Nudist On The Late Shift And Other True Tales Of Silicon Valley:

The Nudist on the Late Shift Po Bronson, 2000 The True Story Of The Greatest Legal Creation Of Wealth In The History Of The World And The People Making It Happen Masses Of Entrepreneurs And Tech Wizards Immigrants And Investors Dreamers And Visionaries Are Heading West To Seek Their Fortune Their Mecca Is Silicon Valley Where One Person Can Achieve So Much With Just Initiative Talent And A Good Idea It Is A Mad Fertile Time In Superachiever Land Meet David Filo Co Founder Of Yahoo And Worth Over 500 Million Who Still Sleeps Under His Desk One Night A Week Meet The 26 Year Old Who Is Already On His Fifth Start Up Venture Meet The Man With The Biggest Brain In The World Meet The Nudist Who Works The Late Shift **The Golden Tap - The Inside Story of Hyper-Funded Indian Start-Ups** Kashyap Deorah, 2015-11-16 Ever wondered why global investors are willing to write million dollar cheques to young and inexperienced entrepreneurs Why companies are no longer judged on their ability to make profits Why the valuation of a startup can dwarf that of its well established counterpart Is it a bubble Or have the rules of the game changed Can these hyper funded technology driven companies become global superpowers Or is it an unsustainable phenomenon The Golden Tap gives you the answers In a remarkably honest no holds barred account Kashyap himself a serial entrepreneur demystifies the technology ecosystem that exists in India today From the origins of Amazon and Google to the remarkable growth of Flipkart and Ola he meticulously plots and chronicles a connected global sequence of events Set in this background he recounts his personal roller coaster of a life A story filled with ambition greed vanity fear and success that all young entrepreneurs can relate to Is this the business model of the future Or merely a game of poker played by master investors The answers pour out of The Golden Tap The Good Temp Vicki Smith, Esther B. Neuwirth, 2010-08-20 Temporary agencies place approximately two and a half million people in jobs each day in the United States Every year about twelve million people use these placement agencies to find temporary work Many Americans even those who desire permanent jobs decide to enter the labor market through the portal of temporary agencies Compared with the post World War II era when it was a marginal labor practice temporary employment is today an entrenched feature of jobs and labor markets How have temporary employment relationships become so widespread and normalized In The Good Temp Vicki Smith and Esther B Neuwirth provide some novel answers to this question Their provocative analysis is based on an insider's view of the interior dynamics of a temporary help agency in Silicon Valley It incorporates a historical perspective on the rise of the temporary help service industry Smith and Neuwirth document how this powerful industry not only created a new market for temporary labor but also played a fundamental role in the erosion of the permanent employment model They analyze how agencies themselves came to manufacture and market this reinvented product the good temp an employee who is effective and efficient committed and sometimes preferable to a permanent staff member Joining extensive participant observation data with historical analysis The Good Temp contains some surprising findings about temporary employment today and fills a

significant gap in our understanding of this important labor relationship **eBoys** Randall E. Stross,2001-03-01 In eBOYS Randall Stross takes us behind the scenes and inside the heads of the gutsy entrepreneurs who are financing the hottest businesses on the Web The six tall men who started Benchmark Silicon Valley s most exciting venture capital firm put themselves at the cutting edge of the new economy by backing billion dollar start ups like eBay and Webvan The risks were enormous but the rewards have proven to be staggering Within two years eBay s net worth grew from 20 million to more than 21 billion while each Benchmark founding partner saw his own personal net worth soar by hundreds of millions of dollars For two roller coaster years Stross had total access not only to Benchmark s executives but to the companies they financed He was a fly on the wall as fortunes were made in an instant snap decisions got locked in and new ventures took off and sometimes crashed Here are the testosterone pumped conversations round the clock meetings and gutsy deals that launched the eBoys and their clients into the stratosphere of mega wealth Written like a novel but absolutely true eBOYS brings to vivid life the glory days of the greatest business adventure of our time **Our Virtual World: The**

Transformation of Work, Play and Life via Technology Chidambaram, Laku,Zigurs, Ilze,2000-07-01 Today s new technologies are dramatically changing the way we work play and live Our Virtual World The Transformation of Work Play and Life via Technology investigates the ubiquity of the virtual environment and our evolving interactions in this changed context *Sea Narratives: Cultural Responses to the Sea, 1600-Present* Charlotte Mathieson,2016-06-07 Sea Narratives

Cultural Responses to the Sea 1600 Present explores the relationship between the sea and culture from the early modern period to the present The collection uses the concept of the sea narrative as a lens through which to consider the multiple ways in which the sea has shaped challenged and expanded modes of cultural representation to produce varied contested and provocative chronicles of the sea across a variety of cultural forms within diverse socio cultural moments Sea Narratives provides a unique perspective on the relationship between the sea and cultural production it reveals the sea to be more than simply a source of creative inspiration instead showing how the sea has had a demonstrable effect on new modes and forms of narration across the cultural sphere and in turn how these forms have been essential in shaping socio cultural

understandings of the sea The result is an incisive exploration of the sea s force as a cultural presence **The Burdens of Aspiration** Elsa Davidson,2011-08-22 During the tech boom Silicon Valley became one of the most concentrated zones of wealth polarization and social inequality in the United States a place with a fast disappearing middle class persistent pockets of poverty and striking gaps in educational and occupational achievement along class and racial lines Low wage workers and their families experienced a profound sense of exclusion from the techno entrepreneurial culture while middle class residents witnessing up close the seemingly overnight success of a new entrepreneurial class negotiated both new and seemingly unattainable standards of personal success and the erosion of their own economic security The Burdens of Aspiration explores the imprint of the region s success driven public culture the realities of increasing social and economic insecurity

and models of success emphasized in contemporary public schools for the region's working and middle class youth. Focused on two disparate groups of students: low income at-risk Latino youth attending a specialized program exposing youth to high tech industry within an underperforming public high school and middle income white and Asian students attending a high performing public school with informal connections to the tech elite. Elsa Davidson offers an in-depth look at the process of forming aspirations across lines of race and class. By analyzing the successes and sometimes unanticipated effects of the schools' attempts to shape the aspirations and values of their students, she provides keen insights into the role schooling plays in social reproduction and how dynamics of race and class inform ideas about responsible citizenship that are instilled in America's youth.

Decoding the World Po Bronson, Arvind Gupta, 2020-10-06 Find out where our world is headed with this dazzling first-hand account of inventing the future from the 1 New York Times bestselling author of *What Should I Do With My Life* and the founder of science accelerator IndieBio. *Decoding the World* is a buddy adventure about the quest to live meaningfully in a world with such uncertainty. It starts with Po Bronson coming to IndieBio. Arvind Gupta created IndieBio as a laboratory for early biotech startups trying to solve major world problems: Glaciers melting, Dying bees, Infertility, Cancer, Ocean plastic, Pandemics. Arvind is the fearless one, a radical experimentalist. Po is the studious detective, patiently synthesizing clues others have missed. Their styles mix and create a quadratic speedup of creativity. Yin and Yang crystallized. As they travel around the world finding scientists to join their cause, the authors bring their firsthand experience to the great mysteries that haunt our future: Natural resource depletion, Job taking robots, China's global influence. Arvind feels he needs to leave IndieBio to help startups do more than just get started. But as his departure draws near, he struggles to leave the sanctum he created. While Po has to prove he can keep the indie in IndieBio after Arvind is gone. After looking through their lens, you'll never see the world the same.

The Scientific Life Steven Shapin, 2009-08-01 Who are scientists? What kind of people are they? What capacities and virtues are thought to stand behind their considerable authority? They are experts, indeed, highly respected experts authorized to describe and interpret the natural world and widely trusted to help transform knowledge into power and profit. But are they morally different from other people? *The Scientific Life* is historian Steven Shapin's story about who scientists are, who we think they are, and why our sensibilities about such things matter. Conventional wisdom has long held that scientists are neither better nor worse than anyone else; that personal virtue does not necessarily accompany technical expertise and that scientific practice is profoundly impersonal. Shapin, however, here shows how the uncertainties attending scientific research make the virtues of individual researchers intrinsic to scientific work. From the early twentieth-century origins of corporate research laboratories to the high-flying scientific entrepreneurship of the present, Shapin argues that the radical uncertainties of much contemporary science have made personal virtues more central to its practice than ever before, and he also reveals how radically novel aspects of late modern science have unexpectedly deep historical roots. His elegantly conceived history of the scientific career and character

ultimately encourages us to reconsider the very nature of the technical and moral worlds in which we now live Building on the insights of Shapin's last three influential books featuring an utterly fascinating cast of characters and brimming with bold and original claims *The Scientific Life* is essential reading for anyone wanting to reflect on late modern American culture and how it has been shaped

U-Turn Bruce Grierson, 2008-12-01 In this impressively researched and incisive book Bruce Grierson draws on over three hundred stories of so called U turners who have risked their livelihoods to answer a sudden wake up call We meet people who change political parties and careers doctors who quit to become poets men who become women people who suddenly become revolutionaries for a cause they didn't care about the day before In chapters that address everything from the neuroscience behind epiphanies to the possibility of forcing a U turn Grierson brilliantly describes and elucidates this powerful mysterious phenomenon and in doing so illuminates all of our continual struggles with life choices and identity
