety of institutional spaces It surveys the broad range of meanings of mysticism its utilization in the traditions the theories and methods that have been used to understand it and provides critical insight into the resulting controversies    **Mysticism** , 2021-09-06 Although very different and coming from a range of academic backgrounds the contributors are nevertheless united in their attempts to understand more about mysticism from a perspective that puts the human being in the center    **Leibniz, Mysticism and Religion** A.P. Coudert, R.H. Popkin, G.M. Weiner, 2013-04-17 Some scholars in the history of ideas have had a growing interest in examining Leibniz s many

discussions of various aspects of religion Christian Jewish and far eastern Leibniz with his voracious interest and concern for so many aspects of human intellectual and spiritual life read a wide variety of books on the various religions of mankind He also was in personal contact with many of those who espoused orthodox and non orthodox views He annotated his copies of many books on religious subjects And he was working on schemes for reuniting the various Catholic and Protestant churches in Europe Studies on Leibniz's views on Judaism on the Kabbalah on Chinese thought have been appearing over the last decades It was decided by some of us that since there has been a growing interest in this side of Leibniz's thought it would be a good idea to bring together a group of scholars working on different aspects of Leibniz's views on religion mysticism and spiritualism in order to have them present papers on their current researches and to have the opportunity for lengthy discussion formal and informal in the most pleasant academic ambiance of the William Andrews Clark Library in Los Angeles Under the sponsorship of the UCLA Center for Seventeenth and Eighteenth Century Studies a workshop conference was held November 18 19 1994

**Mysticism in the World's Religions** Geoffrey Parrinder, 1976 This wide ranging book covers all the major religious traditions while exploring monistic and theistic mysticism and such key issues as altered states of consciousness sex and visionary experiences

**The Cambridge Companion to Christian Mysticism** Amy Hollywood, Patricia Z. Beckman, 2012-09-17 The Cambridge Companion to Christian Mysticism is a multi authored interdisciplinary guide to the study of Christian mysticism with an emphasis on the third through the seventeenth centuries The book is thematically organized in terms of the central contexts practices and concepts associated with the mystical life in early medieval and early modern Christianity This book looks beyond the term mysticism which was an early modern invention to explore the ways in which the ancient terms mystic and mystical were used in the Christian tradition what kinds of practices modes of life and experiences were described as mystical What understanding of Christianity and of the life of Christian perfection is articulated through mystical interpretations of scripture mystical contemplation mystical vision mystical theology or mystical union This volume both provides a clear introduction to the Christian mystical life and articulates a bold new approach to the study of mysticism

**The Essentials of MYSTICISM** Evelyn Underhill, 2020-04-28 Evelyn Underhill was one of the greatest spiritual writers of the twentieth century Her legacy as a pivotal figure in Christian mysticism endures today For her true mysticism is first of all active and practical an organic life process in which the whole self is engaged rather than simply an intellectual apprehension Underhill's essays on the topic merits a reexamination since it is still used in most courses that explore the experience of God called mysticism and still attracts contemporary spiritual seekers Excerpt What are the true essentials of mysticism When we have stripped off those features which some mystics accept and some reject all that is merely due to tradition temperament or unconscious allegorism what do we find as the necessary and abiding character of all true mystical experience This question is really worth asking For some time much attention has been given to the historical side of mysticism and some much less to its practice But there has been no clear

understanding of the difference between its substance and its accidents between traditional forms and methods and the eternal experience which they have mediated In mystical literature words are frequently confused with things and symbols with realities so that much of this literature seems to the reader to refer to some self consistent and exclusive dream world and not to the achievement of universal truth Thus the strong need for re statement which is being felt by institutional religion the necessity of re translating its truths into symbolism which modern men can understand and accept applies with at least equal force to mysticism It has become important to disentangle the facts from ancient formulae used to express them Contents THE ESSENTIALS OF MYSTICISM THE MYSTIC AND THE CORPORATE LIFE MYSTICISM AND THE DOCTRINE OF ATONEMENT THE MYSTIC AS CREATIVE ARTIST THE EDUCATION OF THE SPIRIT THE PLACE OF WILL INTELLECT AND FEELING IN PRAYER THE MYSTICISM OF PLOTINUS THREE MEDIAEVAL MYSTICS I THE MIRROR OF SIMPLE SOULS II THE BLESSED ANGELA OF FOLIGNO III JULIAN OF NORWICH MYSTICISM IN MODERN FRANCE I SOEUR TH R SE DE L ENFANT J SUS II LUCIE CHRISTINE III CHARLES P GUY      **Phenomenology and Mysticism**

Anthony J. Steinbock, 2009-12-22 Exploring the first person narratives of three figures from the Christian Jewish and Islamic mystical traditions St Teresa of Avila Rabbi Dov Baer and R zbih n Baql Anthony J Steinbock provides a complete phenomenology of mysticism based in the Abrahamic religious traditions He relates a broad range of religious experiences or verticality to philosophical problems of evidence selfhood and otherness From this philosophical description of vertical experience Steinbock develops a social and cultural critique in terms of idolatry as pride secularism and fundamentalism and suggests that contemporary understandings of human experience must come from a fuller more open view of religious experience      *Mysticism in Religion* Wr Inge, 2017-08-24 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant      *Mysticism in Judaism, Christianity, and Islam* Ori Z. Judaism Christianity and Islam traces the sweep of mysticism\_ the search for oneness with God\_ throughout the three Abrahamic traditions Beginning with a definition of mysticism and a discussion of its place within religion as a whole Ori Z Soltes explores the      **A New Vision of Reality** Bede Griffiths, 1990 The author invites us to look afresh at Christianity in

the context of modern physics on the one hand and Eastern mysticism on the other Scientists now acknowledge that quantitative enquiry can reveal only one aspect of reality and to come to terms with a much deeper transcendent reality we must also be prepared to learn from Eastern traditions The Western machanistic model of the universe dating from the time of Galileo and Newton must now be replaced with a new organic model this marks a return to the ancient traditional wisdom in which the universe was seen to consist not only of a physical dimension but also of psychological and spiritual dimensions all of which are interrelated and interdependent In exploring the divine mystery behind human life the author seeks to discover the basic unity which underlies all religion and discusses the concept of the Cosmic Person or Cosmic Lord as revealed in Christianity Hinduism Buddhism and Islam He concludes that a radical vision of a new society and a universal religion in which the essential values of Christianity will be preserved in living relationship with the other religious traditions of the world

**Religion and Reality, a Study in the Philosophy of Mysticism** James Henry Tuckwell,1915      **The Wiley-Blackwell Companion to Christian Mysticism** Julia A. Lamm,2012-08-29 The Wiley Blackwell Companion to Christian Mysticism brings together a team of leading international scholars to explore the origins evolution and contemporary debates relating to Christian mystics texts and the movements they inspired Provides a comprehensive and engaging account of Christian mysticism from its origins right up to the present day Draws on the best of current scholarship by bringing together a collection of newly commissioned readings by leading scholars Considers examples of mysticism in both Eastern and Western Christianity Offers a brilliant synthesis of the key figures and historical periods of mysticism its core themes such as heresy gender or aesthetics and its theoretical considerations including theological literary social scientific and philosophical approaches Features chapters on current debates such as neuroscience and mystical experience and inter religious dialogue

**Signposts to Silence** J.S. Krüger,2018-12-01 Signposts to Silence provides a theoretical map of what it terms metaphysical mysticism the search for the furthest most inclusive horizon the domain of silence which underlies the religious and metaphysical urge of humankind in its finest forms Tracing the footsteps of pioneers of this exploration the investigation also documents a number of historical pilgrimages from a variety of cultural and religious backgrounds Such mountaineers of the spirit who created paths trodden by groups of followers over centuries and in some cases millennia include Lao Tzu and Chuang Tzu Siddhattha and Jesus Sankara and Fa tsang Plato and Plotinus Isaac Luria and Ibn Arabi Aquinas and Hegel Such figures teachings and traditions including the religions of Judaism Christianity and Islam Hinduism Buddhism and Taoism are understood as at their most sublime not final destiny and the end of the road but signposts to a horizon of ultimate silence The hermeneutical method employed in tracking such pioneers involves four steps sound historical critical understanding of the context of the various traditions and figures reconstruction of the subjective intentional structure of such persons and their teachings design by the author of a theoretical map of the overall terrain of metaphysical mysticism on which all such journeys of the spirit are to be located while providing a theoretical context for

understanding them tendentially i.e. taking the ultimate drift of their thinking essentially to transcend their subjective intentions drawing out within the space available some political taken in a wide sense implications from the above such as religio political stances as well as ecological and gender implications Continuing the general direction of thought within what the author endorses to be the best in metaphysical mysticism in its historical manifestations the book aims to contribute to peace amongst religions in the contemporary global cultural situation It relativizes all claims to exclusive absolute truth that might be proclaimed by any religious or metaphysical mystical position while providing space for not only tolerating but also affirming the unique value and dignity of each This orientation moves beyond the stances of enmity or indifference or syncretism or homogenisation of all as well as that of mere friendly toleration It investigates the seemingly daunting and inhospitable yet immensely significant Antarctica of the Spirit the meta space of silence behind the various forms of wordy inter relationships It affirms *pars pro toto totum pro parte* and *pars pro parte* that each religious mystical and metaphysical orientation in its relative singularity represents or contains the whole and derives value from that and that each represents or contains every other This homoversal solidarity stimulating individual uniqueness is different from and in fact implies criticism of the process of globalisation While not taking part in a scientific argument as such Signposts to Silence aims at promoting an understanding of science and metaphysical mysticism as mutual context for each other and it listens to a number of voices from the domain of science that understand this
