Barbara Kerr

Nurturing Talent In High School:

Nurturing Talent in High School Laurence J. Coleman, 2005 This is a fascinating chronicle of the lives of academically talented and gifted adolescents living in a special residential public high school The author who lived as a resident in the school's dormitory provides rare insights on how environment and potential talent interact inside a school to impact identity talent and advanced development By exploring the special context of the school this volume shows how the combination of rigorous academics and living with other talented children can create a high energy environment that accelerates the pace of development although many students may be unprepared to keep pace they do examines in depth issues of equity and excellence status and identity depicts a high school where equity and excellence co exist and offers an explanation for this unusual phenomenon in American high schools offers valuable information that can be applied to a variety of gifted and talented programs and other specialized learning environments and exemplifies a distinctive dedication to qualitative research methods setting a new standard for conducting such research Giftedness and Talent Nadine Ballam, Roger Moltzen, 2017-11-01 This book brings together recent postgraduate research in the broad area of giftedness talent development and gifted education conducted across New Zealand and Australia It addresses the significant demand for research in the field undertaken outside the United States and offers valuable practical insights Divided into 14 chapters the book explores giftedness and talent in a diverse range of socioeconomic cohorts and contexts including examinations of gender race and ethnicity Though primarily intended for practitioners it will also benefit undergraduate and postgraduate students researchers and educators in New Zealand Australia and beyond Best Practices in Gifted Education Ann Robinson, Bruce M. Shore, Donna Enersen, 2021-09-03 A gifted education Legacy Award winner Best Practices in Gifted Education provides concise up to date research based advice to educators administrators and parents of gifted and talented youth The 29 practices included in this volume are the result of an extensive examination of educational research on what works with talented youth The interest in culturally diverse and low income learners the means to identify talents and the need for curriculum that appropriately challenges high ability youth constitute just a few of the 29 practices Each practice is organized into a chapter containing two sections What We Know and What We Can Do The first section briefly describes the practice and summarizes the research The second section suggests what course of action a parent teacher or administrator might take at home in the classroom or at school The book is a must have for those who want a guide that makes a connection between research and practical action in gifted education A service publication of the National Association for Gifted Children Washington DC This designation indicates that this book has been jointly developed with NAGC and that this book passes the highest standards of scholarship research and practice *Encyclopedia of Giftedness, Creativity, and Talent* Barbara Kerr, 2009-06-17 The three volume Encyclopedia of Giftedness Creativity and Talent presents state of the art research and ready to use facts from the fields of education psychology sociology and the arts Confronting Dogmatism in

Gifted Education Don Ambrose, Robert Sternberg, Bharath Sriraman, 2013-06-17 This title looks at the dogmatism that limits the perspectives of professionals policymakers and other stakeholders in gifted education In a field where concepts and definitions surrounding high ability have been contested for many years there is increasing interest in clarifying these notions today This book offers such clarity searching outside of the predominant conceptual frameworks that dominate thinking about giftedness and talent and examining ways in which this conceptual fog stunts and warps the development of gifted minds and limits the effectiveness of curriculum development and instruction The book directly addresses the connection between dogmatism and high ability exploring ways in which otherwise bright individuals can make unintelligent decisions Each contributor in this edited collection connects educational theory with teaching practice examining the impact of policies such as No Child Left Behind The chapters also explore the ways in which economic cultural and academic contexts affect both the gifted mind and education of the highly able in America and the rest of the world while making recommendations for positive changes that can be enacted within gifted education in the future

Paradigms of Gifted Education David Yun Dai, Fei Chen, 2021-09-03 This book highlights how to conduct research in gifted education when researchers have to choose from myriad theoretical ideas hypotheses claims practical models and strategies It shows researchers how to build clarity rigor and relevance into a research agenda that combats fragmentation and contributes to enhanced theoretical and practical endeavors in the field Specifically Paradigms of Gifted Education advocates a paradigmatic approach to conducting research in gifted education and shows how it can be done every step of the way by specifying the essential questions of What Why Who and How in a coherent manner and by selecting methods that are appropriate for the question asked and the phase of the research efforts To facilitate the development of a research agenda the book identifies three major paradigms of gifted education and 20 essential research questions that would help move the field forward
