Bruehler,2011-08-05 Was Jesus a public figure A political figure Yes according to Luke s gospel Jesus was a Christ who was both public and political Recent developments in the theory and practice of the study of space have provided tools to classify ancient social spatial spheres with greater nuance and depth A broad survey of literary and archaeological resources in the ancient world as well as an in depth look at Plutarch s Political Precepts and Philostratus s Life of Apollonius reveals that the familiar dichotomy of public and private does not suffice to describe the Hellenistic Roman milieu that shaped the author and audience of the third gospel This study employs social spatial analysis to explore how Luke uses the power of place to portray Jesus frequently engaging the unofficial public sphere and local politics specifically in 18 35 19 43 the public healing of the blind beggar the unexpected impact of Zacchaeus s hospitality the political implications of the parable of the king and his subjects and the publicity and politics of Jesus entry into Jerusalem The result is an illuminating look at the overall spatial character of Luke s gospel the development of Christianity in the latter half of the first century and the role of place in contemporary Christianity **Science and the Doctrine of Creation** Geoffrey H. Fulkerson,Joel Thomas Chopp,2021-03-02 Exploring the theological reception of developments of modern science this collection of studies from the Henry Center s Creation Project examines how influential modern theologians from the turn of the nineteenth century through the present have engaged the scientific developments of their times in light of the doctrine of creation **Relationship Is the Transformative Space** Darryl Wooldridge,2016-02-09 This book affirms relationship as the shared human elemental pursuit and proposes relationship as the transformative space Wonderfully the author asserts it is God s intention to fulfill this intrinsic human desire in the present in all of us and universally This desire is an often inarticulate innate desire and pursuit to enjoy and reflect the divine image in which every human being was created In this book this pursuit is referred to as proleptic spiritual transformation Pr ST That is this book demonstrates that what is too often relegated to eternity is available now Relationship is the Transformative Space considers God s heart in relationship and its implication toward human spirituality and how this intent has been interrupted and restored God is actively interested in the recovery of a fully expressed image in humanity Rain and Resurrection How the Talmud and Science Read the World Irun

Gay,2024-05-25 Holy Spirit 101 Understanding the Seven Spirits of God This book provides a clear and concise picture of who the Holy Spirit is His purpose and His plan concerning how He interacts with the believer In the Bible the number 7 is often used to convey the idea of completion The Word of God declares that the God we serve is a Spirit The Scriptures reveal that there are seven Spirits or attributes of God which clearly define who He desires to be in the life of every true believer Additionally the Bible provides proof that our Creator wants all seven Spirits or attributes to actively operate in our lives to ensure that we are fully empowered to overcome every temptation and obstacle that the enemy may throw our way Our Creator desires for us to mature into the people that we were created to become Journey with me as we learn more about the seven Spirits of God and how to incorporate them effectively into our daily lives *Providence and Prayer* Terrance L. Magical Nominalism Martin Jay, 2025-01-22 A bold and wide ranging study across centuries examining the conflict between conventional and magical nominalism in philosophy history aesthetics political theory and photography In this magisterial new book intellectual historian Martin Jay traces the long standing competition between two versions of nominalism the conventional and the magical Since at least William of Ockham according to Jay the conventional form of nominalism has contributed to the disenchantment of the world by viewing general terms as nothing more than mere names we use to group particular objects together rejecting the idea that they refer to a further higher reality Magical nominalism instead performs a reenchanted function by investing proper names disruptive events and singular objects with an auratic power of their own Drawing in part on Jewish theology it challenges the elevation of the constitutive subject resulting from Ockham's reliance on divine will in his critique of real universals Starting with the fourteenth century revolution of nominalism against Scholastic realism Jay unpacks various counterrevolutions against nominalism itself including a magical alternative to its conventional form Focusing on fundamental debates over the relationship between language thought and reality Jay illuminates connections across thinkers disciplines and vast realms of human experience Ranging from theology and philosophy of history to aesthetics and political theory this book engages with a range of artists and thinkers including Adorno Ankersmit Badiou Barthes Bataille Benjamin Blumenberg Derrida Duchamp Foucault Kracauer

Kripke and Lyotard Ultimately Magical Nominalism offers a strikingly original way to understand humanity's intellectual path to modernity
