Profit Is Not The Cure A Citizens Guide To Saving Medicare:

Profit Is Not the Cure Maude Barlow, 2011-02-18 On July 12 1966 the Medical Care Insurance Act was passed by the federal House of Commons after a ferocious public debate that pitted the vast majority of Canadians against a powerful alliance of business insurance companies and doctors More than thirty years later the same battle is being fought all over again Only now the forces opposed to medicare are more ideologically unified more richly endowed and tied to transnational corporations whose power exceeds that of entire countries In *Profit Is Not the Cure* Maude Barlow traces the history of medicare in Canada She compares it with both public and private systems in other parts of the world And she contrasts it with the brutally divisive system that exists in the United States where forty four million people have no medical insurance and millions more get minimal care through profit driven health maintenance organizations From the point of view of most patients the United States health care model is a disaster But the proponents of privatization in Canada supported by the right wing media and corporate lobbyists are determined to impose American style reforms on the Canadian public Three provinces British Columbia Alberta and Ontario are moving ahead rapidly to enlarge the role of commerce in the provision of health care services They are introducing user fees delisting procedures that previously were covered and encouraging private corporations to move into areas that used to be the exclusive domain of the public system While the prime minister and federal cabinet have paid lipservice to the principles of medicare they have made it clear by their actions that they will do nothing to impede the destruction of those principles by the provinces In fact their enthusiastic support of NAFTA and the impending Free Trade Agreement of the Americas FTAA and General Agreement on Trade in Services GATS has made the defence of medicare increasingly difficult Canadians overwhelmingly support medicare Many however have been persuaded that it is a luxury we can no longer afford Maude Barlow argues that this proposition is wrong An earlier generation fought a bitter battle to bring medicare into existence Another battle must be fought now to save it But we owe it to the founders of the system as well as to future generations to take up the cause again This important book shows the way *Profit is Not the Cure* Maude Barlow, 2002 *Health Care on Less Than You Think* Fred Brock, 2006-10-17 Introduction in the waiting room Spending more getting less Protect your health protect your budget Off the job Health savings accounts The state of your health and the state where you live Rx for your wallet Mastering your insurer's fine print Planning for Medicare The threat to your savings and retirement Sorting out your options Afterword a new framework **The Public intellectual in Canada** Nelson Wiseman, 2013-10-28 This illuminating entertaining and timely volume examines the place and impact of public intellectuals in our rapidly changing and diverse society Boasting an all star cast of contributors including some of Canada's most prominent writers journalists and academics it probes the role of public discourse and intellectual persuasion in shaping Canada's past present and future The Public Intellectual in Canada examines how individuals have come to assume this role how they are received by various publics and what they have been able to accomplish The pieces cover

topics ranging from the potential and perils of advocacy to the influence of think tanks on public policy. Many pieces also delve into the roles of pollsters, political actors, pundits, social activists, economists, and ethicists among others. Broad in scope and stylistically diverse, these essays offer a fascinating overview of the links between thought, public exposition, and action in the fields of politics, science, and culture.

Staying Alive, Third Edition: Critical Perspectives on Health, Illness, and Health Care Dennis Raphael, Toba Bryant, Marcia Rioux, 2019-12-13. This new edition of *Staying Alive* provides readers with a fresh perspective on health, health care, and illness in Canada and abroad. Grounded in a human rights approach to health, this edited collection includes chapters on the social construction of illness and disability, social determinants of health, and current critical issues in the field. The third edition has been thoroughly updated and includes recent national and international developments in health care, with current world statistics and an emphasis on austerity-related changes and their effects on health and health care systems. It includes chapters on pharmaceutical policy, social class, women's health, and the impact of economic forces such as globalization and privatization in health care.

From Naked Ape to Superspecies David Suzuki, Holly Dressel, 2009-07-01. For millennia we lived in harmony with the Earth, taking only what we required to survive. But in just the past few centuries we have used our powers to satisfy our obsession with consumption and new technology without regard for the consequences. And in doing so, we have exploited our surroundings on an unprecedented scale. In this revised and updated edition of *From Naked Ape to Superspecies*, David Suzuki and Holly Dressel lucidly describe how we have evolved beyond our needs, trampling other species, believing that we can make the Earth work the way we want it to. And they introduce us to the people who are fighting back: those who are resisting the inexorable advance of the global economy, juggernaut the people whose voices are difficult to hear over the din of corporate public relations machines. We learn about human arrogance demonstrated by our disregard for the small and microscopic species that constitute the Earth's engine, and our reckless use of technological inventions like powerful herbicides or genetically engineered crops is threatening the health of our children and the safety of our food supply.

Emergency Policy Allan McConnell, 2017-03-02. This volume of leading scholarly articles addresses the international dynamics of emergency policy and practice. In a world of increasing technological, economic, and political interdependency, it is no longer feasible for states to ignore the pervasive influence of globalisation. The crises wrought by industrial disasters, catastrophic weather events, pandemics, financial implosion, and cyber intrusion now transcend and challenge national interests with increasing frequency. The case studies collected here explore these global dimensions of crisis and the state through the lenses of planning and prevention, acute responses, recovery, and reconstruction, and learning about crisis. This collection is essential reading for academics, policy officials, and practitioners with an interest in emergency management, risk management, and issues of national/global security. In original introductory and concluding chapters to the volume, Legrand and McConnell provide a critical perspective on the challenges that globalisation presents to policymakers under crisis conditions and signposts some of the emerging challenges.

to the state and international community **Blue Future** Maude Barlow, 2011-05-10 Water is a human right A rousing case for what will be one of the key environmental challenges of the twenty first century Booklist The United Nations has recognized access to water as a basic human right but there is still much work to be done to stem this growing environmental crisis In this book water activist Maude Barlow draws on her extensive experience to lay out a set of key principles that show the way forward to what she calls a water secure and water just world Not only does she reveal the powerful players even now impeding the recognition of the human right to water she argues that water must not become a commodity to be bought and sold on the open market Focusing on solutions she includes stories of struggle and resistance from marginalized communities as well as government policies that work for both people and the planet At a time when climate change has moved to the top of the national agenda and the stage is being set for unprecedented drought mass starvation and the migration of millions of refugees in search of water Blue Future is an urgent call to preserve our most valuable resource for generations to come In a book as clear as a pristine mountain stream Maude Barlow lays out a practical and inspiring vision for how we can defend water the source of all life from the forces of death Naomi Klein author of The Shock Doctrine

Hegemonic Transitions, the State and Crisis in Neoliberal Capitalism Yildiz Atasoy, 2009-01-08 More than 15 years have passed since the end of the Cold War but uncertainty persists in the political economic shaping of the world economy and state system Although many countries have institutionalized neoliberal policies since the mid 1970s these policies have not taken hold to the same degree nor have their effects been uniform across all countries Nevertheless there has been widespread deepening of inequalities and therefore scepticism towards the neoliberal project Uncertainty prevails not only in the relations between states but also in the relations between forces of capital citizens and political power within states Moreover there is conceptual confusion in our understanding of the events and processes of neoliberal global transformation This collection of essays provides a comprehensive theoretical and empirical examination of neoliberal restructuring as a complex political process In an effort to penetrate and clarify this complexity the book explores the connections between the economy state society and citizens while also offering current examples of resistance to neoliberalism The book provides a forum for rethinking politics that represents a turn to societal forces as essential not only to the uncovering of this complexity but also to the formulation of democratic possibilities beyond global hegemonic projects The book does not seek to produce a new model for social change nor does it dwell on the spatial aspects of modernity s new form or the emergence of a new state hegemony China or new forms of rule empire in managing the world capitalist economy Instead the book argues that an understanding of hegemonic transformations requires the problematization of global power as embedded in historically specific social relations *Medicare* Canadian Centre for Policy Alternatives, 2007-11-15 Editors Bruce Campbell and Greg Marchildon have gathered 34 contributors who offer a wide ranging authoritative portrait of medicare in Canada today
