

ON TURNER'S TRAIL

Wilbur R. Jacobs

On Turners Trail 100 Years Of Writing Western History

Eckhardt Fuchs, Benedikt Stuchtey

On Turners Trail 100 Years Of Writing Western History:

On Turner's Trail Wilbur R. Jacobs, 1994 From a master historian this is one of the most important contributions in recent years to American historiography It adds to a penetrating analysis of the development of Turner's thought a searching consideration of the influence of his ideas an investigation of the advocacy and criticism that they have sparked and an estimate of their enduring importance Handsomely produced and illustrated Choice **On Turner's Trail** Wilbur R. Jacobs, 2021-10-08 Should Frederick Jackson Turner be revered as the father of western history or reviled as a misguided advocate of a frontier spirit and rugged individualism that denied cultural diversity and produced widespread environmental destruction Dividing into camps over the issue western historians place him everywhere from one end of the spectrum to the other In this provocative new interpretation of Turner's life work and legacy Wilbur Jacobs challenges the views of traditionalists and views of traditionalists and revisionists alike From extensive research in the Turner archives a nationwide search for additional Turner correspondence interviews with historians and a lifetime of collecting Turner anecdotes Jacobs chronicles Turner's professional and sometimes personal bequest through 100 years of Western historical writing Jacobs adds his voice to the heated debate by mixing a sophisticated critique of historical writing with stories of professional intrigue the fights to protect Turner's legacy limit access to the Turner archives and control the Western history Association He traces the intellectual development of Turner's frontier theory explores the intense rivalry between two major Turnerian disciples Frederick Merk and Ray A Billington as they vied for control of Turner's legacy and analyzes the efforts of new western historians who seek to erase Turner and Billington from the landscape of what is now called the history of the West Balanced in his assessments Jacobs treats Turner and his disciples with a sympathetic yet critical eye He points out Turner's limitations in dealing with environmental racial ethnic and urban themes as well as the shortcomings of Merk Billington and other Turnerians At the same time however Jacobs illuminates the major contributions of their work Despite their intense differences Jacobs argues all western historians remain inextricably linked by Turner's legacy [Untaming the Frontier in Anthropology, Archaeology, and History](#) Bradley J. Parker, Lars Rodseth, 2023-01-24 Despite a half century of attempts by social scientists to compare frontiers around the world the study of these regions is still closely associated with the nineteenth century American West and the work of Frederick Jackson Turner As a result the very concept of the frontier is bound up in Victorian notions of manifest destiny and rugged individualism The frontier it would seem has been tamed This book seeks to open a new debate about the processes of frontier history in a variety of cultural contexts untaming the frontier as an analytic concept and releasing it in a range of unfamiliar settings Drawing on examples from over four millennia it shows that throughout history societies have been formed and transformed in relation to their frontiers and that no one historical case represents the normal or typical frontier pattern The contributors historians anthropologists and archaeologists present numerous examples of the frontier as a shifting zone of innovation and recombination through which

cultural materials from many sources have been unpredictably channeled and transformed At the same time they reveal recurring processes of frontier history that enable world historical comparison the emergence of the frontier in relation to a core area the mutually structuring interactions between frontier and core and the development of social exchange merger or conflict between previously separate populations brought together on the frontier Any frontier situation has many dimensions and each of the chapters highlights one or more of these from the physical and ideological aspects of Egypt s Nubian frontier to the military and cultural components of Inka outposts in Bolivia to the shifting agrarian religious and political boundaries in Bengal They explore cases in which the centripetal forces at work in frontier zones have resulted in cultural hybridization or creolization and in some instances show how satellite settlements on the frontiers of core polities themselves develop into new core polities Each of the chapters suggests that frontiers are shaped in critical ways by topography climate vegetation and the availability of water and other strategic resources and most also consider cases of population shifts within or through a frontier zone As these studies reveal transnationalism in today s world can best be understood as an extension of frontier processes that have developed over thousands of years This book s interdisciplinary perspective challenges readers to look beyond their own fields of interest to reconsider the true nature and meaning of frontiers

A Global Encyclopedia of Historical Writing D.R. Woolf, 2014-06-03 First published in 1998 Routledge is an imprint of Taylor Francis an informa company

Re-imagining the Modern American West Richard W. Etulain, 1996-09-01 From the Mississippi west to the Pacific from border to border north and south here is the first thorough overview of novelists historians and artists of the modern American West Examining a full century of cultural intellectual forces at work a leading authority on the twentieth century West brings his formidable talents to bear in this pioneering study Richard W Etulain divides his book into three major sections He begins with the period from the 1890s to the 1920s when artists and authors were inventing an idealized frontier especially one depicting initial contacts and conflicts with new landscapes and new peoples The second section covers the regionalists who focused on regional mostly geographical characteristics that shaped distinctively western traits of character and institutions The book concludes with a discussion of the postregional West from World War II to the 90s a period when novelists historians and artists stressed ethnicity gender and a new environmentalism as powerful forces in the formation of modern western society and culture Etulain casts a wide net in his new study He discusses novelists from Jack London to John Steinbeck and on to Joan Didion He covers historians from Frederick Jackson Turner to Earl Pomeroy and Patricia Nelson Limerick and artists from Frederic Remington and Charles Russell to Georgia O Keeffe and R C Gorman The author places emphasis on women painters and authors such as Mary Hallock Foote Mary Austin Willa Cather and Judith Baca He also stresses important works of ethnic writers including Leslie Marmon Silko Rudolfo Anaya and Amy Tan An intriguing survey of tendencies and trends and a well defined profile of influences and outgrowths this book will be valuable to students and scholars of western culture and history American studies and related disciplines General readers will

appreciate the book's balanced structure and spirited writing style. All readers, whatever their level of interest, will discover the major cultural inventions of the American West over the past one hundred years. Banking in Oklahoma Before Statehood Michael J. Hightower, 2013-10-10. This lively book takes Oklahoma history into the world of Wild West capitalism. It begins with a useful survey of banking from the early days of the American republic until commercial patterns coalesced in the East. It then follows the course of American expansion westward, tracing the evolution of commerce and banking in Oklahoma from their genesis to the eve of statehood in 1907. Banking in Oklahoma before Statehood is not just a story of men sitting behind desks. Author Michael J. Hightower describes the riverboat trade in the Arkansas and Red River valleys and freighting on the Santa Fe Trail. Shortages of both currency and credit posed major impediments to regional commerce until storekeepers solved these problems by moving beyond barter to open ad hoc establishments known as merchant banks. Banking went through a wild adolescence during the territorial period. The era saw robberies and insider shenanigans, rivalries between banks with territorial and national charters, speculation in land and natural resources, and land fraud in the Indian Territory. But as banking matured, the better capitalized institutions became the nucleus of commercial culture in the Oklahoma and Indian Territories. To tell this story, the author blends documentary historical research in both public and corporate archives with his own interviews and those that WPA field workers conducted with old timers during the New Deal. Bankers were never far from the action during the territorial period, and the institutions they built were both cause and effect of Oklahoma's inclusion in national networks of banking and commerce. The no-holds-barred brand of capitalism that breathed life into the Oklahoma frontier has remained alive and well since the days of the fur traders. As one knowledgeable observer said in the 1980s: "You've always had the gambling spirit in Oklahoma." Quest West Richard Lehan, 2014-05-05. Few spaces remain as central to American consciousness as the western frontier. The vast territory which for generations fueled the desires and conquests of artists, philosophers, and politicians alike now offers new discoveries in Richard Lehan's Quest West. Through an intellectual and cultural history of the frontier experience, Lehan details the transformations of ideas and literary forms that occurred as the country expanded to the west and demonstrates how the wilderness and then, by turn, the urban frontier represent an ideological summary of the nation itself. His study involves the foundations of belief and the realms of evolving interpretations from mythic destiny to the more regional address of historicism. In both instances, the desire is to find meaning in the lost past. By tracing the evolution of Frederick Jackson Turner's famous thesis that the unchartered frontier ended in 1890 and was replaced with an equally precarious urban landscape, Lehan argues that the two spaces became the basis for a division still evident in America today. Historically, the wilderness accommodated conservative thinking, while urban environments proved more conducive to liberal values. Ideologies stemming from the two regions, as Lehan shows, found literary equivalents in fictional narratives ranging from subgenres like the Western and naturalism to modern forms like neorealism and noir, extending even into the postmodern. Lehan offers a view of the West as a cultural

phenomenon borne of ideological changes encompassing historical and literary movements from Puritan perspectives to the revisionist claims of Mark Twain and Walt Whitman from homesteading to imperial ambition *Quest West* traces these competing ideas as they appear in the works of major American writers such as James Fenimore Cooper Walt Whitman Willa Cather William Faulkner F Scott Fitzgerald John Dos Passos Nathanael West and John Steinbeck An important work of literary and historical scholarship *Quest West* presents compelling evidence that the meaning of America remains inseparable from the march of seminal ideas westward *Across Cultural Borders* Eckhardt Fuchs, Benedikt Stuchtey, 2002 This innovative work offers the first comprehensive transcultural history of historiography The contributors transcend a Eurocentric approach not only in terms of the individual historiographies they assess but also in the methodologies they use for comparative analysis Moving beyond the traditional national focus of historiography the book offers a genuinely comparative consideration of the commonalities and differences in writing history Distinguishing among distinct cultural identities the contributors consider the ways and means of intellectual transfers and assess the strength of local historiographical traditions as they are challenged from outside The essays explore the question of the utility and the limits of conceptions of modernism that apply Western theories of development to non Western cultures Warning against the dominant tendency in recent historiographies of non Western societies to define these predominantly in relation to Western thought the authors show the extent to which indigenous traditions have been overlooked The key question is how the triad of industrialization modernization and the historicization process which was decisive in the development of modern academic historiography also is valid beyond Europe Illustrating just how deeply suffused history writing is with European models the book offers a broad theoretical platform for exploring the value and necessity of a world historiography beyond Eurocentrism

The Human Tradition in the American West Benson Tong, Regan A. Lutz, 2002 The Human Tradition in the American West is an engrossing collection of 13 biographies of men and women whose contributions to the development of the American West have largely been left untold in the history books This volume goes beyond the traditional biographical reader by including the lives that collectively offer racial and gender diversity as well as differing class and sexual orientation backgrounds Editors Benson Tong and Regan A Lutz have assembled an impressive group of scholars whose succinct and well written accounts will give students a more complete understanding of this diverse dynamic region of the United States This book is an excellent resource for courses on the American West U S history survey courses and courses in American social and cultural history *The Columbian Covenant: Race and the Writing of American History* James Carson, 2014-12-18 This provocative analysis of American historiography argues that when scholars use modern racial language to articulate past histories of race and society they collapse different historical signs of skin color into a transhistorical and essentialist notion of race that implicates their work in the very racial categories they seek to transcend *American Frontiers* Gregory H. Nobles, 1997 Now available in a paperback edition AMERICAN FRONTIERS is a perceptive account of this country s

geopolitical developments and diverse frontier cultures With clarity and intellectual vigor Gregory H Nobles shows us not only the culture and social composition of the West but also the centuries of expansion and conquest all over the continent that created our nation as we know it today **Herbert Eugene Bolton** Albert L. Hurtado,2012-02-29 This biography examines the life works and ideas of Herbert E Bolton a prominent historian of the American West Mexico and Latin America

Hidden Treasures of the American West Patricia Loughlin,2005 The stories of two women historians and one anthropologist of the 1930s and 40s and their work in Oklahoma and the Southwest *The Study of History* ,2000 History is a subject which never stands still It is always changing its philosophies its contours its leading questions its politics its conceptual status and its methodologies This bibliographical guide to the study of history is wide ranging in scope extending from the ancient world to the 20th century It deliberately concentrates on modern historians views provides a substantial section on the philosophy of history charts controversies and highlights the continual evolution and diversification of history The material is logically organized in major areas and subsections and cross references are given where appropriate An index of authors editors and compilers is also provided **The Great Cowboy Strike** Mark Lause,2018-01-16 Although later made an icon of rugged individualism the American cowboy was a grossly exploited and underpaid seasonal worker who waged a series of militant strikes in the generally isolated and neglected corners of the Old West Mark Lause examines those neglected labour conflicts couching them in the context of the bitter and violent range wars that broke out periodically across the region and locating both among the political insurgencies endemic to the American West in the so called Gilded Age

Comparing Cowboys and Frontiers Richard W. Slatta,1997 Historians of the American West perhaps inspired by NAFTA and Internet communication are expanding their intellectual horizons across borders north and south This collection of essays functions as a how to guide to comparative frontier research in the Americas Frontiers specialist Richard W Slatta presents topics techniques and methods that will intrigue social science professionals and western history buffs alike as he explores the frontiers of North and South America from Spanish colonial days into the twentieth century The always popular cowboy is joined by the fascinating gaucho llanero vaquero and charro as Slatta compares their work techniques roundups songs tack lingo equestrian culture and vices We visit saloons and pulperias as well as plains and pampas and Slatta expertly compares clothing weather terrain diets alcoholic beverages card games and military tactics From primary records we learn how Europeans Native Americans and African Americans became the ranch hands cowmen and buckaroos of the Americas and why their dependence on the ranch cattle industry kept them bachelors and landless peons *Migration, Diaspora, Exile* Daniel Stein,Cathy C. Waegner,Geoffroy de Laforcade,Page R. Laws,2020-05-27 Migration is the most volatile sociopolitical issue of our time as the current escalation of discourse and action in the United States and Europe concerning walls border security refugee camps and deportations indicates The essays by the international and interdisciplinary group of scholars assembled in this volume offer critical filters suggesting that this escalation and its historical precedents do not

preclude redemptive counterstrategies Encoded in narratives of affiliation and escape these counterstrategies are variously launched as literary cinematic and civic interventions in past and present constructions of diasporic migratory or exilic identities The essays trace these narratives through the figure of the exile as it moves across times borders and genres transmogrifying into the fugitive the escapee the refugee the nomad the Other Arguing that narratives and figures of migration to and in Europe and the Americas share tropes that link migration to kinship community refuge and hegemony the volume identifies a transhistorical transcultural and transnational common ground for experiences of mediated diaspora migration and exile at a time when public discourse and policy making emphasize borders divisions and violent confrontations

The California Gold Rush Mark A. Eifler, 2016-07-22 In January of 1848 James Marshall discovered gold at Sutter's Mill in the foothills of the Sierra Nevada For a year afterward news of this discovery spread outward from California and started a mass migration to the gold fields Thousands of people from the East Coast aspiring to start new lives in California financed their journey West on the assumption that they would be able to find wealth Some were successful many were not but they all permanently changed the face of the American West In this text Mark Eifler examines the experiences of the miners demonstrates how the gold rush affected the United States and traces the development of California and the American West in the second half of the nineteenth century This migration dramatically shifted transportation systems in the US led to a more powerful federal role in the West and brought about mining regulation that lasted well into the twentieth century Primary sources from the era and web materials help readers comprehend what it was like for these nineteenth century Americans who gambled everything on the pursuit of gold Before the West Was West

Amy T. Hamilton, Tom J. Hillard, 2014-11-01 Before the West Was West examines the extent to which scholars have engaged in depth with pre 1800 western texts and asks what we mean by western American literature in the first place and when that designation originated Calling into question the implicit temporal boundaries of the American West in literature a literature often viewed as having commenced only at the beginning of the 1800s Before the West Was West explores the concrete meaningful connections between different texts as well as the development of national ideologies and mythologies Examining pre nineteenth century writings that do not fit conceptions of the Wild West or of cowboys cattle ranching and the Pony Express these thirteen essays demonstrate that no single unified idea or geography defines the American West Contributors investigate texts ranging from the Norse Vinland Sagas and Mary Rowlandson's famous captivity narrative to early Spanish and French exploration narratives an eighteenth century English novel and a play by Aphra Behn Through its examination of the disparate and multifaceted body of literature that arises from a broad array of cultural backgrounds and influences Before the West Was West apprehends the literary West in temporal as well as spatial and cultural terms and poses new questions about westernness and its literary representation The Spell Cast by Remains Patricia Ross, 2006-05-23 First published in 2006 Examining the constituting mechanism of the American wilderness myth in Modern American literature

Patricia Ross probes the various purposes for which wilderness is constructed. Considering the work of Hemingway, Faulkner, and Cather, she states that the idea of wilderness is just that: an idea and not a real entity or something that deserves to be wasted in the chasm of deconstruction. Discovering how literature can help us to understand how we can exert causative control of the myths we create about ourselves, this book is an important contribution to the field.

On Turners Trail 100 Years Of Writing Western History Book Review: Unveiling the Magic of Language

In an electronic digital era where connections and knowledge reign supreme, the enchanting power of language has be more apparent than ever. On Turners Trail 100 Years Of Writing Western History Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free On Turners Trail 100 Years Of Writing Western History PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and

pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free On Turners Trail 100 Years Of Writing Western History PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of On Turners Trail 100 Years Of Writing Western History free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About On Turners Trail 100 Years Of Writing Western History Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. On Turners Trail 100 Years Of Writing Western History is one of the best book in our library for free trial. We provide copy of On Turners Trail 100 Years Of Writing Western History in digital format, so the resources that you find are reliable. There are also many Ebooks of related with On Turners Trail 100 Years Of Writing Western History. Where to download On Turners Trail 100 Years Of Writing Western History online for free? Are you looking for On Turners Trail 100 Years Of Writing Western History PDF? This is definitely going to save you time and cash in something you should think about.
